Potash for Potatoes.

Pruning In June.

In your issue of February 14th I noticed two correspondents asking for information as to the best time for pruning trees, and W. D. N., of Cedar Hill, N. J., asserting that spring was the best time, as he has always practiced it at that time, and his trees had done well. I have been engaged in cultivating fruit trees for the past twenty years and have pruned apple and pear trees in every month of the year. If I could always have the time to spare I would prefer to prune in the month of June, for the following reasons: First, the wound made by the removal of a branch at this season will beal sooner than one made at any other season of the year. Second, very few water season of will grow after pruning, and the fruit which remains will be much larger in consequence. Any person who is at all acquainted with the management of fruit trees, knows that if a tree is burked in June the wound will hea in a very short time. To prune in June, persons should wear rubber or other soft shees, to prevent breaking the branches.

Ity reasons for not pruning in the spring are, we generally have high winds and copious showers, the winds dry and crack the new wound, and the rain enters and blakens it, which it does not do in June. Water sprouts will also grow, which will have to be trimmed off every season. You suggest covering the wound with paint or wax; but every farmer does not always have these materials at hand, and in June he does not need them.—N. Y. Sun.

Early and Late Tomatoes.

Many persons are disheartened from year to year because of failures in getting tomatoes early. The cause is, they do not give the plant proper conditions. The tomato is one of a class that, after being fairly established, requires but little moisture, and will be at home in the driest soil; therefore—ecbe at home in the driest soil; therefore—ec-pecially if the soil is fiat and cold—a high hill should be raised to set the plant on; and great earnestness, has just put in 100 acres this should be the practice on all soils, even of grain. cold soils, even higher. It will advance the fruit from two to four weeks, and the greatthe more favorable are the conditions for \$10,000.

making the soil too rich. No manure is necessary if the land is naturally fertile, but the best results are reached on thin, sandy goils with a little well-rotted manure in each hill, to assist the young growth. We have never found any good in trellises or stakes. or better, lay brush under them, to run upon. This gives them the benefit of whatever radiation there may be from the soil. The tomato comes from a hot, dry climate, rays striking directly upon high, broad hills, they gather and hold more heat than flat surfaces. Set your plants at the proper depth, and if long or spindling, lay them down just under the surface of the ground, leaving only two to four inches of the top exposed to the air, covering the stem so laid down, about two inches deep. Water at the root when set, in a basin left for the purpose, and draw dry earth over the basin,

Many persons commit the mistake of

when the water has settled away. By this means the plant will grow readily, and not suffer for want of moisture. It is a good plan to dust a little land plaster (gypsum) over the hills once or twice, to attract the dew and fix the gases. If this plan is followed, no person need fail in the cultivation of tomatoes. In ordinary seal small holes, so little t sons, from the 25th of May to the 1st of June is early enough to plant tomatoes outside, in Happy are families the latitude of Chicago. More failures are made from planting earlier than later, and for a late crop, for canning and preserving, any time during the month of June, or even to the first week in July, will give a good crop. - Western Rural.

2 feet diameter equals 19 gallons.

Milk Experiments. Mr. F J. Clarke, of Butte county, Cal. instituted a course of experiments to guide him in managing his dairy, and his results tally very well with the views of those who have given the subject the most study. They are as follows: 1. The quality of the milk differs almost if not quite as much as the quantity given by different cows. 2. In having get a sample of the cow's milk if possible. 3. A cow gives richer milk when fat than when poor. 4. A cow gives poor or milk with the first calf than afterward, other conditions height good. 5. The other other conditions, being equal. 5. The older a cow is, the richer her milk, until her constitution begins to fail. 6. The longer the period which has clapsed since calving, the River richer the milk. 7. The richness of the York. milk varies with the quality of the feed .-8. The richness of cream varies—that from the richest milk making the most butter.— 9 A cow should be in first-rate condition ety; it is disgusting to the refined, and abom-when she calves; all the fat goes into the inable to the good. pail. 10. The strippings or last milk is five to nine times richer than the first milk drawn.

