USEFUL AND SUGGESTIVE.

Keeping Butter for Long Periods.

A new method for keeping butter for a long period is thus described by the *Rural New Yorker*:

It is the invention of Charles H. White of White's Station, Michigan, and consists in putting the butter in a sack fitted to a peculiarly shaped tub and so arranged that when the packing is completed and the tub turned so as to rest on the large end the butter will drop down an inch or so, leaving a clear space between the tub and butter. Strong brine is now poured through a hole in the small end of the tub, to fill this space completely. The brine floats the butter and wholly surrounds it, excluding the air. The orifice is then closed up and the butter set away in a cool place. The invention seemed to us to have very great merit, and we determined to test it practically. Mr. White, therefore, in September last, furnished us a tub of butter, which arrived during very hot weather, which we considered favorable for a thorough test, especially as it had stood in the express office a couple of days, exposed to the sun before we were notified of its arrival. The tub was then taken and set aside in the cellar, where it remained until July 13th, 1872, when it was opened. The most of the brine had evaporated, but we found the butter sound and apparently in as good order as when first packed—ten months and a half previous.

From this test we are inclined to think that with proper attention from time to time in supplying brine as it evaporates, butter may be kept two years or more in good order by this method. If all tub butter sent to market were put up in this way, the risk of handling would be vastly lessened; and for family use, when the butter is not needed for immediate consumption, the plan of packing is to be highly recommended.

Another important feature in these packages is that the butter may be lifted by the sack entirely out of the tub, the end of the sack turned down and the butter cut in desirable shape for the table. The cutting of butter off as desired, the sack with that which remains is lifted back into the tub *and thus treated alternately* until the whole is consumed. In the old way of packing it is not unfrequently in ragged and unsightly lumps, but with the White package the cuttings may be made very neat and shapely.

Interesting to Housekeepers.

It may not be universally known to housekeepers and others what a useful article hartshorn is. We clip the following from the *Providence Journal* for the benefit of our readers:

"Ammonia, or as it is generally called, spirits of hartshorn, is a powerful alkali, and dissolves grease and dirt with great ease.—It has been recommended very highly for domestic purposes. For washing paint, put a teaspoonful in a quart of moderately hot water; dip in a flannel cloth and then wipe off the wood work; no scrubbing will be necessary. For taking grease spots from any fabric use the ammonia nearly pure, then lay white blotting paper over the spot, then iron it lightly. In washing lace put about twelve drops in a pint of warm suds. To clean silver, mix two *teaspoonfuls* of ammonia in a quart of hot suds. Put in your silver-ware and wash, using an old nail brush or tooth brush for the purpose. For cleaning hair-brushes, etc., simply shake the brushes up and down in a mixture of a tablespoonful of ammonia to one pint of hot water; when they are clean, rinse them in cold water, and stand them in the wind or in a hot place to dry. For washing finger marks from looking-glasses or windows, put a few drops of ammonia on a moist rag and make quick work of it. If you wish your house-plants to flourish put a few drops of the spirits in every pint of water used in watering. A teaspoonful will add much to the bath. Nothing is better than ammonia water for cleansing the hair. In every case rinse off the ammonia with clear water. To which we would only add that, for removing grease spots, a mixture of equal parts of ammonia and alcohol is better than alcohol alone; and for taking out the red stains produced by the strong acids in the blue and black cloths, there is nothing better than ammonia."

For the Household.

THE PROPER SELECTION OF FOOD.—There is no country where there is so much dyspepsia as in America, because our people pay but little attention to food, and eat too much meat for the exercise they take. If one has mental labor, fish ever second day, at least, is requisite. Soup *sets all the glands* at work, and prepares the stomach for the more important functions of digestion, and, therefore, should be taken at dinner every day. Beef broth is to the old what milk is to the young. Cookery properly attended to keeps man in health. If the stomach is out of order, the brain is affected. We should eat more fruits, vegetables, soup and fish.

