Money may be saved by buying Dry Goods at Mathers, Holliday & Co. in Concord, N. H. They are closing out many of their summer goods at cost, and at some times keeping their stock replenished with new. Sept. 24, 3w.

Howell Hopper, Esq., an old resident of Allegany county, eighty years of age, and entirely blind, was operated upon for the extraction of a cataract, by Dr. Updegraff, yesterday morning. In the afternoon a lad fourteen years of age was operated upon for the same difficulty. -Elyria Advertiser.

A FRAGRANT BREATH AND PEARLY TEETH are easily attained, and those who fail to avail themselves of the means, should not complain when accused of gross neglect. The Soprozophos, a specially prepared tooth powder, of a fine bouquet, and of a most refreshing the teeth to the oldest age.

NOTICE TO TAXPAYERS.—Notice is hereby given that the undersigned will receive School and Building taxes of Wellsboro District for the year 1872, at the office of Wellsboro, on Thursday, Friday and Saturday the 10th, 11th, and 12th of October, 1872. C. B. KELLEY, Receiver.

On the 25th of March last Mr. James Scyler, of Wellsboro, let his horse and has never returned. He was five feet five inches high, thick set, light complexion, full face and very red cheeks, brown hair, in his twenty-ninth year. When he was last seen he was wearing a blue coat and a blue hat, and had a beard. He was supposed to be in the hands of the late Mr. Scyler, and all communications may be directed to the Advertiser, Wellsboro, Pa. Exchange papers, 3w.

The Agitator.

TUESDAY, OCTOBER 8, 1872.

Home Affairs.

Briefs. We go to press this week on Monday.

Ransom Pratt, third son of Dr. G. W. Pratt of Conant, was awarded the Cornell Free-ship in his School Commencement.

Pickwickers were plenty at the State Fair at Elmira last week, and on the way thither. Some of our citizens received special attention from the fraternity at Conant.

A subscriber writes us: "They fed me nearly raw in Andersonville on corn, and a tub and all, but that did not enrage the natural chivalry enough to enable me to address the Greeley pill."

The Morris-Russell company are now shipping an average of 1,800 tons of cement from the Morris Company ship about 1,200 per day, and the Fall Brook company are running large quantities, too, we have not the exact amount.

There will be a Republican meeting at Calver School House, Chatham, Saturday evening, October 12th, at 7 o'clock. Mr. E. F. Hartman and Mr. Lewis of Morris Run, will address the meeting on the issue of the national convention.

The little woman "organ" feels bad because the editor of the Agitator has been in the county a great while. Well, that is a fault that time will cure. Don't waste any tear over the sorrowful fact, Mr. Enterprise, but reserve them for the "Liberal" candidate for Constitutional Delegate.

The Khira Advertiser of last Saturday, under the head of "Amusements" says, "Mr. N. M. Sherwood, wife of Rev. N. M. Sherwood, is honored by the sudden death of her father." If it had been a mother-in-law in the case we could understand it, but as it is we don't quite see the point.

The little "organ" over at Mansfield has a correspondent who writes that the "Liberal" meeting here last Thursday week "was not so quiet as large as the Grant and Hartman meeting on Monday, and far more earnest and enthusiastic." That is rather nice, a paper that was always to talk us out of our wits.

We are informed that some of our subscribers in Conant do not receive their paper two weeks ago. They were all duly mailed here, as they are every week. We do not imagine why they should fail to reach you unless it is because of the trouble about the mails at that time. We treat them as all got around by this time.

Our Conant correspondent writes us that the mail train was about a mile before that place in its way north last Thursday afternoon, it ran over a old lady named Thomas, killing her instantly. It was the old lady who was sitting next to the editor, and she was walking home upon the track and for some unknown reason did not get out of the way when the train came along. She was about sixty-six years old.

