

Constitutional Amendment The Union Platform.

Is it Vengeance or Justice?

The following are the amendments to the Constitution, which were opposed by the Democratic party in Congress, which are opposed by the friends of Mr. Clymer, and which were passed by the Republicans in Congress and are now supported by the friends of Gen. Geary. The amendments constitute the platform of the Republican party. No man can vote misunderstandingly who carefully reads and ponders this platform:

Resolved, by the Senate and House of Representatives of the United States of America, in Congress assembled, two-thirds of both Houses concurring, That the following article be proposed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three-fourths of said Legislatures, shall be valid as a part of the Constitution, namely:

ARTICLE —, Section 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. Nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Section 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed; but whenever the right to vote at any election for electors of President and Vice President, or for United States Representatives in Congress, executive and judicial officers, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in that State.

Section 3. No person shall be a Senator or Representative in Congress, elector of President and Vice President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof; but Congress may, by a vote of two-thirds of each House, remove such disability.

Section 4. The validity of the public debt of the United States authorized by law, including debts incurred for the payment of pensions and bounties for service in suppressing insurrection or rebellion shall not be questioned, but neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or claim for the loss or emancipation of any slave, but all such debts, obligations, and claims shall be held illegal and void.

Booth--Let the People Read

BEDFORD, PA., Sept 24, 1866.

At a Democratic meeting held in the Court House on Saturday evening, B. F. Myers, the Democratic candidate for Senator, addressed the audience. During his remarks he said the name of Booth would live. He, like Winkelreid, had laid down his life for his country, that Switzerland had her Winkelreid, Scotland her Bruce and America her Booth, and that the time would come when a monument would be erected to Booth higher than that erected to Lincoln. These sentiments were received without any marks of disapprobation by the copperhead crowd.

Beware of Mixed Tickets!

We have seen some mixed tickets circulated by the copperheads in this county, and by which they hope to reduce the vote of one or two of our candidates. Watch them! Be careful to read every name, before voting. Remember, little snakes are as bad as large ones! Do not fail to vote early, and see that every loyal man in your district votes! In 1848, Johnston was elected Governor by 302 majority. The present election is one of incalculable importance. Not a single voter should fail to do his duty.

Shall Rebels gain by the Ballot what they failed to gain in the field?

Soldiers, Give one more day to your Country, and the cause of Justice.

Is Geary a "Paper" General?

The organs of Mr. Clymer have repeatedly charged Gen. Geary with being a "paper" General. The desperate cause that they are striving to uphold, induces them to make many rash assertions and highly colored statements. This on ordinary occasions would be passed over in silence, but when men at a time like this seek to tarnish the honorable record of a brave and gallant officer, the falsity of such base charges demand that they shall be met and refuted. The distinguished services rendered by General Geary, are not only written upon the pages of our eventful history in indelible characters, but the opinions of those splendid military heroes whose names are made immortal by the glorious triumphs they so fairly won, are on file in the War Department, testifying to his abilities, to his courage, his fidelity, and the marked success that crowned his efforts. The following evidence touching Gen. Geary's character as a soldier, is copied from official documents now on file in the War Department at Washington: Headquarters 11th and 12th Corps, Lookout Valley, Dec. 4, 1863.

Hon. E. M. Stanton, Secretary of War—Sir: I have the honor to call your attention to the distinguished services rendered by Brig. Gen. John W. Geary, in the battle of Wauhatchie, and during the late operations of the army which resulted in the defeat and discomfiture of the rebel army under Gen. Bragg, and to request that he be promoted to the rank of Major General. My former official report will acquaint you with the character of the services of this meritorious officer. During our subsequent operations they will be presented still more prominently to the Government. Of his former services in the army of the Potomac I need not speak. They are favorably known to you and the country.

I have the honor to be, Very respectfully,
Your obedient servant,
JOSEPH HOOKER,
Maj. Gen. Commanding.

Upon this letter are the following endorsements:
Headqrs. Dep't of the Cumberland, Chattanooga, Tenn., Dec. 5, 1863.
Respectfully forwarded, fully concurring with Maj. Gen. Hooker in recommending Brig. Gen. John W. Geary for promotion to the rank of Major General.

He has performed most conspicuous service on two occasions since joining this army, viz: Repulsing the enemy on the night of the 28th of October, when attacked by greatly superior numbers, and in conducting the assault of the enemy's position on the Point of Lookout Mountain, made by his Division on the 24th of November. On both occasions he was distinguished for his gallantry and good conduct.

