The true omelet is a pile of terror-stricken. eggs and milk; it trembles with every jar, and crouches in a delicious, quivering mass upon the plate; he who puts a silver knife into it will find a porous, flaky material, almost impalpable to the touch, that will melt as quickly as a snowflake in his mouth.-Upon reflection he will be willing to admit that hens were not made in vain

To make one (an omelet, not a hen) proceed in this way: Have some fresh eggs, not omelet eggs. All eggs that will not by any possibility do to boil, are put away in rectaurants to make omelet with. Break them into a china bowl. If they are fresh, the white will be as clear as a maiden's eye, and the yolk as round as the pupil of it.-Add a teaspoonful of milk for every egg, and whin the whole as thoroughly as you would for sponge cake. The omelet pan has previously been put on the fire, and made

hot that the butter will melt and almost prown in it, but not quite. When in this condition, you are to turn the whipped egg and milk into the pan and put it directly over the fire. Get a thin-bladed knife and run it carefully under the bottom of the egg; so as to let that which is not cooked get below. If the fire is right the whole mass will ouff and swell and cook in a minute; if it is not carefully attended to it will burn on the bottom, and burned egg is most offensive in smell and taste. It is not necessary to wait until the whole mass is solid, for its own heat will cook it after it has left the pan, but begin at one side and carefully roll the edge over and over until it is all rolled up, and then let it stand for a moment to brown, then turn it out on a hot plate and servo it-or, what is better, eat it yourself-

immediately. You must not put a grain of salt in it while it is cooking, or all your hopes and your omelet will flatten down together. If it is properly made it will be like a summer sunset, rich with crimson and yellow hues, and the savor will gladen the heart.

The common mistake in making omelets is to merely stir the eggs with a fork; to put no milk in; to put salt, flour, and bread combs in; to cook them too slow, and to turn them out on cold plates, a clammy, skinny waste of eggs. Thus made, they are as unwholesome to cat as they are repulsive in appearance.

Many one has a fancy for mixing finelyminoed ham with the egg batter, they will make a ham omelet; or for surrounding it with stewed kidneys and smearing a little of the sauce thereof about the egg after it is cooked, they will have a kidney omelet; or by pouring rum over it and setting the same on fire, they will have an omelet au rhum; or by sprinkling granulated sugar over it, it will be an omelet sucre; but all these are simply inventions of the enemy to see how vilely they can treat a good thing, and yet not entirely ruin it. - Harper's Bazar.

Butter-Making. What effect climate and hard or soft water may have on the products of the dairy, espe cially butter, I do not think is fully appreciated or understood. I notice that buttermakers of equal experience are equally positive—a part of them that the butter must not be washed, and that every particle of the butternilk must be worked out; while another part are equally confident that it should be freely washed, but scarcely worked or handled at all. Here in Champaign county the water is hard, but not very hard, and it is in other parts of the State, and notably where the coal-bearing strata make the soil and come to the surface. But although our water is half hard, it is the experience of the mistress of your correspondent's household that butter will not keep sweet unless, when taken from the churn, it is thoroughly washed, and then after that handled and worked with a dry cloth, until every drop of both is removed. Such a process was deemed destructive in New England, where the water is soft, and where the lady's first experiences were acquired. I distinctly remember that on my first journey west, some twenty years ago, presently after I had reached Lake Erie, my nose and my palate were introduced to three new distinct sensations. The flavors and odors of western the butter, lake fish, and New Orleans molasses. were a revelation to me. I soon satisfied myself that this peculiar and local rancidity of the butter arose from a chemical combination of the oily portion of the product with the salts of lime taken up from the water in which the butter had been worked. And here I believe to be the secret of the whole controversy, namely, that in soft water districts of country butter will keep, if little more is done when taken from the churn than that the excess of buttermilk is got rid of; but that in hard water districts, situated on the line of the Rail Road, and suitable not only should butter be washed just as little as possible, but it is necessary that evmy particle of buttermilk should be removed. As to churns and churning, the conversion of eream into butter is a chemical process, in which a certain amount of time is neces sary element, that time ranging from 20 minwies to one hour, according to circumstances; so that the churns which make butter in ave minutes, do it at the expense of quan-

A Few Seasonable Recipes. Bologna Sausages.—This is the way I make thens Take equal quantities of bacon, fat and lean, beef, veal, pork, and beef suet; chop them small, season with pepper, salt, Se, sweet Herbs and sage rubbed fine .-Have a well cleansed and washed intestine, fill and prick it, boil gently for an hour, and lay on straw to dry. They may be smoked the same as ham.

they and quality, and are thereof a delusion

and a spara B. F. J. in Country Gentleman.

