A Single box of BRANDETH'S PILLS contains more vegetable extractive matter than twenty boxes of any pills in the world besides; fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, sudden death and continuing sickness will be of the past. Let those who know themselves right out in their favor. It is a duty which will save life.

Our race is subject to a redundancy of vitiated bile at this season, and this is dangerous as it is prevalent; but Brandeth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which, when in sufficient quantities, cause so much danger to the body's health. They soon remove Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Heart-Burn, Pain in the Breast Bone, Sudden Faintness and Costiveness. Sold by all respectable dealers in Medicine. my15ml

REASONS WHY THE AMERICAN WATCH Made at WALTHAM, MASS. IS THE BEST. It is made on the best principles. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore perfectly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "aucares," "lepinas" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign imports—the refuse of foreign factories—which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unexcelled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for more money than foreign watches, but we do assert without fear of contradiction that, for the same money our product is incomparably superior. All our watches of whatever grade are fully warranted and his warranty is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeit watches will be prosecuted.