[Signed] GEO. H. THOMAS,
Maj. Gen. U. S. V. Commanding.

Headqrs. Military Div. of the Mississippi, Chattanooga, Tenn., Dec. 5, 1863.
The recommendation of Brig. Gen. Geary for promotion is concurred in by me. The services of General Geary in resisting a night attack in Lookout Valley, October 28th, and in the battles around Chattanooga, commencing on the 23d of November, prove him eminently deserving of this recognition.

[Signed] U. S. GRANT,
Major General.

The following letter was written by General Slocum, after that series of splendid victories, commencing at Mill Creek, and Snake Gap, May 7, and ending in the capture of Atlanta, Sept. 2, 1864:
Headquarters 20th Army Corps, Army of the Cumberland, Atlanta, Ga., Sept. 18, 1864.

Hon. E. M. Stanton, Secretary of War—Sir: Brig. Gen. John W. Geary served

under me as a Division Commander in the 12th corps, about eighteen months, commanding at Chancellorville and Gettysburg. I have found him at all times a faithful, capable and vigilant officer. I have never met a more energetic officer in the service.

The present condition of his Division, as compared with its condition when he assumed command of it, is the strongest evidence that can be presented of his ability and value as an officer.

His services at Wauhatchie, Lookout Mountain, and during all the recent arduous campaign, are reported to me as highly creditable to him, and will, I trust, be so represented to the Department in the reports of his commanders.

He has now held the command of a Major General over two years, and it would be exceedingly gratifying to me, and to his entire command, to hear of his promotion.

I am, sir, very respectfully,
Your obedient servant,
[Signed] HENRY W. SLOCUM,
Major General.

The military prisoners confined in the Ohio Penitentiary are being discharged under the recent order of the President. Among others is Dr. Paine, who was captured two years ago, and was at one time under sentence of death as a rebel spy.

Where is the President drifting? Mr. Johnson refers to Congress as "a body called, or assuming to be, Congress, and as hanging on the verge of the Government, as it were." Now one of two things is true: Either this language is the harmless vaporing of a man who is not responsible for his utterances and is therefore unfit to hold his position, or Andrew Johnson is paving the way to acts of Executive violence against the American Congress.

We ask the people to ponder the significant words of the President, observe the character of the men who surround him, and then not be surprised in the future at any act of madness this nightmare of a President may commit. If Mr. Johnson really doubts the legal character of the present Congress, as he more than intimates in his speech, then what will prevent him from forcibly dispersing that Congress when it again meets? We wish there were less reason to believe that Andrew Johnson is a radically bad and dangerous man, capable of being led, or of going voluntarily, to most fatal and bloody extremes.

Editorial Correspondence.

Coudersport, Potter Co., Pa.
September 18, 1866.

Although the skies were clouded and a slow rain fell from the time we started yesterday morning on our journey here from Emporium, on the Philadelphia and Erie railroad, three hundred and one miles from Philadelphia, it was exceedingly pleasant. The road, some twenty-six miles in extent, is an excellent one, and has opened Coudersport to many advantages heretofore only secured after a long and tedious journey. More than one half of it runs through a dense and almost impenetrable forest of hemlock and pine. For nearly a hundred miles this wilderness extended around us. As we looked into its dim shades and tried to penetrate its distant solitudes, we endeavored to imagine the difficulties and privations of the original settlers. Even now, when civilization is building railroads and running the telegraph wires along and through these regions, the people are compelled to submit to many discomforts. But what must have been the condition of those who, within the memory of men still living, carried their families and goods in canoes along the Alleghany, the Susquehanna and their tributaries, and when the streams failed them bore these canoes upon their stout shoulders until they met the water again.

The journey from Williamsport consumed two full months, and yet it was endured with that patience and fortitude which have gradually conquered the obstacles of nature, and have founded flourishing towns between almost insurmountable hills, and are breaking thoroughfares into the neighboring and more populous centres of New York. The road from Emporium here is the result of the enterprise of the people of Potter county. The great land-holders who possess the illimitable tracts that bound it on either side were assessed to pay the expenses, and they bore them willingly, as well they might, for the improvement is one that will gradually appreciate their lands and bring them into immediate and more general notice. With a pair of good horses, a skillful and daring driver, and such a companion as Col. Carleton B. Curtis, of Warren, former Representative in Congress from this district, who was coming here to attend the courts which opened yesterday, and who whiled away the time with sketches of the old settlers and stories of encounters with the untamed animals of these primitive forests, at the end of a little more than four hours we bowled into the smiling and thriving county-seat of Potter.