Minos Moat. - Tako 4 lbs. |currents wellpicked and cleaned, for they require this to be done carefully; 3 lbs. raisins, stoned and chopped; of finely-chopped beef suct, the lean of a sirloin of beef mineed raw, and finely-chopped apples of a solid variety, each three and a half pounds; of citron. lamon-peel and orange-peel each half a pound; fine white sugar two pounds; mixed spices an ounce; mix well and put in a deep pan Mix brandy and white wine to suit the taste, also the juice of four lemons and four oranges; pour half over the mass in the hasin, press down tight with the hands, then add the other half and cover closely. Use as you may desire through the winter.

A First Class Pudding .- One pint of bread orumbs to one quart of milk, one cup of sugar, the yolks of four eggs beaten, the grated rind of a lemon, a piece of butter the size of an egg. Bake until done, but not watery Whip the whites of the eggs stiff, and beat in a teacupful of sugar in which has been stirred the juice of the lemon. Spread over the pudding a layer of jelly or any sweetments you prefer. Pour the whites of the eggs over this and replace in the oven and bake lightly. To be eaten with cold cream. It is second to ice cream, and for some seasons better.

The following appeared as an advertisement in a Honolulu paper. Mrs. K. is clearly at the head of a woman's rights movement in the Sandwich Islands: in the Sandwich Islands:

"Know all people who see this, I, Mrs. Kappa, the married wife of Kolomaio, of Naalehu, Kan Hawaii, do hereby forbid the foreigners living in Kan from again shipping my husband, inasmuch as I have ordered him to come back and live with me, in accordance with the fundamental law of marriage. dance with the fundamental law of marriage, Marriage is a good thing for everybody. Respectfully, Mrs. Kappa."

Heing nurely regetable, they contain no mercury or mineral whitever. Much surfous sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus inciplent disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly religible. Although searching, they are mild, and operato without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to

occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure: Pills rapidly cme:

For Dyspepsia or Indigestion, Listlessness, I danguor and Loss of Appetite, they should be taken mederately to stimulate the stomach, and restore its healthy tome and action.

For Liver Compliaint and its various symptoms, Billious Headlache, Sick Headlache, Jaundice or Green Sickness, Billious Headlache, Sick Headlache, Joundice or Green Sickness, by should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

couse it.
For Mysentery or Diurrhora, but one mild dose is generally required.

For Ethenmatism, Gout, Gravel, Palpitation of the Heart, Pain in the Bide, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear. complaints disappear.
For Dropsy and Dropsical Swellings,
they should be taken in large and frequent doles
to produce the effect of a drastic purge.
For Suppression, a large dose should be
taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no sprious derangement exists. One who field tolerably well, often finds that a dose of these Pills makes him feel decliedly better, from their cleaning and renovating effect on the digistry apparatus.

THE NIGHT AFTER CHRISTMAR

FROM PUNCH

Twas the night after Christmas, when all thro' the Every soul was abed, and still as a mouse; Those stockings so late in St. Nicholas care Yere empty of all that was eatable there; The darlings had duly been tucked in their beds With very full stomachs, and pains in their heads, was dozing away in my new cotton cap, And Nancy was rather far gone in a nap. When out in the nursery rose such a clatter, When out in the nursery rose such a clatter,
I sprang from my sleep, crying, "What is the matter?"
I flew to each bedside—still half in a doze—
Tore open the curtains, and threw off the clothes:
While the light of the taper served clearly to show.
The pitcous plight of those objects below;
For what to the fond father; a eyes should appear.
But the little pale face of each sick little dear!
For each pet that had crammed itself full as a tick
T-bow in a moment now felt like old Nick. I knew in a moment now felt like old Nick. Their pulses were rapid, their breathings the same; What their stomachs ejected 171 mentioned by name Now turkey, now stuffing, plum pullding, of course, And custards, and crullers, and crauberry sauce; Before outraged nature all went to the wall. Yes, lollypops, flapdoodle, dinner and all.

Like pelicts which urchins from popguns let fly,
Went figs, nuts, and raisins, jam, jelly, and ple;
Till each error of diet was brought to my view,
To the shame of manma and Santa Claus, too.

And brought out a vial marked "Puly. Ipecac.;" When my Nancy exclaimed, for their sufferings shocked 5.00 s. m., except Sundays, from Owego.
5.00 a. m., daily, from Susquehana.
