From a Lady.

The Hostetter Sir: I have long delayed writing to you my a neere thanks for the good you have done my daughter. I can truly say that coloning but the kind hand of Providence and your Birtress have save of her from an early grave. For intree years I have been doctoring the with syrups and will sinds of bitters that have been recommended to me for her, be side having two first-rate physicians; but all seemed to do her no good, while I was searching the almanacs and all the new-papers that I could get hold of, in hopes of finding semething that would suit her case. Accidentally there came part of a newspaper around some goods that I bought at the Spa. In looking it over I sawsat a glance that your Birtrass. She commenced taking them, and such a change in one week with her appetite, and the distress which vicuals occasioned, and that burning in the stomach, I have raw in my life, as there was in her. She has taken three bottles and is now able to work all the time. I think there is a little derangement of the liver. Please send me three bottles more, which I think there is a little derangement of the liver. Please send me three bottles more, which I think there is a little derangement of the liver. We desire again to call the attention of he farmers of this county to the great alvau-ages of keeping sheep, raising cattle, and the manufacture of butter and cheese. With a country naturally adapted to such a business we consider it a great unsfortune that the people hare not somer turned their energies in his direction. Our county is well watered, the soil is very rich, and there is no better forage raised in any section of the United States than among the hills and valleys of "Little Potter." Our grasses are peculiarly adapted to the man-ufacture of good butter and cheese, and there is manufacture as much butter and chees-In l of as good a quality, as any county of its size in the Union. You say this may all be true but the great question is—will it pay! Our mover is to ask you to look around you at the armers who in a small way have kept cowand made butter or cheese or raised sheep, and see if they are not, as a class, better off mevery way, than those who have drained their farm vear by year by raising oats, and such other crops and selling them in lumber camps or a he railroad? One such instance occurs to us hat we cannot forbear mentioning. One gen leman residing a few miles from this Borough vho two years ago was reluctantly induced to urn his attention to making butter and cheese, last summer, from eight cows, made seventeen nundred and thirteen pounds of butter, two raging a profit on each cow of over One Hun-lred Dollars, besides fattening four hogs with the use of only fifteen bushels of grain. It is face use of only liften business of grain. It is true, he has choice stock, but who cannot every farmer in Potter-county own and raise choice stock? We urge the erection of at least two Cheese Factories, in convenient locations, the coming Spring, and are willing to abide the lecision of the farmers in their vicinity after a he cause, have secured for him the applause of the friends of sobriety everywhere, and in an or reason why the cleared lands of Potter special manner the thanks of the clergy.
