A Turnout, Tour and Trout. Pic-nics are usually of such common-place character as to make their mention a merely dull reference, to the dullest of incidents. Recently however, we have had the pleasure of participating in a pie-hic, so striking in its character and impressive in feature, as to justly entitle it to a place among the aniversaries. Our company was a spontaneous one, numerously made up and yet, as we sat out for our day's journey up among the mountains of our neighboring county of Potter, we could not but feel it a pity that many more of our neighbors some t a pity that many more of our neighbors, some detained from one cause and some from another Mason Nelson & Co. have dissolved artnership. We sleept sweetly and soundly, awaking in the morning, each looking for latitude and longitude, since the good burghers had, in the exercise of a generous ho pitality, so divided up our company as to make it difficult to determine where one went away

Purgative Pills have become a settled necessity with the American people. Indeed, catharties always have been and always must be used, in some form, by all mankind. In this country, the pilular form of administration has been growing in favor since pills were first made of Aloes and Rhubarb, rolled into a ball. Their high position in the public confidence has finally been secured and fastened into permanency, by AYER'S CATHARTIC PILLS, the most skillful combination of medicine for the diseases they are bination of medicine for the diseases they are intended to cure, that science can devise or art produce. Those who need pills no longer hesitate what pills to take if they can get Aren's PILLS.—Wheeling (Va.) Press.
