Lyon's Periodical Drops!

Lyon's Periodical Drops

The Great Female Remedy for Irregular ities. These drops are a actentifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them are liable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are an qually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are supply taking the place of every other Female Remedy, and are considered by all who know aught of them, as the street safest, and most infallible preparation in the Grid for the cure of all Female com, laints, the removal of all obstructions of nature, and the promotion of health regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with written signature of Jolin L. Lyon, without which nonelare genuine.

Ayer's Cathartic Pills

Ager's Cathartic Pills

Are the most perfect purgative we have been able to produce, and, as we think, has ever yet been made by any body. Their effects have abundantly shown to the cemmunity how much they exceid the other medicines in use. They are safe and pleas and to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purze out the fond humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tene and strength to the whole system. Not only do they care the every day complaints of everybody, but for midable and anarcrous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are phissant to take; and, being sugar-coated, they are phissant to take; and, being sugar-coated, they are phissant to take; and, being sugar-coated, they are entirely barmers.

So have been made that would surpass belief, were they not substantiated by men of such exated conracter, arto forbid the suspicion of untrath. Many infinent clergymen and physicians certify to the 'pub ic threations contribute immensely to the relief of our afflicted fellow-men.
