

Johnson in New Orleans.

The policy of the miserable renegade of the White House has culminated in New Orleans. The assembling of the Union State Convention, called together by the Governor of the State to complete the work for which they were elected, they having adjourned from time to time, has been broken up by a desperate and bloody mob, sympathized in by the pardoned traitor, Mayor Monroe, and his police. Members of the convention were shot down while in session by the crowd outside, and, as usual, the vengeance of the Johnson mob was wreaked on unoffending negroes.—The Mayor and his minions excuse their bloody work, and declare the riot caused by Gov. Walls because he called the convention together! It is the old "Democratic" game of mobbing down meetings opposed to them and then charging the peacefully and legally assembled meetings with being the cause of the riots.

Mayor Monroe is the man who was in the same office when Gen. Butler captured the city. His treason was so glaring that even Andrew Johnson, when he (Monroe) was elected Mayor, since the war closed, refused to allow him to act; but the same traitor Mayor was soon reconstructed pledged to my "policy," and pardoned. He has now shown his devotion to Copper Johnsonism, and should be sent to the convention on the 14th of August as a genuine specimen of reconstructed rebels.

The convention met on the 30th of July. On the same day a peaceable procession of negroes was met and attacked by whites, who attempted to disperse them. The excitement seems to have subsided until the Monroe-Johnson policy commenced arresting without a cause, the members of the State Convention. A large number of negroes assembled at the building, and a mob of Johnson men collected, aided by the Mayor and police, when an indiscriminate murdering seemed to be determined upon by the crowd and every head that was seen from a window was fired at. Some were killed and some wounded.

The end of this terrible exhibition of Johnsonism so far as we are advised at the present writing, is the declaration of martial law in New Orleans. That city evidently needs Ben. Butler's presence again. The following is the order establishing martial law:

portion and capturing others of the convention, Confederate flags were raised and floated in triumph until martial law was declared.

Delegates had been elected to the Philadelphia Convention. Gen. Herron was one. He declines to attend, stating that he considers the fate of the State was settled by the riotous proceedings in New Orleans. Other delegates have also declined. They know that a loyal people will not admit men into Congress from States where the rebel flag is raised by the reconstructed people.—*Bulletin.*

THE JOURNAL.

Coudersport, Pa.
Tuesday, Aug. 7, 1866.
M. W. McALARNEY, Editor.

FOR GOVERNOR:
GEN'L J. W. GEARY,
Of Cumberland county.

Hon. G. A. Grow

Will address the Union County Convention, on Thursday afternoon, at 3 o'clock. It is suggested that the Delegates meet at one o'clock and transact their business before the address. Come early! Mr. Grow is one the most eloquent and entertaining speakers of the Keystone. Let there be a general gathering of the People!

Delegate Elections occur on Tuesday, the 14th, between the hours of 4 and 6 p.m. Convention, on the Thursday following, at ONE o'clock, p. m.

There is report in this county that Gen. James A. Beaver, of Centre county, is to run on the copperhead ticket, for congress. We don't believe it. How is it, Mr. Press.

The organ of Pharaoh's Moses, published in the lower part of the district, is repudiated by the people of this county. Every Republican we know of refused to take it from the office. They can respect an honest, open opponent; for a hypocrite they have no sympathy.

If Louisiana is in the Union, had President Johnson jurisdiction in the case of the New Orleans riots? Did he not, by his orders place himself upon Thaddeus Stevens' platform, which declares the State to be out of the Union? It is immaterial which side he takes, but we hope his rebel allies will convince him of the necessity of consistency.

The Union Republican, of Williamsport, accuses Stephen F. Wilson, of voting for an increase of salary. Does not the editor know that he is publishing what every man in the district, knows to be a falsehood. You can not mislead the people by pursuing such a course. The people read, and generally know as much about the acts of their representatives as country scribbles.

The Rebels are running candidates for the Supreme Court pledged to declare Unconstitutional all the laws passed by the United States Congress since the Rebels left in 1861! These are re-constructed rebels, pure Union men, ready to submit to anything—even to taking a seat in the Philadelphia Convention! Are they not a pretty party to frame laws for the future, provide means for paying the public debt, and protect those who suffered in the war for Liberty.

The election in the city of Buffalo, on Monday of last week, on the question of the city loan of \$200,000 for the Buffalo and Washington Railroad, resulted in favor of the loan. The contract price for building the road is \$41,000 per mile, and if this loan is properly expended it will build the road and switches within the limits of the city. This is certainly a munificent bequest for a city as small as Buffalo! It is a pure act of charity, the citizens never expecting or even hoping for remuneration!