A NEW HONEY PLANT.—In a late number of the *American Bee Journal* it is stated that a very limited quantity of the seed of the Partridge Pea (*cassia chamaecrista* of botanists) has been placed in the hands of the Commissioner of Agriculture, for distribution among bee-keepers who may desire to give it a trial. Those wishing it should make application for the same at once. It should be known, however, that the plant is often regarded by good farmers as little better than a pest. It is described by Darlington, in his "Weeds and Useful Plants," page 110, who says it is common to sandy fields, especially southward, flowering from July to September, and often as late as the middle of October. The only thing to recommend it as a honey producing plant, is that it blooms during the interval between spring and autumn pasturage, and thus furnishes feed for bees at a time when other vegetation fails to give a supply. It is an annual, and the *Journal* says on this account "ought not to be difficult to get rid of by proper management, when its presence is undesirable." With the caution above given, in regard to this plant, perhaps our bee-keepers had better give it a trial.

MAKE YOUR OWN BREAD.—A writer in *Hearth and Home* says: There is more of the element that we call happiness arising from the use of good bread than is credited to that source. If your husband's love can grow for you and for his home under the infliction of bad bread, then he is a great man—much greater than men in general.—If you expect your children to be obedient, sweet, and respectable in their accents and behavior, with sour bread in their little stomachs, you will be disappointed, unless they are very near to their angel state. Two hours' service during the week in your kitchen making bread, if you will give it your whole heart and hands, will yield you a better return than many hours spent in bordowing trouble and looking on the dark side of life, and trying to think that the very darkest side is always turned toward you. Just try the experiment of working in flour, of watching the dough rise, of moulding it into symmetrical small loaves, of peeping into the oven to see the rich brown crust over them, and the sight of the loaves when done, and better still of the husband's exclamation, "Oh, what delicious bread!" and then see if you do not feel rewarded, even before your taste the snowy leaf. It will not hurt your hands to make bread, and it will cheer your heart.

SPICED BACON.—This may be prepared of excellent quality, by persuing the following method: Select a side or middle of a delicate pork, and take out all the bones. Put it in a pan of water for ten or twelve hours to extract the blood, changing the water as often as it becomes colored. Then put the meat into a pickle as follows: Water, one gallon; common salt, one pound; sal prunelle, quarter of a pound; coarse sugar, one pound. Let the meat remain in this pickle for at least a fortnight; then take it out, wipe it well and shed sage bay leaves (the stalks having been taken out,) very small, over it.

GRAFTING WAX.—This is an article that every farmer should keep on hand, ready for use *whenever needed*, for it is valuable for various other purposes besides that of grafting. Wounds in *pruning large trees* will heal over much sooner if coated with this wax, and if a piece of bark is accidentally stripped from a tree, the place should be covered over with it, and the wood will remain sound and healthy underneath.—There are several recipes for preparing this wax, and I have found the following better than any other one tried: Melt in a basin one pound of tallow, two pounds of beeswax and four pounds of rosin; stir well together, and keep in a cool place in the dish in which it was melted. If beeswax is very costly as an item, one-third less quantity can be used.

This wax is most excellent for sealing the corks of bottles whose contents are desired to be air-tight, and for covering cloths to tie over preserve jars. It can be melted over when required for use, and it will spread with a knife upon bandages, etc.; is the best sealing-wax that can be used for many purposes.

S. O. J.

THE BALLAD OF HIRAM HOVER.

Where the Moosatockmaguntic
Pours its waters in the Skunkic,
Met, along the forest side,
Hiram Hover, Huldah Hyde.

She, a maiden fair and dapper,
He, a red-haired, stout trapper,
Hunting beaver, fox and skunk,
In the woodlands of Squedunk.

She, Pentucket's pensive daughter,
Walked beside the Skunkic water
Gathering, in her apron sat,
Snake-root, mint and bouncing-bet.

"Why," he murmured, loth to leave her,
"Gather yarbs for chills and fever,
When a lovyer, bold and true,
Only waits to gather you?"

"Go," she answered, "I'm not hasty;
I prefer a man more tasty;
Leastways, one to please me well
Should not have a beastly smell."

"Haughty Huldah!" Hiram answered,
"Mind and heart alike are cancered;
Just look here! these pelteries give
Cash wherefrom a pair may live."

"I, you think, am but a vagrant,
Trapping beasts by no means fragrant;
Yet—I'm sure it's worth a thank—
I've a handsome sum in bank."