THE CHILD'S INCUIRY.

Carl Schurz sat down one evoning late To rest his weary head, When his little son came into the room, And looking at him said:

Who is this Horses Greeley, ps, That people call so wise?
Is the done than tall enough
To reach but the string?
Our not my child about as large
As I or Governor Brown; Twas not his stature made him great,

Or won him his renown. ·But he it is who nobly bailed Jeff. Davis from his cell, And now we want for President

The man who did so well." "But then, papa, was not old Jeff. A traitor to the State? You used to run him down and say That hanging was his fate.

"And wouldn't Horace Greeley, pa, If he were President, Bail out and pardon every rogue Who was to prison sent?" "Oh, no, my child, Jeff. Davis vas

An enemy in war; But he who bails a common rogue His neighbors all abhor! Then ps, if I should steal a horse, I'd steal & hundred more; I would be great and get bailed out,

Like Davis did before ?" "Oh, no, my child; the Gospel says That you should always do To every person as you would. That they should do to you. "But no. did Horace Greeley think

That in some future day He'd want bail when he should try His country to betray?" The Senator could say no more-

So, turning quickly, said: "It's nine o'clock, my little boy: 'Tis time you were in bed." Top-tu Commonwealth.

Vieasant urgative

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Billous Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger that is mustard seed, that can be readily swallowed by those of the most sensitive stomachs and institutions tastes. Each little Purgative Pelictrepresents, in a most concentrated form, as much catomic power

tastes. Each little Purgative Pelletrepresents, in a most concentrated form, as much cathanic power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cathantic power, in proportion to their size, people who have not tried them are up to suppose that they are hatch or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by his others, as to produce a most scarching and thorough, yet gently and kindly operating cathartic.

500 Roward is hereby offered by the proprietor of these Pelers, to any chemist who, upon an alysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Boing entirely vegetable, no particular

alysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For Jaundice, Headache, Constitution, For Jaundice, Headache, Constitution, For Jaundice, Headache, Constitution, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Wizziness, Sour Ernetations of the Stomach, Bad taste in mouth, Billous attacks, Pain in region of Kidneys, Internal Fever, Blouted feeling about Sto.nach, Hush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings, take Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that their action upon the animal occupancy is universal, not a gland or tissue escaping their sanative impress. Age does not impair them: their sugar-coating and being enclosed in glass bottles preserve their virtues unintegrated for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a Laxative, Alterative or Purgative is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising They are sold by all enterprising Druggists at 25 cents a bottle. Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. Vinegar Bitters' are not a vise Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, chiled "Tomics," "Appletizers," "Restorers," &c., that lead the tippler on to drunkenness and rum, but arefa true Medicine, made from the mative roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator, of the System, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these. Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral phison or other means, and the vital organs wasted beyond the point. Dyspepsin or Indigestion. Headache, Pain Dyspepsin or Indigestion. Heddache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Biloous Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoma, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Femnile Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence, that a marked improvement is soon perceptible. influence. that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rhoumatism and Gout, Dyspepsia of Indigestion, Bilious, Remittent and Intermittent Feyers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gontle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carluncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects. curative effects.

Cleanso the Vitiated Blood whenever you

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will telliyou when. Keep the blood pure, and the health of the system will follow. Grateful thousands proclaim Vinegar Birthes in the most wonderful Invigorant that ever sustained the sinking system.

Plu, Tape, and other Words, lurking in the system of so many thousands, are effectually de-Pin, Tape, and other Worms, lirking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scacely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no vermifuges, no anthelminities, will free the system from worms like these Bitters.

Mechanical Diseases. Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels. To guard against this take a dose of Walker's Vinngar Bitters once be subject to paralysis of the Bowels. To guard against this take a dose of Walkers's Vinegar Bitters once or twice a week, as a Preventive.

