A Cockney Wail.

The great Pacific journey I have done,
In many a town and tent I've found a lodgment.
I think I've traveled to the setting sun,
And very nearly reached the day of judgment!
Like Launcelot, in the quest of Holy Grail,
From Western Borsheba to Yankee Dan.
I've been a seeker of "a really full"
To find the genuine type American.

Where is this object of my youthful wonder,
Who met me in the pages of Sam Slick?
Who spoke every sentence with its thunder!
And whittled always on a bit of stick?
The mean the crowd of friends around me thickens,
The less my chance to meet him seems to be.
Why did he freely show himself to Dickens?
To Dixon, Sala, Trollope, not to me?

No one accosts me with the words, Wa'al, stranger!
Or, I reckon, sir, or shouts Old hoss!
No grim six-shooter threatens me with danger
If I don't "quickly pass the butter, boss."
Round friendly boards no cock-tail ever passes,
No brandy smash my morning hour beats,
And petticoats are worn by all the lasses,
And the gals don't wear pantalettes!

The ladies, when you offer chicken-salad,
Don't say, "'Tis pretty crowded now, I guess;"
They don't sing Mrs. Barney Williams's ballad
Of "Hobbing Round," nor add Sir-ree to Yes.
I, too, have eat the very other fellow,
In many a railway, omnibus, street-car;
No girl I've spoken to with a fierce umbrella,
And said, "You girl—I mean to sit right thar!"

Gone are the Yankees of my early reading!
Fled the Yankee-land of eager quest!
I meet with culture, courtesy, good-breeding,
Art, letters, men, and women of the best.
Oh! fellow-Britons, all my hopes are undone,
The coward of a disappointed man!
Don't come out here, but stay at home in London,
And look in books the true American!

USEFUL AND SUGGESTIVE.

Heat of Winter Rooms.

The investment of fifty or seventy-five cents in a thermometer will make paying returns in health before spring. The great tendency in winter is keeping rooms too warm. The foundation of pneumonia, pleurisy, pulmonary consumption is frequently laid in over-heated, ill-ventilated apartments. The inmates become accustomed to breathing foul, close air, the system is toned down and relaxed, and a slight exposure to cold and wet results in serious illness. Some years since we called one winter evening on a friend whom we found in a cosy sitting-room, with a large cast-iron stove, a low ceiling, and the heat raging among the eighties. She was suffering from a severe cold, but could give no account of how she took it. A month later she was prostrated with pneumonia, and she and her sister died within a week of each other, and were buried in the same grave. The intelligent use of the thermometer would doubtless have saved both of those valuable lives. The mercury in the tube should never be permitted to stand above seventy. If that temperature is not sufficient to give warmth, it is an indication that the person does not take sufficient exercise, and the cure for it is more miles and more flannel.—In the coldest weather, when the ground is like stone under the feet, and there is no drip from the eaves when snow lies on the roof, rooms should be ventilated. Pure air should be admitted through open doors and windows so that the oxygen consumed by flame and respiration may be replaced, and the effete and poisonous matters thrown off by the body thoroughly driven off. As one of our best writers on household science remarks, "ventilation is a question of dollars and cents." But how much wiser he is who chooses to pay a larger coal bill and enjoy fresh air in his winter sitting-room than he who keeps everything shut up that heat may not be lost, and has a long doctor's bill to settle in the spring, and may-hap a grave to cut through the frozen turf!—*N. Y. Tribune.*

WINTER LAYING.—To insure a supply of fresh laid eggs through the winter months, a few things are indispensable.

1st. A good stock of fowls, and for want of time to discuss the subject more fully, we name the Brama and its grades as an unexceptional breed. There may be a better, but we are not aware of the fact.

2nd. An abundant supply of suitable food, of which there is nothing better as a basis than Indian corn, ground or unground, cooked or uncooked. Lunches which include portions of animal food are desirable, as are also cooked vegetables, and in general all scraps which fall from the table.—Also clean water within reach at all times.

3d. A comfortable warm nesting and roosting place, from which a run of size sufficient to assure exercise, and some variety of ground for scratching and other purposes in pleasant weather. This run, should be supplied with plenty of fine gravel, and sand and particles of lime, and be always accessible. Its size should be proportioned to the number of fowls kept.

4th. All parts of the premises devoted to fowls should be kept entirely free from vermin; and this may be readily and certainly accomplished by the timely use of lime wash and carbolic acid.

There is little else required which reasonable attention and the slightest exertion of common sense on the part of the "hen-granny" will not supply as required from time to time.

ALWAYS NEAT.—Some folks are very charming at evening parties, but surprise them in the morning when not looking for company, and the enchantment is gone.—There is good sense in the following advice to young ladies:

"Your every day toilet is part of your character. A girl who looks like a 'fury' or a 'sloven' in the morning, is not to be trusted, however finely she may look in the evening. No matter how humble your room may be, there are things it should contain—a mirror, washstand, soap, towel, comb, hair brush, nail brush and tooth brush. These are just as essential as your breakfast, before which you should make good use of them. Parents who fail to provide most of their children with such appliances, not only make a great mistake, but commit a sin of omission.