Turned and vanished Hiram Hover;
And, before the year was over,
Huldah, with the yarbs she sold,
Bought a cape against the cold.

Black and thick the furry cape was;
Of a stylish cut the shape was;
And the girls, in all the town,
Envied Huldah up and down.

Then, at last, one Winter morning,
Hiram came, without a warning;
"Either," said he, "you are blind,
Huldah, or you've changed your mind.

"Me you snub for trapping varmints,
Yet you take the skins for garments;
Since you wear the skunk and mink,
There's no harm in me, I think."

"Well," said she, "we will not quarrel,
Hiram; I accept the moral.
Now the fashion's so I guess
I can hardly do no less."

Thus the trouble all was over
Of the love of Hiram Hover;
Thus he made sweet Huldah Hyde
Huldah Hover as his bride.

Love employs, with equal favor,
Things of good and evil savor;
Last, which first appeared to part,
Warmed at last the maiden's heart.

Under one immortal banner,
Life, the hunter, Love, the tanner,
Draw, from ever beast they snare,
Comfort for a wedded pair!

POLITICAL NOTES.

No geographic mark defines
The grand old Union party's lines;
Even old names no longer stand—
New York is changed to Dix's land.

Governor Noyes says he is of the opinion that Grant will carry Ohio by from 40,000 to 50,000 majority.

If Saulsbury, of Delaware, can be kept in his normal condition of inebriety he will shortly take the stump for Greeley.—*Toledo Blade.*

The Cincinati *Enquirer* says Grant won his battles by numerical strength. That is the exact way he will win the battle he is now fighting.

The highest Grant and Wilson flag in Massachusetts floats from a staff fastened to a tall pine tree on Wachusett Mountain. It can be seen for many miles.

The New York *Tribune* head an article "Is there a limit to lying?" A regular pursuit of the *Tribune* enables us to answer promptly. "No!"—*Toledo Blade.*

It will be inscribed upon Greeley's tombstone that "his political career came to an end on his defeat as the Tammany candidate for President during his *green* old age."

It is explained that Hon. Galusha A. Grow is a "reformer" on principle. He has considered the Republican party corrupt ever since it refused to send him to the Senate from Pennsylvania.

The country excursionists who went to Chicago last week to see ruins, were fully repaid after visiting the once brilliant young man who does the political prevaricating for the *Tribune.*—*St. Louis Globe.*

Men change. A single issue of the *Tribune* last week contained bitter articles against Richard H. Dana, Jr., William Loyd Garrison, Wendell Phillips, Frederick Douglass, General Dix, and President Grant.

Buell goes for Greeley. He may be remembered by those who are very familiar with public affairs, as an unlucky General in the late war. Greeley declared, in 1862, that "Buel ought to be court-martialed and shot."

People and papers who have no minds about political issues, or, having them, are anxious to conceal them, until they can see the best way to jump, will be delighted with the ticket the Dayton (Ohio) *Sun* offers them: "For President, Gr——, for Vice President, ——n."

There is a Republican in Crawfordsville who says he is going to leave the party because, when they hold meetings he can't get near enough to hear the speakers. He likes the Democracy because he can get close to the stand and hear what they have to say.—*Indianapolis Journal.*

Buckalew is a free-trader, and Gen. Hartranft is in favor of protection to the great interests of the State and country. The workingmen, whose prosperity and welfare depend upon proper protection, should remember these facts when they vote in October.

If the election had taken place in Indiana a *month ago* we should have had some fears of the result. A good many honest but deluded men would have gone for Greeley. But they are nearly all back in their places now, and prepared to give the Confederate Democracy a broadside in October.—*Indianapolis Journal.*

The United States sub-Treasury in this city, moved into new quarters yesterday. Several bushels of greenbacks and four express wagons full of gold were transferred. On balancing the books, a deficency of eight cents was discovered. Mr. Schurz will move for a committee of investigation when Congress meets.—*Mo. Dem.*

The Cincinati *Enquirer* says the idea of re-electing Grant is preposterous—that it was all the Republicans could do to elect him in 1868. True, but the *Enquirer* must remember that in 1868 we were burdened with Greeley, Kilpatrick, Brown, Donnelly, Aleck McClure, and all of that crowd. The Democracy have that load to carry now.