Coudersport is situated in a beautiful valley, among the spurs of the Alleghany, which divide the head-waters of the Alleghany, the Susquehanna and the Genesee, thence debouching into the Gulf of Mexico, through the Mississippi, the Gulf of St. Lawrence through the river of that name, and the Chesapeake Bay. The great range of the Alleghany, which are here as imposing as in Central Pennsylvania, extend on the south through Virginia and North Carolina, and lose themselves in western Georgia and Northern Alabama. It has a population of five hundred, the county containing about fourteen thousand. Here we find a Pennsylvania town of New York habitudes. The long exclusion from Philadelphia and other portions of the State, however, has been finally broken by

the completion of the great thoroughfare, uniting the Delaware with Lake Erie; and soon, under the generous management of the Pennsylvania Central, lateral lines will be constructed, binding such towns as Coudersport to the main trunk, and connecting them with all portions of the State at large.

The Pennsylvania Central, governed by comprehensive intellects like Thompson and Scott, has proved its sagacity by assisting the thriving communities along its main stem in building local roads; and I do not doubt that an example which has proved so profitable in that quarter will be speedily followed in this. Just as I close my letter, although the rain is falling steadily, the people are coming in from the country to attend the mass meeting, which opens here at twelve o'clock M. The bad weather does not seem to dampen their enthusiasm. What distinguishes these people is the fact that every man, woman and child understands and takes a peculiar interest in public affairs. Although hard-working, economical and frugal, injured to the trials and privations of a continuous struggle with the obstacles common to such a region as this, their intelligence is far above the average. Every house is a home of refinement. Books, periodicals, daily newspapers are everywhere found. How well they appreciate the danger and the duty of the hour! How fearlessly they discuss, and how severely they condemn the ineffable treachery and cruelty of Andrew Johnson! Is there not something fearful in the infatuation that has impelled this man to forfeit the love and confidence of such a people? But I must close. In a few minutes I will make my first appearance before the assembled masses of Potter county.

Ayer's Cathartic Pills ARE the most perfect purgative we have been able to produce, and, as we think, has never yet been made by any body. Their effects have abundantly shown to the credit of the medicine. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel its impurities. They purge out the foul humors which breed and grow distemper, speedily dissipate the disorder, and restore the system to its normal and impure tone and strength to the whole system. Not only do they cure the every day complaints of every body, but for milder and more delicate cases, they produce the most successful effects, they are at the same time, in diminished doses, the safest and best purgative that can be employed for children. They are not substituted by any of the cheaply prepared, sugar-coated, they are pleasant to take, and being purely vegetable, they are entirely harmless. Cures have been made that would surprise belief, were they not substantiated by men of such established character, as to forbid the suspicion of truth. Many eminent clergymen and physicians testify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use of these medicines and certificates of their cures of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heart-burn, Headache, arthritic from food, stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Scalding, Partial Blindness, Neuralgia, and other Disorders of the Liver and Kidneys, Gout, and other kindred disorders arising from a low state of the body, or obstruction of its functions. Do not be put off by unprincipled dealers with cheap imitations on which they make more profit, than on the genuine. The sick want the best. Send for the best. For particulars, and they should have it, send for Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.

Pittsburgh, May 10th 1866.
Messrs. Hostetter & Smith:

GENTLER:—During a visit to the West, last fall, I contracted chills and fever, which brought me to my bed, and finally terminated in typhoid fever, and confined me to my room for several months, during which time I was subjected to the most excruciating pains, and almost deprived of every recovery of my health. I was almost entirely blind for several days, not being able to eat a morsel, and to sleep. I was debilitated with a feeling of exhaustion, and passed many sleepless nights—all from debility, caused by my prostrate condition brought about by fever. At the suggestion of my doctor, the public mind, I determined to use your celebrated Sarsaparilla, and I am glad to say that I feel myself a new man, and I tender you this testimonial of my appreciation of your valuable medicine, and of the relief which it has afforded me. I have now regained my former strength, and I am able to sleep from the loss of which I have suffered most. My health is now quite natural, and, in fact, I am glad to say that I feel myself a new man, and I tender you this testimonial of my appreciation of your valuable medicine, and of the relief which it has afforded me.