If failure to nominate Stephen F. Wilson for re-election to Congress, is to be construed into a repudiation of Congress and an endorsement of the President, the Republican party of this District have but one course to pursue, and that is not only to secure his nomination, but also his election, and make it the first great work. Personal animosities and private grifts can be laid aside. Treachery to principle to secure plunder may do for some, we have no love for either. Copperheads and Johnsonites cannot prepare a ticket for the franchises of the people of Potter county.

The Johnson organ in Lycoming county says Vallandigham and men of his character will not be admitted to the Philadelphia Convention. In that case what becomes of your neighbor, the ex-Governor? We have seen him sneer at the report of Union victories, and evince much quiet satisfaction at Union defeats. We have heard him term the war an unholy war, and pronounce its leaders despots and usurpers. Has not ex-Governor Parker been as consistent a Copperhead and Rebel as his more blatant friend, Vallandigham? If Rebels from Pennsylvania are admitted why should Rebels from Ohio be excluded? According to our way of thinking, "they have all been tarred with the same stick."

Gen. Simon Cameron, in introducing Gov. Hamilton, of Texas, at the meeting held in Harrisburg, on the first of August, said: "He was glad to see so many people present on so short a notice. He counseled energetic action. He pronounced President Johnson a bad man, faithless to his promises and an enemy to his country. The question was, if poor and honest negroes should be murdered in cold blood after the rebellion, and whether a handful of white men in South Carolina should cast the votes of the negroes who were inexperienced. Every leading traitor should be hung, (cheers) and we ought to insist upon President Johnson's advice, that treason should be made odious." Gen. Cameron's opinion is the opinion of the loyal masses of the whole country, and we thank him for having put it in words. He is now, as he was in the first years of the war, among the advance guard of Liberals, and if his advice had then been taken, much blood and treasure would have been saved out of the wreck of the past five years, and to-day rebels would not be taking vengeance on the innocent and shedding the blood of the loyal. A cool, clear-headed, and far-sighted statesman, whose conclusions are the result of reason, no one within her borders represents the Keystone more truly than Simon Cameron.

During the winter of 1861 and '62 the Hutchinson family was ordered from within the lines of the Army of the Potomac, because they sang Songs of Freedom! There was universal indignation manifested at this proscription; however, many acknowledged that there was some excuse for this, as the yoke placed upon the neck of Liberty by Slavery had not yet been broken. But President Johnson, denying the results of the last five years' work, has lately forbidden the officers of the Freedmen's Bureau to aid in the circulation of *The Right Way*, a little paper published in the interests of the colored race. At this the people are not surprised. It is a consistent act on the part of "Moses!" He is only doing that which will please the rebels, of this he has their assurance by their example. A few months ago the States of Georgia and Mississippi passed acts forbidding the sale of northern illustrated papers in the book and news' offices of their respective States. The next thing will be their ransacking the mails for all northern papers, as in the days of Pierce and Buchanan. Be patient, as a popular minister said a few sabbaths ago in one of our churches, "God is not de-throned, the Devil don't reign, the Lord will have the majority, and win in the long run." We can bide our time, the light cannot be crushed out forever.

Further about the Railroad. A committee of the Directors of the B. & W. railroad have made the following report: "They have caused a careful survey to be made of the line, and have found it to be much more advantageous and practicable than they had originally expected. A careful and thorough examination of the coal regions at the southern terminus of the road has fully confirmed the fact that the road passes through inexhaustible fields of bituminous coal; that it is upon the direct route to the great Anthracite coal beds of Pennsylvania; and that both can be brought to Buffalo, over the proposed road, cheaper and more directly than by any other route. The road will pass through the most fertile and thickly settled portion of Erie county, (N. Y.) and cannot fail to develop a paying local traffic. It connections with already established roads also make it the most direct route between Buffalo and Philadelphia, Baltimore or Washington. Aside from the direct local advantages to our city which must inevitably follow the construction of the road, there can be no doubt, judging from the facts above stated, that the road will prove a remunerative investment to its stockholders.

