Don't be foolish. You can make Six Dollars from Fifty Cents. Call and examine an invention urgently needed by everybody. Or a sample sent free by mail for 50 cents, that retains easily for \$6, by H. L. Wolcott, 179, Chatham Square, New York.

BREVETED.—The name of our townships, Senator Cowles, appears in the list of officers breveted Major for gallant and meritorious service in the field, at the last Executive session of the Senate. Considering that the Major was not aware that this brevet was being asked for, we think he bears his honors meekly. —Merr.

Mr. Gillon, of this place, killed his dog on last Saturday morning, which he had up for several days, and which gave every evidence of being mad. People had better be careful of the dogs. Better that all dogs be killed than one person be bitten by one who had run mad. We see that quite a number of cases of hydrophobia are noticed in our exchanges, and in one or two cases persons have been bitten.

MORTALITY.

There seems to be a great deal of Dysentery and Cholera morbus about just now, and our list of deaths is much larger than we are usually called upon to record. Eating unripe or decayed fruit is the principal cause.

Cole's Dyspepsia Cure will be found an infallible remedy for all such cases. It should be kept in the house and immediately used at the first attack. It is also a sovereign cure for dyspepsia, in its worst forms. Those who have tried everything else and failed, will rejoice that an infallible remedy has been found.

During the epidemic of intermittents in the West this season, the whole immense stock of Ayer's Ague Cure became exhausted, and the leading power of his Laboratory was found inadequate to meet the demand. Many who knew its extraordinary virtues, for the cure of Chills and Fever, paid exorbitant prices for it to those who were fortunate enough to have a supply on hand. Some of our neighbors paid ten dollars for a bottle, while the regular price is but one, and assure us it was on the whole the cheapest remedy they could buy, even at that figure. They raise it for two qualities: first, that it cures, and last that it leaves the health unimpaired. —Local Standard.

The past month has been very wet and cloudy, with occasional frosts which have touched the buckwheat, corn and potatoes in some parts of the county. Very little has yet been harvested. Crops as a general thing promise well and the hay crop is particularly large. One intelligent farmer told us that he expects to see hay selling for \$7 per ton before next laying time. The cattle stock of the county has been very much reduced during the past few years, which in a measure accounts for the cheapness of the yearling calves. They are selling as high as \$30, while two-year-olds have brought from \$45 to \$60.

Three Months for Nothing.—A VALUABLE OFFER.—The enterprising publishers of the American Agriculturist offer that valuable journal FREE for the remaining three months of this year to all new subscribers for 1885 (Vol. 30) who send in their subscription during this month of September. The cost of the Agriculturist is only \$1.50 a year, or four copies for \$5, so that \$1.50 (or \$1.25 for each of four persons) will just now secure the paper for fifteen months! We advise everybody to embrace this opportunity. The Agriculturist is a marvel of value and cheapness, and in no other way can one so well improve \$1.50. The paper is adapted to all classes of readers in city, village and country. Its Household and Children's Departments are exceedingly valuable and interesting everywhere. Each number contains 32 to 44 large portable size magazine pages, filled with a good, instructive, and interesting matter. It is splendidly illustrated with many large, first-class engravings, which are both pleasing and instructive, and alone worth far more than the cost of the paper. The Agriculturist is diligent and unsparring in its exposures of all kinds of swindling and humbugs, and in this way alone saves the country hundreds of thousands of dollars every year. Take our advice, and send your subscription at once to the Publishers, George Judd & Co., 41 Park Row, New York City.

Boys, Look Out!—As the season for fruit advances, farmers and gardeners are suffering from the depredation of petty thieves and pilferers, in many cases the children of respectable people whose parents do not dream of the acquisition of their offspring. Under the technical offenders could be counted escapee clear of all consequences. At most they would be in danger of a sound thrashing by the angry owner, who then became himself liable to prosecution for assault and battery. Now things are changed. Under the act of 1879, the stealing of fruit from the tree or on the ground is a serious offense, and the remedy is simple and prompt. By that act carrying away of fruit, vegetables, plants, vines, shrubs or trees is made a misdemeanor punishable in the Court of Quarter Sessions, and rendering the offender liable to a fine of \$50 and imprisonment for thirty days.

The course of proceeding under this act is plain and easy. A complaint before any Alderman or Justice of the Peace is all that a person has to do. The law will do the rest. This is the criminal remedy. For those who prefer it there is a civil remedy. By another section any person who shall wilfully enter or break down, through or over any orchard, garden, yard or fence, hot-bed, or green-house, or shall wrongfully cut, or cut, stone, break, bark or mutilate any tree, shrub, bush, or vine, &c., or walk over, beat down or trample, or in any way injure any rain, grass, vines, vegetables or crops, shall on conviction before any Alderman or Justice of the Peace, or in any court, have judgment against him in any sum not less than \$5 or more than \$100 with the costs. This fine is to go one half to the informant and one-half to the occupant or owner of the land. In default of payment the offender must go to jail. The law now provides a full and simple remedy against the plunder and damaging of gardens or yards, and it is the fault of owners if they suffer.