"Look tidy in the morning, and after dinner work is over improve your toilet. Make it a rule of your daily life to 'dress up' for the afternoon. Your dress may not need be any better than calico, but with a ribbon, or some bit of ornament, you can have an air of self-respect and satisfaction that invariably comes with being well dressed.

"A girl with sensibilities cannot help feeling embarrassed and awkward in a ragged and dirty dress, with her hair unkempt, should a stranger or neighbor come in.—Moreover your self-respect should demand the decent appareling of your body. You should make it a point to look as well as you can, even if you know nobody will see you but yourself."

A GOOD WAY TO KEEP GRAPES.—The best manner of keeping grapes fresh for winter use is that method pursued in Spain, namely to pack the entire clusters in thick unpounded stone-ware jars, laying dry, fresh hard-wood saw-dust between them so thickly as to fill up all interstices; then to place the jars in a cool and even atmosphere, excluding all light. This method is more laborious, but better than the practice of the Italian and French, which merely consists in hanging the grapes in a dark room, subject to a slight current of heated air. Thus the grapes are partially dried, and though sweetened by the process, lose their freshness and part of their fine flavor.

PADS BENEATH HORSE-COLLARS.—The common practice of using pads or sheepskin under a horse's collar is objectionable, especially in warm weather, because it accumulates heat and makes the breast tender. A better way is to take a piece of thick and smooth leather, cut it out just the size of the collar, or a little wider, and let it lie flat on the neck and shoulders. It will be smooth, while the collar itself moves about, and chafing will thus be prevented. It is also well to wash the breast of a working horse every night with clean water.

RAISE YOUR OWN GARDEN-SEEDS.—No gardener is pardonable for the want of good seed, as he may have it by the exercise of sufficient care in selection and saving.—Saving seed from the remnants, after using all the best, is not a reasonable way of improving or even retaining present qualities. A certain number of the most promising plants should be selected for producing seed, and then allow those plants to perfect only a portion of the seed started thereon. It is not too late to save many kinds of seeds the present season.

STICK TO THE COUNTRY.—A young laborer in the country, working at $1 per day and board, is proportionately better off and more independent than a clerk in a city on $700 a year, who has to expend $600 for a living. Therefore, we would advise the farmers' sons to remain in the country, and learn to cultivate the soil in the improved manner, and they will both secure wealth and happiness. The city is full of young men and boys who are working for wages scarcely sufficient to pay for poor board. They are not wanted in the city; but they can do well in the country if they will.

The Marquis and Marchioness of Bute will vis it the United States next season.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** presents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are a harsh or drastic in effect, but such is not at all the case. By different active medicinal principles of which they are composed being so harmonized and modified, each one of the three acts to produce a **most searching and thorough, yet gently and kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without inconvenience to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about the stomach, Rush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair them; their sugar-coating and being enclosed in glass bottles preserve their virtues unimpaired for any length of time. In any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a **Laxative, Alterative or Purgative** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a Vial.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by return mail from

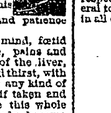
Invalids Don't Despair.



Thousands have found relief, and thousands will turn to this medicine, after exhausting their purses and patience in search of health.

Giddiness of the head, dullness of the mind, fœtid breath, coated tongue, loss of appetite, pains and weakness in the stomach, enlargement of the liver, yellowness of the skin, constant fever and thirst, with a total disrelish for business, pleasure, or any kind of employment. FAHRNEY'S PANACEA, if taken and persevered in for a few days, will remove this whole class of symptoms. The fluids of the body become pure, the mind clear, the stomach strengthened, the tongue clean, the appetite improved, and the whole system so benefitted that disease, in bad weather, is less liable to afflict you.

DR. P. FAHRNEY'S

Trade Mark

Celebrated Blood Cleanser or Panacea.

As a medicine for children, the panacea is, in every way, calculated to take the place of the endless variety of drugs which are annually sold for that purpose, and which are often very injurious. A medicine which possesses the qualities of a cathartic as well as a mild alterative, and which is capable of arresting disease without the least injury to the child, is of incalculable value to every mother. As a cathartic it is very effective, yet it does not, if given in proper quantities, cause nausea or distress in the stomach or bowels.—It is very pleasant to the taste, which is a very important feature as a medicine for children, as a *preventive* of disease it is unprecedented, as it acts directly upon the digestive organs and the blood. In all scrofulous diseases it is the most effective medicine ever offered to the public, and if given regularly and perseveringly those eruptive diseases so common to children may be entirely eradicated.

Prepared by P. Fahrney's Bros & Co., Waynesboro, Pennsylvania, and Dr. P. FAHRNEY, North Dearborn street, Chicago. Price $1 25 per bottle, for sale by wholesale and retail dealers, and by Hastings & Coles, Wellsboro, Pa.

VINEGAR BITTERS

VEGETABLE FAMILY MEDICINE

PURELY VEGETABLE

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.
