The weather during the past week has been of the genial sort that makes us poor slaves of the pen long for rambles on sunny, southern-sloping hills, and by singing brooks.-More especially must it make each disciple of Walton feel that every day now spent indoors is a day wasted on business when it might be more profitably employed in going u-fishing. That feeling will grow stronger business will turn his back upon the office or shop, put on his old clothes and his biggest, coarsest boots-what a world of comfort in those boots!-and seek the pools and eddies yhere the prince of fishes may be found .--But before he starts he must go to Hastings & Coles and select from their very large and choice stock the fishing implements most suited to the season. He will there find a full assortment of whatever he needs to catch every kind of fish that swims our waters.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected prep-aration for restoring GRAY OR FADED HAR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimu-lates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy ap-pearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."