Purify the Blood.—If the blood be pure the body which is formed from and by the blood cannot be diseased. But if there be in any part of the body any impurity, either in the blood or in the tissues, the blood circulating through that part takes up the impure matters from the local affection and carries it into the general system. This is the cause of every sudden death in persons of full habit, afflicted with boils and ulcers, and who use no medicine; the matter sets out to the circulating system and chokes up the blood vessels which supply the brain with vitality, and life ceases as if.

INSURANCE.

The Etna's Loss by the Portland Fire! The total amount covered by Etna Policies on property destroyed or damaged is \$206,551 on which salvage will be about 5 per cent. Our total loss will not exceed much from \$200,000 and being promptly adjusted and paid. This sum is 3 per cent. upon the assets, a figure but slightly exceeding the Government and State taxes paid last year, or a proportion equal to a \$5000 loss for a company of \$100,000 assets. The necessity for insurance and the value of wealthy, strong corporations, is forcibly illustrated by this fire. Several weak insurance Companies are destroyed. Portland has a population of 35,000, was handsomely built mostly fine brick or stone structures—protected throughout with upwards of 3000 shade trees—bounded on three sides by water—indeed literally, almost rising from the ocean—and with a good steam fire department—yet it has \$10,000,000 of property consumed in a few hours—upon a holiday when its people are least occupied—from the very insignificant cause of a contemptible fire dracker.

GOOD NEWS TO SOLDIERS!! AND THEIR HEIRS!!! PENSIONS.

ALL who have any interest in war claims, will find it to their advantage to read the following Acts of Congress which have recently become law:

Sec. 1. of an act of June 6, 1865, provides for all soldiers or sailors who have lost the sight of both eyes, or both hands, or so as to require constant attendance, the sum of \$25. Sec. 2. To those who have lost both feet, or are totally disabled in the same so as to require constant attendance, the sum of \$20. Sec. 3. Those who have lost one hand or one foot, or are so disabled as to render them unable to perform manual labor equivalent to the loss of a hand or a foot, the sum of \$15. Sec. 4. Persons who have been deprived of their pensions under Act of March 3, 1865, in consequence of being in the civil service of the United States Government are restored. Sec. 5. Pensions are extended to dependent fathers and brothers, as well as to mothers and sisters.

In addition to the above act, to such persons as are embraced by it, Congress, before its close July 4, 1866, passed a bill increasing the pension to widows and orphans, and extending the benefits of the pension laws to the heirs and representatives of certain invalid applicants, to wit:

Sec. 2 of the act of July 25, 1866, provides for pensions to widows of deceased soldiers or sailors having children by such soldiers or sailors, at the rate of two dollars per month for each child of soldier or sailor under the age of sixteen years. To derive benefit from this act it is necessary to make new application, surrendering the old certificate.

Sec. 3 gives an increase of pensions to those widows now receiving a pension of less than eight dollars per month, except Revolutionary widows.

Applications for Pensions must be made before the Probationary.

BOUNTIES.

THE BILL TO EQUALIZE BOUNTIES HAS BECOME A LAW. The following is an analysis of its provisions:

- 1. \$100 to three years' men who served their time. 2. \$100 to three years' men discharged by reason of wounds received in service. 3. \$100 to the widow, minor children, or parents, in the order named, of any such soldier who died of wounds or disease contracted in service. 4. \$50 to each soldier not included in the foregoing classes, who enlisted for two years or more, and discharged after serving two years. 5. \$50 to every soldier enlisted for two years, and discharged by reason of wounds received in the line of duty. 6. \$50 to the widow, &c., as above, of every soldier enlisted for less than two years, who died in service, or of wounds or disease contracted in the army.

No additional bounty is allowed to three years' men who have received, or have heretofore been entitled to receive, more than \$100 national bounty, and none to two years' men who have received or are entitled to more than \$50. The law only applies to honorably discharged soldiers of the late war, and to none who have been sold or transferred their discharges or rights to bounty.

The undersigned will attend promptly to the collection of all such claims, at reasonable rates. Where parties reside at a distance, the business may be done by letter. Address, DAN BAKER, Coudersport, Potter county, Penn. Aug 20-2m.

THE SILVER SKIRT, Patented March 7, 1865. MORE DURABLE. MORE GRACEFUL. MORE ELASTIC. And will keep its shape and retain its place better than any other Skirt.

This new and beautiful style of Skirt was awarded by the GREAT AMERICAN EXHIBITION FAIR, held in New York City, October, 1865, a SILVER MEDAL! THE HIGHEST PREMIUM EVER GIVEN FOR A HOOP SKIRT!

The Steel Springs are wound with a fine plated wire (in place of a cotton covering) which will not wear off or become soiled, and the whole Skirt may be washed without injury or fear of rusting and will be as good as new.

COMBINATION SILVER SKIRT This invention combines with the ordinary cotton Skirt the advantages of our Silver Skirt; the bottom hoops are the same as those used in the Silver Skirt, the covering of which cannot wear off, while the upper ones are covered with cotton. No lady having once worn one of our Skirts will be willing to wear any other, as the lower hoops of all other kinds are soon injured and soiled. The best materials are used in their construction and from their durability and neatness, they are destined to become a favorite.
