On the principal street in Bath, Steuben county, is located the printing office of the Steuben Courier, in the third story of a brick block. On another street in the same village s a sash and blind factory which is run by steam, and is about two hundred feet distant from the back of the Courier office. The proprietors of the printing office were anxious to obtain some power more efficient and untiring than human muscle to run their presses, while the owner of the sash 'factory was perfectly willing to rent them plenty of power for that purpose at a reasonable rate. The only question was how to convey it cheaply and effectually from the engine to the office. It was finally determined to adopt a plan which had already been thoroughly tried in Rochester. HALLS

RENEWER

Every year increases the popularity

of this valuable Hair Preparation;

which is due to merit alone. We can

assure our old patrons that it is kept

fully-up to its high standard; and it

is the only reliable and perfected prep-

aration for restoring GRAY OR FADED

HAIR to its youthful color, making it soft, lustrous, and silken. The scalp,

by its use, becomes white and clean.

It removes all eruptions and dandruff,

and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands.

By its use, the hair grows thicker and stronger. In baldness, it restores the

capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used,

as it requires fewer applications, and

gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The

constituents are pure, and carefully

selected for excellent quality; and I consider it the BEST PREPARATION