We also report that the Directors have already contracted with Messrs. DeGraff, Smith & Co.,—responsible and well-known builders—for building and equipping the whole length of the road from Buffalo to Emporium, a distance of one hundred and ten miles, where it connects with the Philadelphia and Erie railroad. The contractors have bound themselves to do all the work upon the road and furnish all the materials; they are to construct twelve station houses, and the wood-sheds, water-tanks, engine houses and turn-tables, switches and side tracks which the Chief Engineer shall deem necessary, and to construct the road and its appurtenances in the best manner, so as to make it a first class road. They are to furnish, upon the road, ten first class locomotives, ten passenger cars, four baggage and post office cars, one hundred box freight platform cars, and twenty hand cars, all to be of the best kind and suited to the road. The contractors are to receive \$41,000 per mile for the road thus constructed and equipped, of which \$18,000 is to be in the bonds of the company, and \$25,000 in stock payment, the sum of \$200,000 which the company have agreed to pay in cash or the bonds of the city of Buffalo.

"The company are to pay as the work progresses, but in no case before the work is done. The contractors commenced work on the 21st day of May between Buffalo and Aurora, and are progressing very satisfactorily. They are to finish and equip the road in sections, commencing at Buffalo, in order to make it immediately available as fast as built."

Letter from the Capitol.
HARRISBURG, PA., Aug. 1, 1866.
DEAR JOURNAL: To-day the third scene on the Clymer programme took place. To-day the capital of the Keystone State was decorated by men, not Soldiers, who are in secret covenant with the enemies of the Government. The Cops, had failed to receive a general salute, but on other occasions signally failed. Last night the prospect of large delegations, but none came. About 9 o'clock P. M. an erratic crowd composed of boys and a few Clymer men came marching up Third street, headed by an individual playing the bag-pipe, and when opposed by the Union League Rooms gave three cheers for the "Democracy of Pennsylvania." I learned that this delegation was from Reading. To-day the entire crowd will not exceed three hundred boys and girls. This forenoon they marched to the Capitol and entered the House of Representatives for the purpose of organizing the pseudo-convention. The scenes which followed baffled description. Such stamping, whooping, puffing, was never before heard in that hall. After some disagreement they organized. Col. McCandless was elected President, supported by a long list of Vice Presidents styling themselves all kinds of military men. After organizing and making a few displays of military drill, they adjourned to Market Square, where they met in the afternoon. Gen. W. H. Davis then reported the resolutions. This man is the Editor of the Doylestown Democrat, a newspaper that opposed the Union men during the war, denouncing the President as a usurper, and characterized the leaders of our armies as butchers. His resolutions were fraught with disloyal sentiments, and the preamble was a dastardly attack on the brave boys of the Potomac. They eulogized Johnson and eulogized the sentiments which Heister Clymer and W. W. Wallace enunciated time and again in the State Legislature. Then they repaired to the Bolton House and called on the "Soldiers' Friends" to address them. A friend of the Soldiers! An enemy who opposed the Soldiers as a Senator and, not only voted against but denounced them. Clymer commenced his labors by laughing and ranting mortification at the failure of the Convention. He endorsed the platform of his party, which endorses the McClellan and Pendleton platform adopted at Chicago. Remember, Soldiers of Pennsylvania, that the Chicago platform declared the war for the Union a failure, and the National debt a fraud! Such are the principles enunciated by this rabble which to-day seeks to destroy the Republican Party, and to assume the control of the Government! After Clymer, came W. H. Miller, but as he failed entirely we will pass him by, to the sublime reflections of his leisure moments. Then came W. A. Wallace, of Clearfield county, who repeated the Copperhead alphabet and subsided. They closed this rally with a speech by a concerned. All that was retained to tell of this "memorable day" was a few faint murmurs in the aisles, in the Lager Beer saloons, and occasionally a curse on Heister Clymer, by a Berks county delegate, because Clymer failed to redeem his promise to keep and feed them.

These men who styled themselves "Soldiers" were men who enlisted for emergencies, and county-jumpers. I was informed by a veteran Soldier that some of the men from Lebanon county never enlisted or saw an army. The man who informed me was acquainted with the Boys from Lebanon and knew whereof he affirmed. The Democratic party of the Keystone State know that Heister Clymer cannot be elected, and no true Soldier in this section of the State has joined the Cops. A Soldier came to me the other day and said, "I am a Democrat, and I voted for Johnson, but I never will run." I am not a Democrat, but I never will run." We can bide our time, the light cannot be crushed out forever.

chica and side tracks which the Chief Engineer shall deem necessary, and to construct the road and its appurtenances in the best manner, so as to make it a first class road. They are to furnish, upon the road, ten first class locomotives, ten passenger cars, four baggage and post office cars, one hundred box freight platform cars, and twenty hand cars, all to be of the best kind and suited to the road. The contractors are to receive \$41,000 per mile for the road thus constructed and equipped, of which \$18,000 is to be in the bonds of the company, and \$25,000 in stock payment, the sum of \$200,000 which the company have agreed to pay in cash or the bonds of the city of Buffalo.