In his speech at Putnam, Connecticut, Mr Greeley said: "The denunciation and personal abuse bestowed upon us by our opponents, is proof that we have right on our side. How is that? When Greeley was denouncing Democrats as liars, villains, blacklegs, horse thieves, pluguglies, and the like, are we to infer that these parties had right on their side?—*St. Louis Globe.*

The *World* says "the very pith of the Democratic creed is local self-government against centralization." That was Governor Perry's creed when he thought South Carolina had a right to break all the laws of the United States and the Constitution to boot, by seceding. Democrats do not yet see any authority in the United States to protect citizens in the unsetted rebellious States.—*Hartford Post.*

Hon. Washington Townsend, member of Congress from Chester and Delaware, in a speech the other day said that after reading everything on both sides and weighing the evidence carefully, he had reached the conclusion that Gen. Hartranft is entirely unstained and eminently worthy of support. "*Every charge made against Gen. Hartranft is fully and completely disproved by the evidence.*" This is the opinion of Mr. Townsend, a man whose word is respected wherever he is known.

Hartranft made a thrilling speech at Fort Hatteras, a forcible speech at Roanoke and Newbern, a telling speech at Chantilly, and an eloquent speech at Antietam Hights, and a powerful speech at Fort Steadman. While he was making these speeches, which had such a great effect in overthrowing the rebellion, Buckalew slumbered in his easy chair. It is true that he did not speak in language proceeding from his own mouth, but his cannon and musketry spoke with much greater force than anything that poor "Buckalew the silent" could have said at that time. The war is over now, and the brave actions of the soldier are apt to be forgotten.—*Norristown Herald.*

Western Pennsylvania will roll up a glorious majority for Republican principles, and for Hartranft, Grant, and Wilson. The Pittsburg *Commercial* says: "To our Republican friends elsewhere we wish to convey the gratifying fact that in Alleghany, and in Western Pennsylvania generally, our cause is in a most satisfactory state of progress.—Republicans everywhere have come to realize that Pennsylvania must be carried for Hartranft in October. Under this conviction dissensions have healed, personal feelings been cast aside, and everything calculated to interfere with success forgotten in a noble devotion to the Republican cause. To our friends everywhere we give good cheer, and bid them press on to the triumph that awaits them as the reward of faithful performance of duty."

and Brushes for Carriage and

Cutter Ornamenting.

A full line of all kinds of Good appertaining to our business kept in stock.

Jan. 1, 1872. JOHN R. PIERCE.

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above pointed for relief, the discoverer believes he has combined in *harmony* more of Nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system, and **purifies the blood.** By its great and thorough blood purifying properties, it cures all **Humors** from the worst **Scrofula** to a common **Blotch, Pimple or Eruption.** Mercurial disease, Mineral Poisons, and their effects are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt Rheum, Fever Sores, Scaly or Rough Skin,** in short, all those numerous diseases caused by bad blood, are conquered by this powerful, purifying and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver** or **"Biliousness."** In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of **Habitual Constipation** or the Bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise.

The proprietor offers $1,000 reward for a medicine that will equal it for the cure of all the diseases for which it is recommended.

Sold by druggists at $1 per bottle. Prepared by R. V. Pierce, M. D., Solo Proprietor, at his Chemical Laboratory, 133 Seneca Street, Buffalo, N. Y.

Send your address for a pamphlet.

June 26, 1872, Rot-1y

Dentistry.

HAVING returned from a visit East, I am now prepared, with a new stock of goods and instruments to offer superior inducements to those in want of anything in my line. Artificial teeth inserted on a new and superior base, at low rates. Teeth extracted without pain. Preservation of the natural teeth a specialty. Work warranted. Terms reasonable.

A. B. EASTMAN, Dentist,

Jan. 1, 1872-tf Wellsboro, Pa.

(Successors to J. R. Barker.)

Dealers in

Dry Goods

of every description.

CHOICE GROCERIES,

in abundance, all kinds and fresh.

The public is cordially invited to call and look through our large stock, as we are selling at low figures for ready pay. We shall receive

NEW GOODS

constantly from the city to keep our assortment full and complete.