The annual session of our County Institute will be held at the Baptist Church, in Conant, on Wednesday, beginning Monday the 14th, and closing Friday night. Prof. F. A. Allen, C. H. Verrill, A. C. Winters, Mrs. Fay, Rev. N. L. Reynolds, Mr. Ira Stiles, T. Parsons, of Rochester, N. Y. are engaged as instructors and lecturers. Every teacher in the county is invited to be present, and not one of them is to be absent for a day.

The Valley Enterprise has finally found enough to print what it calls the State Directory, and county "Liberal" nomination. We would gladly like to know when Blackie became a "Liberal" nominee. Like some when M. F. Elliott was named by the "Liberal" for Constitutional Delegate. We read a recollection of reading in a paper that it was always to tell the exact truth, that some other man was nominated for that office by the unhappy "Liberal" squad. What was his name, and what has become of him? Has he chosen his confidante yet? Will some tell us?

The Conant Journal talks about the "wood-choppers" who came up here, the other night as follows:

About one third of the one hundred and thirty wooden buckets taken to the Conant Convention were left, or left on the route home. A colored man, a Republican, of Conant, was offered three dollars to carry them. He refused. Another man, a colored man, was offered five dollars to carry them. He refused. He refused to carry them. A third colored man was offered to go and carry them by one Democrat. He was offered ten dollars by another Democrat. He refused. He refused to carry them. A leading Democratic politician, who having been invited to attend a negro march and in the procession of the Democrats and torches. He also refused.

Godness GRACIOUS!—We are simply astounded—as no doubt our readers will be—learn what has been going on right here in Toga county, and nobody knew it until a

reporter all the way from New York told us all about it. Just look out for those 12-pound torpedoes, that immense bolt that \$1000 telescope, and those green and red signal lanterns to-night! We almost forgot to mention that this magnificent story is from the N. Y. Sun of the 20th ult., and of course must be true.

There is to be a great Greeley meeting in Toga next Saturday. It will be held in Bush's Park one of the grandest mountain resorts in the State. It will be a grand gala affair, and the Liberal in Northern Pennsylvania. The valleys of the Toga, the river of the Toga, the channel of the Toga to the triple cry, "Greeley, Honesty and Victory."

THE FERRISBURGH BREWERY. Mr. Bush who owns the cattle on a thousand hills, and who seems to retail the milk of human kindness, is having a tower one hundred and fifty feet high, and is to be mounted a telescope coating \$1,000, which will enable him to get all the best towns in Pennsylvania and four or five towns in Southern New York. By means of this tower he hopes to get all the election news on the night of the 8th from Northern Pennsylvania, and telegraph it to the Sun. It is to be erected on the top of a high signal lantern arranged, which will be placed in the hands of a perfectly drilled crew. By the spring of particular lanterns the tens and hundreds of majority on either side will be given, and Mr. Bush will communicate the result on an immense bell which reached Toga on Friday afternoon.

Sunday School Convention at Oseola. A Union Sunday School Convention for the Conococheque Valley was held at Oseola, commencing Wednesday afternoon, September 18th, 1872.

Charles Hoyt, of Oseola, was elected moderator of the Convention. He is an active Sunday School man, and presided with ability. Rev. T. Leslie Weaver was elected Secretary. Some opening remarks were made by Rev. Mr. Dawson, of Nelson, who has been a member of the Convention since the school started. An able essay was presented by Rev. Mr. Sigston, of Knoxville, on "The Philosophy of Education." Rev. Mr. Cairns, of Oseola, discussed his thesis "How to secure the study of the lesson by the scholar." It was maintained that an interest manifested in the lesson by the teacher, would beget an interest in the scholar, and that it was necessary to have the co-operation of the parents. In the evening the convention was addressed by Rev. T. Leslie Weaver on "The relation of the S. S. to the Church." Thursday morning Rev. Mr. Rayson illustrated ably "The use of the Blackboard" in the S. S. All were impressed with the utility of object teaching, and Rev. Mr. Rayson, of Oseola, Rev. C. B. Weaver, of Westfield, discussed "The Conversion of Children." After some discussion it was moved that when we adjourn it be to meet at Knoxville the second Tuesday in December. In the afternoon Rev. Mr. Rayson read his thesis "How to obtain and retain older persons." It was maintained that the scholars should be sent out after them and be instructed to leave them until they would come, and that the S. S. should be held after the morning service.