Bilous, Remittent, and Internittent Povers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama; Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumu, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always hore or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily gemove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Secotum. Or King's Evil. White Swellings. Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous Inflammations, Indolent Inflammations, Mercurial Afinnanmations, Indotent Instammations, Mercurial Affections, Old Sores, Etuptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractible execution.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure The properties of Dr. Walker's Vinegar Bitter.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic and Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious The Aperient and will I varies for croperties, of Dr. Walker's Vinegar Bitters are the vest safeguard in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diuretic properties act on the Kidneys, correctingland regulating the flow of urine. Their Anti-Bilious properties simulate the liver, in the secretion of biles and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Fortify the body against disease by purifying all its fluids with Vinegar BITTERS. No epidemic can take hold of a system thus forearmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorm.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassfull. Eat good nourishing food, such as beef steak, mutton chop, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.

VEGETABLE SICILIAN HAIR RENEWER

of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected prep aration for restoring GRAY OR FADED HARR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor; and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used. as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes." Sold by all Druggists, and Dealers in Medicines.

Price One Dollar. Buckingham's Dye

FOR THE WHISKERS. As our Renewer in many cases requires too long a time, and too much care to restore gray or faded Whiskers, we have prepared this dye, in one

"TOWANDA," Will stand for a Limited number Approved Marcs at the Barns of the subscriber at

TOWANDA, PINN'A.

"TOWANDA," siris Adverge Chief, by Rysis's Rymbellonian, by Old Abda'ah, he by Ma almos by imported Mess now. Hambletonian dam was by the Chind's kent mare, by imported Mess now. Hambletonian dam was by the dam by Old One Eye, by old Hambletonian dam was by the imported Mess now. Hambletonian dam was by the imported Mess now. Hambletonian dam was by the imported Mess now. "TOWANDA," dam, Vr., mon! Messand, he by Hill's Vomon! Blackbook folled in 18-33, and he by Sherman's Mergia; his dam raised in New Brunswick, and represented as a habbred English mare, bred by Wingste Twombly, N. H., and sold to Benj. Thurston, Lowell, Mass., 18-38, and to David Hill, Bridgepoet, Vi., 1844, in his possession acquired great favor. This horse got more high Picod colts than any horse of his day. He died Nov., 1851 He was the sire of "Ethen Allen," and grand sire of the dam of "TOWANDA." One white pastern behand black points, dark bay, 15 hands 3 inches high, ha years old in July. He is one of the most remarkable animals this country has produced. He is because, blood-like, of great sffength, and action perfect. He is in close proximity to two of the most remarkable is in close proximity to two of the most notable sallions in this Nation: Hambletonian and Ethea 19-2, and as the sire of trotters, these two great horse stand far above all competition in this orany past generate. A better infusion of blood is not in the American horse than in "TOWANDA." He is a fortunate cross. He bids fair for a brilliant future in all respects. He is success, and true nierit will be appreciated by stadijudicious men. We have arrived at a period what mere shifted gabble about the horse is of but little account, and anything of value in his history of brothing, cost, labor, long research, thought and rabor - "The American Trotting Register," which contents." that is known of the pedigree of Trotting Brota's day ancestors and descendants, with a tecord of all pells. "The American Trotting Register," which contents, it that is known of the pedigree of Trotting Begas, that ancestors and descendants, with a facord of all published performances in which a mile was tretted a paced in 2:30 or less, from the earliest dates till the close of 1868, and full record of the performances of 1869 and 1870, giving complete summaries of over schousand contests, with an introductory essay on the true origin of the American Trotter. This is a good thing. False pedigrees are quite too common the work, shuts out imposition in a great degree of the Wallace, the compiler of the "American Shall lock and Trotting Register," gives a better intelligent histity of the Horse than any other.

"TOWANDA" will be shown in harness to bee that think of patronizing hims between the healts, they and eight o'clock, a m., on pleasant week discentisetyle and fine trotting action when trained, we

this style and the trotting action when trained, was surfely make his own character. 'The closest statal brings the man to his true name to it is with of the of early.'