TOLES, ROBINSON & CO.

July 10, 1872.

Good Livery!

VAN VALKENBURG & CO. would say to their friends that they have a good Livery established in Wellsboro for the accommodation of their friends.

Good Horses and Carriages

always on hand at moderate rates.

Stable on Water Steet opposite Geo. Derby's residence. C. G. VAN VALKENBURG.

June 26, 1872. C. W. MOSIER.

REAL ESTATE FOR SALE.

THE subscriber offers for sale his real estate in the southwestern part of the borough, to suit purchasers. A portion of the premises is nicely situated to cut up into village lots, and pasture and timber lots. The portion covered with timber is well wooded with hard-wood and hemlock. The large lot on which he resides will be sold off in village lots, including his residence. ROBERT KELSEY.

June 12, 1872-6m

House and Lot for Sale.

THE undersigned offers for sale his House and Lot on Main street, in Elkland, Pa., at a very low price said lot contains one-half acre, and is under good cultivation. For terms, &c., apply to the subscriber.

Elkland, Pa., Feb. 21, 1872-tf. O. P. BABCOCK.

New Cabinet Store!

THE undersigned has opened a room in the basement of his cabinet building, on Main Street, opposite Hart's Wagon shop, for the sale of

Cabinet Ware

of all kinds, such as

Bed Sets, Bureaus, Bedsteads,

Chairs, Lounges, Extension and other Tables, What Nots, Hat Racks,

and many other things, which will be sold lower than the lowest. He invites all to take a look at his goods before purchasing elsewhere.

Remember the place—opposite Hart's Wagon Shop, West Main Street.

JACOB STICKLIN, Agent.

Aug. 14, 1872.

VINEGAR BITTERS

VEGETABLE — FREE FROM ALCOHOL

PURELY — CALIFORNIA

DR. WALKER'S

EUREKA

VINEGAR BITTERS

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful thousands proclaim VINEGAR BITTERS *the most wonderful Invigorant that ever sustained the sinking system.*

Pin, Tape, and other Worms, lurking in the system of *so many thousands, are effectually destroyed and removed.* Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose body is exempt *from the presence of worms.* It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases. Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels. To guard against this take a dose of WALKER'S VINEGAR BITTERS once or twice a week, as a Preventive.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goiter, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

The properties of DR. WALKER'S VINEGAR BITTERS *are Aperient,* Diaphoretic and Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Aperient and mild Laxative *properties of* DR. WALKER'S VINEGAR BITTERS are the best safeguard in all cases of eruptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diuretic properties act on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all reggedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus forearmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassfull. Eat good nourishing food, such as beef steak, mutton chop, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.

J. WALKER, Prop'r. R. H. McDONALD & CO., Druggists and Gen. Agts., San Francisco, Cal., and cor. of Washington and Charlton Sts., New York.

HEALTH! BEAUTY!!

STRONG AND PURE RICH BLOOD—INCREASE OF FLESH AND WEIGHT—CLEAR SKIN AND BEAUTIFUL COMPLEXION SECURED TO ALL.

DR. RADWAY'S SARSAPARILLIAN RESOLVENT

HAS MADE THE MOST ASTONISHING CURES SO QUICK, SO RAPID ARE THE CHANGES THE BODY UNDERGOES, UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE, THAT

Every Day an Increase in Flesh and Weight is Seen and Felt.

THE GREAT BLOOD PURIFIER.

Every drop of the SARSAPARILLIAN RESOLVENT communicates to the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the waste of the body with new and healthy material. Scrofula, Syphilis, consumption, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands and parts of the Body, Chronic Rheumatism, Strumous Discharges from the Ears, and the worst forms of Skin diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm, and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days will prove to any one person using it for either of these forms of disease its potent power to cure them.

If the patient, daily becoming reduced by the waste and decomposition that is continually progressing, succeeds in arresting these wastes, and supplying in their stead new material made from healthy blood—and this the SARSAPARILLIAN will and does secure.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney & Bladder Complaints,

Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a prickling, burning sensation when passing water, and pain in the Small of the Back and along the Loins. Price, $1.00.

WORMS.—The only known and sure Remedy for *Worms—Pin, T