Rev. Mr. Sigston, Rev. J. H. Blakes and J. E. White, of Knoxville, were constituted Cong. to arrange a programme for the Convention at Knoxville. Some of the S. S. members of the county have inquired what we mean by holding Conventions in the Conococheque Valley when we now have a County Convention. Our answer is that we mean business for Jesus. We regard our Convention as auxiliary to the County Convention, and we are in perfect harmony with the movement. Our method of conducting the Convention was a little new. It was complained that the County Convention at Mansfield was too mechanical, and that the time was wasted in the reading of the minutes. At the close of each address we allowed the Convention to question the speaker freely and to pump all the knowledge they could out of him. The result is some animated discussions, which give us more interest than we could have had otherwise. Some personalities might have been profitably avoided, but on the whole we recommend this plan.

We are indebted to the good people of Oseola for many kind attentions and for their Christian hospitality. Most of them were prepared in basket and storehouse. Let us approaching Convention at Knoxville be generally attended. T. LESLIE WEAVER.

CONVENTION NEWS.—Dear Agitator:—Again I attempt to do for you what you have done for me, and I hope to interest you in my readers.

OUR GLASS FACTORY. A few days since in company with a friend I visited this factory, and we were well pleased with what we saw there. We entered the furnace room by a back door, and there found ten blowers and an equal number of tending boys busily engaged in transforming the liquid glass into the beautiful "rollers." It is a very pleasant sight to witness this process, especially in a dark evening when the bright red rollers are swung around by the blowers in a manner that would seem to me careless.

A few steps from the furnace the flattening oven is located, where the rollers are heated to a proper state, and then smoothed by the flattener until they are large smooth sheets of glass. They are then placed upon a little iron car, which as soon as loaded is rolled away to the cutting room.

In this room we found four skillful fingers cutting the large sheets of glass up into a variety of sizes varying—from a gentleman afterward told me—from seven by nine inches up to forty-five by seventy-two inches.

We visited the packing room and found a large quantity of glass there ready for packing, but did not see any being packed in the boxes.

We next visited the pot room where the pots are manufactured, in which the ingredients comprising the glass are melted together, and the molten glass is poured into the pot. This hammering the clay into the form of a pot with one of his fists. There is just one sight in a glass factory that is perfectly ludicrous, and that is to see the large rollers here it is ready to be made into pots. It is raised in a sort of bin, such as farmers store away potatoes. After the clay is placed in this bin, a man with bare feet, gets in it and breaks away like a little boy in a mud puddle. This treading operation is frequently kept up all day.

The proprietors of this institution have done away with a great deal of bother and inconvenience in purchasing and carrying away the glass. Formerly all the sand and clay was ground by horse power, while now the engine is added to performing both of these services, runs a number of circular saws which are used to cut lumber into the right size for the manufacture of boxes.

Glass manufacturers say that the facilities for making glass in our locality are as good as can be found anywhere.

There are at present about fifty men employed by the company.

SMALL BITS. The Railroad company have rented for a term of five years, Rev. Mr. Deibel's building and are going to remodel it into a depot, and establish in it that long and narrow telegraph office.

Report says that the Conant Hotel is about to change hands. For the sake of the traveling public I would advise the new owner to put a patent outside upon the building, and then purchase outside enough to feed them all day, if such an event should ever occur.

Our Sabbath school will be held in the Baptist church during the Fall and Winter. Our military company intend building an armory soon.

Our farmers are squeezing out a considerable amount of cider from their surplus apples.

Who is to have charge of our school this winter? A row occurred in Pine's house a few days since which resulted, as is usual in such affairs, in blood and sore heads.

Yours, CHAS. G. GRAY.
