They all want to know now why the nice Mr. Buckalew carries such a thing around with him. Taken as a whole, though respectable in numbers, the meeting was a decided failure so far as influence is concerned, the unterrified being disappointed in their candidate for Governor, and ashamed of his disgusting companion.

The Local Political Situation.

We receive the most cheering advices from ill parts of the county in regard to the poitical outlook. The local meetings held in all the different neighborhoods during the last few weeks have been unusually large and enthusiastic, and show unmistakably that the people are wide awake and thoroughly in earnest in the good work of snuffing out the nongrels and rebuking the trading politirians. It is evident that Greeleyism, so far as this region is concerned, is already to be numbered among the dead "isms" which the New York Tribune has exploited and run into the ground during the past generation. The old white coat has lost its charm for the people of Tioga county, and "Honest Horace" will never more be looked up to as political guide by our voters, nor as an agricultural oracle by our farmers. That idol s broken, and is found of the coarsest clay-It will never again be set up.

It is only necessary, to show the desperate traits in which the coalitionists find themselves, to recall the fact that their county ticket proper, as published by their princi-ple organ last week, consisted of but two names, and that one of those was that of a straight Republican who publicly repudiates the whole affair. When any party, within three weeks of an important election, during Presidential canvass, finds itself in such predicament, everybody must see that it is in a mighty bad way. The fact is, that each wing of the Democracy undertook to cheat the other, and the "little game" on each side was so openly and bunglingly played that the whole crew at once became the laughng-stock of every honest man in the county, and excited the disgust and contempt of their slim crowd of followers. Between the "gross ignoramuses" who can't and won't swallow boiled crow;" the lonesome "Liberals" who feel that they have been badly bamboozled, and the trading Democrats who are anxous from interested motives to "clasp hands" with both the other sulky factions, it is evilent there is a "big disgust" all around.

Whether they will manage to patch up a county ticket of some sort for the looks of the thing remains to be seen; but it is of very little consequence whether they do or not. It looks now as though they would make a spasmodic effort for Mr. Sherwood's election, trying to run him in again on his personal popularity. But that tack isn't a good one to sail on this year. Their condidate has been to Congress, and has made his mark up nor blot it out, and while it stands there is small chance of securing "complimentary votes" in Tioga county. Besides, Mr. Sherwood is opposed by a man of unquestioned integrity who is every whit as able as himself, and who is a square, sound Republican of great personal popularity. He will run fully up to his party ticket, and in some parts of the district much ahead of it, leaving Mr. Sherwood in no doubt on the 9th of October as to who is elected. The only fruit of Democratic labors in this region this year will be didate. His intentions are savage enough, no doubt; but as we sha n't be called upon to attend the funeral, whoever gets slaughtered in that fight, it isn't worth while to speculate on the name of the corpse.

While this is the forlorn condition of the motley oppositon, the Republicans are in excellent spirits, and are daily growing more confident of electing Hartranst and the whole State ticket, Ross and the whole county ticket, and burying the mongrels so deep that the attempt will never again be made to trade off a shaky Republican President for a Democratic Governor and Congressman, in this generation at least. As will be seen by reference to our editorial columns, local meetings are to be held this week and next in different parts of the county. The gentlemen who has given themselves to this work during the present campaign are deserving of the warmest consideration at the hands of all Republicans. But valuable as their work is, it cannot accomplish everything. A concerted effort must be made by the Republicans of each election precinct to get out and poll their full vote on election day. This is the great point; and preparations should be made to that end at once. Make a complete and carefully classified list of the voters and then see that every man of them votes for the whole ticket on election day. If this is not done, all our work of every sort will be wasted; but if it is done, we promise our friends such glorious news as will make them prouder than ever of the fact that they are members of the Republican party and citizens of

'' Old Tioga.'' The Trouble with the Mails.

During the last week the people of the whole county have been greatly incommoded by the derangement of the mails, caused by the refusal of the Railroad Companies to perform the service at the price offered by the Post Office Department. We received no mail at all on Monday the 16th instant. -Last Tuesday the Postmasters at Corning, Wellsboro and Blossburg made arrangements by which the mails for both routes were sent by teams over the whole line .-That arrangement lasted a couple of days, and was then discortinued, and the mails sent by the Northern Central Road, reaching us from Troy. The result was that correspondence which should have been here Thursday did not reach us until Saturday. As the matter affects nearly every resident of the county, we detail below the exact cause of the dead-lock, as we understand it. The President of the Fall Brook Company, acting in concert with the Tioga Rail-

which they are carried, and the frequency and importance of the service, and fixed the maximum rates of allowance for the seeveral classes at \$3C) per mile for the first, \$100 for the second, and \$60 for the third, allowing an addition of 25 per cent. if one-half the service on any route shall be required to be performed in the night season. Thus the first fact shall be used as a guide in the performance of that duty, and prescribes limits which it is absolutely forbida; the Postmaster General to transcend in allowing compensation for the several classes of service. The first fact required by the law to be considered is the several classes of service on the several classes. The first fact required by the law to be considered is the several classes of service on the several classes and proved facts and battery.

Which they are carried, and the frequency and importance of the service, and fixed the jury finding \$307.66 for the surface of the plaintiff. It is plai Hon. Francis Jordan, Secretary of the and importance of the service, and fixed the the plaintiff.

