fragment of a shell at Chancellorsville. His two sops accompanied him to the field, the eldest of whom, a young man of eighteen years, who had advanced him. self by sterling ability to the command of a battery, with the rank of Captain, and gave promise of the utmost capacity and usefulness, was killed at the battle of Wauhatchie "At the time that he fell," says an eloquent writer, "he was acting as Lientenant of one section of Knapp's Battery. As an artillerist he had no su-

put to night. This General Hooker pain during most of his administration from sale, and to conceal its appalling cruelty, pronounces that has come to his knowl. a disease which has not yet been conquered. Contrived to copy secretly, the entire list

under circumstances that would have courage." Such is the character of General Geary !

ANOTHER TRIUMPH OF GENIUS. --- Mr. siding at 245 South Sizth street, has in- around his person, and make his name mem- property, and having come into possession vented and patented a stove, for all the orable. ordinary purposes of cooking and heating without the use of coal or wood. In its construction it is original and simple, and for its intended use decidedly effective. The very many objections to gass stoves. hitherto presented to the public, are entirely overcome by the invention of Mr. tirely overcome by the invention of art, and which shares has some peculiari-Birkey. Its peculiarities consist in its intensity of heat, perfect combustion, du-terms of the contracts for either the sale or Soldiers Buried at Andersonville." It is

1 P

rability, economy, cleanliness, and absence of carbon. An idea may be formed of its power, from the fact that, with six feet or gas per hour, a gallon of water will boil in per hour, a gallon of water will boil in eleven minutes; or, in other words, only termination of the founders of the town to about one foot of gas is used to accomplish about one foot of gas is used to accomplish this much. The brighest metal kettle or they have taken the most effectual way to this much. The brighest metal, kettle or pan used on this stove will be perfectly render the prohibition permanent and secure. free from carbon or lampblack.

For heating purposes alone, this invention is worthy of peculiar and popular consideration, for it may be made to take drawing rooms, bed-chambers, murseries, his past record. It has often been urged that but stated that instead
