past against the passage of Mr. Hooper's ning. The canvass was opened on a purely bill, and it is possible they have succeeded in defeating this one, but we hope not.

Last week the Methodist General Confer ence elected eight new bishops, part of two ressions being devoted to the work. The most notable of these new accessions to the episcopate, so far at least as the general publie is concerned, is the Rev. Gilbert Haven. editor of Zion's Herald of Boston. He is described as a man of singular boldness and fervor, theologically devoted to the most severe and conservative type of orthodoxy, laff up the Boner.

The defection of Mr. Sreeley, and his nomination by the Cincinati Convention, has brought surprise auduncertainty, for the moment, upon the pulic mind; but it, ought not for an instant tithrow doubt ap-on the path of duty. he Philadelphia Convention is now boundeven if it were not its duty before, to vie up the old Reportion of our fellow men, we cannot forpublican banner under glich have been gained such illustrious viories, and to put

Webelieve the pubof compensation. The rule may be stated lic peace, order and safet require the conthus: If any large body of producers retinued ascendency of the lepublican party, ceive 20 per cent. more than formerly for and that no other man canhow so well lead their labor, that 20 per cent. is added to the

the party as Gen. Grant. It is not the fault of the coublican party that personal piques and fivate ambitions, mingled in a tew cases with some worthy cost of the product, and the consumer is aspirations for reform, have broken out into revolt and political revolution. But it will be its fault if it shrinks from the conflict forced upon it, or loses vidory through dis-

couragement or indifference. If the danger which liesefore us be once appreciated, we do not belive that our citiens will step off from firm and stable ground into the morass or uicksand of ex-

periments. It is a time for making thin the old land marks-for arousing again that stanch cour-age by which the Republique party has oftn carried the country safey through perils more threatening than thoe which environ t now.

What are we to gain by a new party-made up in haste, without common principles, jumbled together notio correct grave public evils, but to avenge rivate griefs, or to reward violent and irregular ambition? Every great interest in the land is flourishing. Even in the South, enfeebled by war, and bewildered by the total revolution ishing. of its industrial economy, here has been a slow but steady recuperatim, except in the cases of one or two States, where local cauthe republic. Mr. Greeley, as a matter of ses thwarted the honest eideavor of Government for their peace and security. Is it prudent to abandon a shp that has been tried and proved in a hunded storms for a new ship, a new crew, male up of desert-ers, of malcontents, of ray landsmen, and f suspicious men come from we know not

Can that be a safe leader who has so suddenly become the favorite of the whole Democratic race, by whom for thirty years he has been immensurally abused, and against whom he has fought that incessant battle on which his political fame rests?— What is the meaning of this strange new friendship between life-long enemies? Such friendships are suspicious! The Belmont wing of the Democracy is fully committed against the nomination of bishopric is alleged to be a surprise alike to Mr Greeley The World is vigorously enthe great body of his denomination and to | gaged in exposing his weakness as a candi date with a bitterness hardly surpassed by Mr. Greeley himself in his former discussion of Democratic politicians. riends have been talking about amnesty, Congress has passed and the President has approved and signed an act granting amnes-

ty to almost all political offenders. The new Democrat by long experience in practical statesmanship: he possesses, what Mr. Greeley does not, wide acquaintance with foreign affairs; h is a gentleman, accustomed to the forms of society, and fully-adequate to the social du-ties of any official position; he is not a fee-

total fanatic, and would not give a state din ner, or a diplomatic dinner, on purely cold-water principles; he would observe those courtesies of language toward gentlemen who differ from him which Mr. Greeley habitually violates. But with all these clear advantages over Mr. Greeley, Charles Sumner could no more get Democrats to vote for him than for 'the eternal Devil.' It is said that Mr. Greeley is honest; but so is Sum-ner. It is claimed that Mr. Greeley has a strong hold on the colored vote; but Sumner is an altogether stancher zealot for ne-gro rights and negro equality. As the Dem-ocratic party would unanimously scout a proposition to nominate Sumner, with what consistency could it nominate Greeley, who,

More Disgusted "Liberals." An exchange collates the following re-

cent out-givings from "liberal" sources: Judge Stanley Matthews, temporary chair man of the Cincinnati Convention, desires to retrace his steps. In a letter recently published he says:

"Nothing connected with the disgraced and disgraceful convention gives me so was wholly unpremeditated. In the next B. & Mo. R. R. R., Burlington, Lowa. place the extract you make does not represent the truth of my statements. On the contrary, I have no reason to believe, and never have believed the present Administration guilty of corrupt conduct or motives. I ought to have expressed myself so as to have avoided any such charge. What I wanted to say had reference to the general corruption of political life, whereby person-al and party ends seem substituted for pubic good; and the latest and best illustration f which I am free to say is now found in

the action of the very convention in the presence of which my statement was made. am greatly chagrined at the whole matter. Perhaps I have discovered not sufficiently soon that, as a politician and president-maker, I am not a success."

Edward Atkinson, who was chairman of the Massachusetts delegation at Cincinnati, says: "Lest I should be supposed to intend to to the white coated candidate. Have these support this nomination, I desire to say that

Lord in promoting the nomination of Horace Greeley' for President, I desire to atone cr it commits suicide the better for the for my want of sagacity and astuteness by opposing his election in every possible way."

A Triumphant Success

THE COMPLETE SUCCESS of the Kirby Two-Wheel Mower has never been equalled in the his-tory of mowing and reaping machines. From every part of the country there comes united testimony i part of the country there comes united testimony in regard to its perfectly satisfactory performance in ev-ery possible kind of work. Its extensive uso for the past season has more fully than ever before demon-strated the perfection of principle upon which, not on-ly it, but all of the Kirby machines are built. It has the flexibility and independent motion of frame and finger-bar peculiar to all Kirby machines, cutting close and clean over all variations of ground.

JOINTED CONNECTING ROD.

With the utmost, simplicity and strength, there are combined in the Kirby Two-Wheel Mower many excel-lencies not found in any other mu hine; and chief among them will be noticed the Jointed Connecting Rod, (or pitman) an invention of Mr. Kurby's, and a feature belonging exclusively to this mower. The joint in the Connecting Rod (or pitman) works simultane-ously with the joint in the finger-bar, keeping the Connecting Rod

ALWAYS IN A PERFECT LINE with the cutting apparatus, allowing the knife to run perfectly free, without binding, at whatever angle the bar may be raised or folded; thus decreasing the fric-tion, and consequently adding to the already powerful cutting capacity, decreasing the already re y light draft, and adding largely to the durability, by relieving the connecting rod and knife-head from liability to brak-age consequent upon the binding and friction of these parts, incident to all other two-wheel machines. By a convenient lever, the bar is traved to these an Osburn a Christy, b'ds, parts, incident to all other two-wheel machines. By a convenient lever, the bar is raised to mass an obstruction, or even a tree, or folded completely across the machine in front for transportation, without throu-ing out of gear, slopping the leam, or the driver leaving his seat. Instantly thrown out or into gear, without stopping, when desired, by either foot or hand. A loose or rigid tongue, as desired, without stop-ping. 7 E. R. Kimball,