However of allowed for the several Isaac C. Price was tried for effecting in Commonwealth, has prepared a second edition | maximum rates of allowance for the several | of the election laws of this State, which is classes at \$300 per mile for the first, \$100 for by the jury on one count of the indictment, to every voter, and more especially the second, and \$50 for the third, allowing to every voter, and more especially the second, and \$50 for the third, allowing the jury on one count of the indictment. to every voter, and more especially to every voter, and more especially to every citizen who had anything to do with the execution of those laws. The volume is carefully digested and arranged with notes and judicial decisions. This new edition has been rendered necessary by reason of the adoption of the fifteenth amendment to the national Constitution, and passage of the registry law by our State Legislature. It is absolutely forbids the Postmester General. the registry law by our State Legislature. It it absolutely forbids the Postmaster General brings the whole law of the subject down to to transcend in allowing compensation for the present date. The work is published by the several classes of service. The first fact

s ze of the mails, because that determines the amount of postal revenue on which the Government mainly relies to defray the cost of

the service.

In carrying out the intentions of the law. t is found by returns obtained upon a uniform plan, from nearly all the railroad routes in the country, that the average weight of mails conveyed over routes receiving \$50 mails conveyed over routes receiving \$50 victed of voluntary manshaughter, to sepaper mile is about 200 pounds per day, and of rate and solitary confinement at labor in the routes receiving \$75 about 500 pounds per, day. A discrimination is made in favor of roads carrying the lesser quantities, but \$800 being paid where the amount carried is over. six and one-half tons per day. On the main route between Corning and Blossburg the average is 225 pounds, to Morris Run 41 pounds, and to Arnot 25 pounds, making the werage of that main route and branches 194 pounds per day. On the route between Wellsboro and Lawrenceville the average amount is 126 pounds per day. In view of these facts, the Department announces that the Government cannot, in any event, under the law, allow any excess over the rate of

\$50 per mile per annum. During the correspondence on the subject he companies have insisted on \$75 per mile for two services each way per day between Blossburg and Corning and Wellsboro and Lawrenceville. So far as the people of this neighborhood are concerned, we are sure they would be entirely satisfied with one service each way per day. As recently arranged, we received a through mail at ten o'clock at night, and the return through mail. left at six in the morning, and not one in ten of our citizens ever went to the post office between those hours. If the people of each valley can receive their daily mail by the morning train and send it out by the afternoon one, we believe they will be amply accommodated and fully satisfied. We trust some arrangement of this sort will be speedly made by the Department and the Companies, for, as the mail arrangements-or rather disarrangements-now are, some portions of the county are cut off from all postal communication with the rest of mankind.-As we write, we learn that an agent of the Department was expected at Corning yesterlay to make some arrangement, if possible, for the resumption of the service by the railroads. It is certainly to be hoped that his efforts to that end may meet with immediate

FIRE IN CHATHAM. - Editor Agitator: The barn of Ashley Short, of Chatham, was consumed by fire Sunday evening, Sept. 15, between the hours of 9 and 10. It was a firstclass barn just erected the past season. was no insurance on these. Mr. Ashley Short had a slight insurance on his property. The brothers systained a heavy loss. The fire was the work of an incendiary.

AS IMPARTIAL POLITICAL OBSERVER .-Mr. Editor: The two political parties, like two steamboats going up Hudson River, are under full headway. We have regular weekly meetings, with good speakers and Grant and Greeley, Hartranft and Buckalew, Grant and Greeley, Hartranit and Buckalew, are of course thoroughly sifted. By the way, there is much valuable information to be derived by our young men from these gatherings. I like to listen to a good speech, no matter if it is not very orthodox. I pity the man who can read nothing them. one delegate to the Constitutional Convention—that is provided Mr. Victor A. Elliott derived by our young men from these gathdoesn't succeed in smashing the regular can- erings. I like to listen to a good speech, no man who can read nothing hear nothing, except it squares exactly with his own preconceived idea. I read all things, and try to hold fast that which is good. Therefore I attend political meetings of both sides. I like both Grant and Greeley. I have read Greeley all my life. America need never be shained of such a man. And he must be a brainless fool who cannot appreciate the services of President Grant. But I think the signs of the times are clearly in favor of the re-election of the Great Soldier. Our Greeley friends don't know what to make of the recent avalanches from Vermont and Maine.

Death of John Fox.

Mr. John Fox died at the residence of his son-in-law, Mr. A. C. Witter, at Troy, Friday evening, Sept. 18th, after an illness of about two months. His health had been failing for a number of years. Having become blind from cataract of the eyes, he went to Elmira to be treated by Dr. UpDeGraff, and after recovering somewhat from an operation he returned on his way home as far as Troy, stopping at Mr. Witter's to rest a few days, and he was there suddenly confined to his bed. His condition from the first, was such as to give but little promise that he would ever recover. He received every care that an affectionate family and many friends could give to make him comfortable.

He was seventy-one years of age and one of the first inhabitants of Mainsburg, having come here forty years ago last February. He at once opened a store, the first one ever kept in this place, and he remained in the mercantile business until two years ago, when his age and declining health compelled him to retire. During these forty years of his residence here, many changes have taken place; one generation nearly has passed away and another one grown up. Many have come and many gone. What was but a piece of low swamp land, covered with logs when Mr. Fox came here is now the land on which this pleasant village stands; the wilderness around here has been changed into a rich and beautiful farming country.. During all this time Mr. Fox had remained stendily in his store, gaining friends, confidence and esteem, and never losing any of them. He was easy with his creditors, and a benevolent man. Said a lady of him: ! When our family suffered for food in early times, because my father spent his carnings for whisky, we could always ask Mr. Fox with confidence, and he never hesitated to help us." He has thus spent the important part of his life here, and is widely known and