"The company are to pay as the work progresses, but in no case before the work is done. The contractors commenced work on the 21st day of May between Buffalo and Aurora, and are progressing very satisfactorily. They are to finish and equip the road in sections, commencing at Buffalo, in order to make it immediately available as fast as built."

A BEARON OF HEALTH.
The good things of this world have each their appointed mission. It is the mission of HOSTETTER'S STOMACH BITTERS to prevent and relieve a great variety of ailments.

For twelve years its success as a protective and a remedy has been without a check or drawback. It is a strong, negative evidence of the fact that the efficacy of the article is specific for dyspepsia, biliousness, constipation, nervousness, general debility, and intermittent fevers, has never been questioned.

As a proof positive of its infallibility in such cases, the statements of public men whose names are familiar as household words, have from time to time been given to the world. In the first place, then truth is a shadow, and the utterances of conscientious citizens are no more rime than "whereas" twenty.

And what is its reputation? Let us discuss it in its own native language. Where twenty dozen bottles of Hostetter's Bitters were sold in 1858, five hundred were disposed of in 1864. Could public opinion be more significantly expressed than by its unparalleled increase of consumption? It seems impossible.

The preparation has been imitated. Where are the imitators? Echo answers, "Where?" To the "Jumbo" of things lost on earth they are all either gone or going. Peace be with them!

WORKS OF NATURE.—In a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining lands, fertilizing them, and making them productive; but if the channel of the river is narrowed, or if the water is impeded, the waters stagnate, and the lands become barren, and the water becomes stagnant. There is but one way of alleviating the malady. When there is a superabundance of humors, a kind of inflammation, the vessel, and infiltrates itself into the circulation. To establish the free course of the river, we must remove the obstructions which stop the free flow of its tributary streams. With the body, follow the same natural principle—remove the obstructions from the bowels with RHEUMATIC BITTERS, and those of its tributary streams, which stop the free flow of the system from foulness or disease. Remember, never suffer a dangerous accumulation to take you. Evacuate the humors as often and as long as they are deranged, or as long as you are sick.

SPECIAL NOTICES.

Ayer's Pills.
ARE you sick, feeble and complaining? Are you out of order—your system deranged, and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some of the chief ailments which you are liable to, and should be relieved by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make derangement, and restore it to its normal condition. A cold, catarrh, or other ailment of the bowels, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. In the treatment of all these ailments, Ayer's Pills and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. What is true and apparent in all this, is that it is a safe and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative effects them. Caused by similar obstructions and derangements, they are cured by similar means, rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders to which they are liable. Headache, Biliousness, Dizziness, Bilious Complaints, Indigestion, Derangement of the Liver, Constipation, Heartburn, Rheumatism, Dropsy, Wounds, and Eruptions, when taken in large doses.

They are singularly good, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Gripe Cure.
For the speed and certain Cure of Intermittent Fever, or Chills, and Fever, Headache, Colic, Cholera, Vomiting, Diarrhea, Periodical Headache or Bilious Headache, and Bilious Fever; indeed, for the whole class of diseases originating in bilious derangement, caused by the malassimilation of food.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has the great advantage of other Gripe Medicines, that it produces no complaint without injury to the patient. It contains no opium or other deleterious substance, nor does it produce any kind of inflammation, or other dangerous effects. It is a safe and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative effects them. Caused by similar obstructions and derangements, they are cured by similar means, rapidly, cured by the same means. The World's Opinion of Hostetter's Stomach Bitters.
Touching these Bitters this grand fact is clear, their name fills all the columns of the newspapers. Known to all hands, washed down by the masses, Health, hope and vigor follow in their train.

AVOID COUNTING FEELS.
HOSTETTER'S BITTERS share the common fate of all things new—Impostors imitate. Of these beware—discern us by our eyes. From honest houses purchase our supplies.

GATTON.
THE GOSWELL BROTHERS, in order to guard against dangerous impostors, have requested to take special notice of the small single and proprietary stamps, through which the Government of the United States officially certifies every bottle of HOSTETTER'S BITTERS. This should throw the Government into the hands of the public for their protection. They are most conspicuous across the cover and over the neck of each bottle and cannot fail to strike the eye of the most casual observer. Notice that the Bitters are Hostetter's Bitters can be genuine as the name is clearly there.

It is also proper to state that the Bitters are sold in glass, and never under any other name, by the gallon or barrel. Impostors and imitations abound, and the only safeguard the public has against these is to discern the name, and to purchase the genuine label and note of hand of Messrs.
