OUR PUBLIC SCHOOL .- Some of the School Directors and several other gentlemen of the rillage spent a portion of the time last week. in visiting the different departments of our Graded School and listening to the regular recitations of the several classes. They were highly pleased by the flourishing condition of the whole school as shown by the number of students present in all the rooms and by the teachers' rolls. It was evident that the institution as a whole is well organized, and is in a fair state of discipline. All connected with it, either as instructors or scholars, seemed intent on the work in hand and honestly endeavoring to improve their opportu-

nities to the utmost. There was some complaint on all hands that those who are really most interested in the prosperity of the school—the parents and guardians of the students in attendance-do not oftener manifest their interest by visiting it in its every day working hours. We believe the complaint well-founded, and we Frederick Dodglass lectures at Tioga quest Monday evening; the management of the school state of the school state of the school state of the school make it what is should be contained as Posts Office has been established at Erwin, Steuben country, with Mr. E. of the school would find much to commend, he would perhaps find some things to criticise and to regret in its management. One thing which he would regret would undoughted Creek and Lafayette, in the county of so large that recitations in concert are much resorted to. Perhaps, for the reason indicated, such a mode of reciting is a matter of necessity; but the evil effects of it must be apparent to the most casual observer. Another matter to be depreciated is the character of some of the modern text-books-

> But the school suffers under one disadvantage for which its patrons are most directly responsible. We refer to the uncomfortable. inwholesome, and every way disagreeable character of the school buildings. We wish that every father and mother in the village would visit them some of these cold winter days if for no other purpose than to become thoroughly impressed with the shabby provision made for their children. Cold, unventilated, dilapidated buildings, in which some men would think it hardly decent to

stable a good horse, seem to be thought good enough to hold their children during a great part of their waking hours. It is true the occupants of these cheerless rooms have done what they could to make them comfortable and attractive; but at the best they ape unworthy of the use to which they are devoted, and are a standing reproach to the village. o'clock, for discussion. Subject: Resolved While some men, with an ever present dread of increased taxation, may contend that they are good enough for a few years' more sorvice, we are sure that no citizen who has any care for the reputation of the village would ever think of taking a stranger into them if

he could avoid it. It was admitted on all hands last spring that it was high time Wellsboro had now school buildings; and if anybody doubted the fact then, let him go at once and take a look at the present shabby concerns. It is evident to the most timid tax-payer that "something must be done," and the mos tangible "something" that we have yet heard suggested is a prompt application to the Legislature at its coming session for authority to raise means to build a house which shall be of ample size, convenient

BECT. 1. Be it enacted, &c., That on the third Friday in N arch, 1873, in every city and county in this Commonwealth, and at the annual municipal elections every third year thereafter, in every such city and county, it shall be the duty of the inspectors and judges of elections in the cities and counties to receive tickets, either written or printed, from the legal voters of said cities and counties, labelled on the outceive tickets, either written or printed, from the legal voters of said cities and counties/labelled on the outside "license," and on the inside "tor license" or "against license," and to deposit said tickets in a box provided for that purpose by kaid inspectors and indges, as is required by law in the case of other tickets received shall be counted, and a return of the game made to the Clerk of the Court of Quarter Scasions of the Reace of the proper county; duly certified as is required by law; which certificate shall be laid before the Judges of the said Court at the first meeting of said Court after said election shall be held, and shall be filed with the other records of the said Court; and it shall be the duty of Mayors of cities and Sheriffs of counties, or of any other officer whose duty it may be to perform such service, to give due public notice of such special election above provided for three weeks previous to the time of holding the same, and also three weeks before such election every third year thereafter: Provided, That this act shall not be construed to repeal or affect any special law prohibiting the sale of intoxicating liquors, or prohibiting the granting of licenses: Provided, That when the mi-

When we remember that these books have so strong and so lasting an influence in forming the literary taste of the scholar, it is pitiful to see the weak, trivial and slip-shod nature of the selections which our school-publishers place before the children of the present day. We are satisfied that if all this modern trash could be thrown out of our schools and the old English Reader, antequated as it is, substituted as a text-book it would be a great gain to the cause of education. But this return to what is supposed to be the dark age of the common school is hardly necessary. The literature of the present generation abounds in specimens of oure English—models of style, ennobling in sentiment, and rich with the glowing imagery

Resolved, That this furnishes the friends of temperance, of law and order an opportunity of doing more good within the next month, than they have been able to do for years; that a failure in this work can only come by their lukewarmness and negligence; that if the flood-gates of intemperance are opened upon us for the next three years, opened upon us for the

We have received the following letter on this subject, to which we gladly give place

Mr. Editor; As the liquor question, in the shape of "license or no license" is coming up at our next local election, I hope the friends of temperance throughout the county will make a determined effort to rid themselves of the giant evil which curses the land. It is not often that the people get a SEASON TICKET, Reserved Seat, \$2.50, chance to give a direct vote on this question, | SINGLE TICKET, ...... and there is no doubt but that if the question is properly put before them they will give the death blow to the monster. Let the press and the pulpit awake to the duties and responsibilities that are upon them in this struggle, and we will sweep the vile traffic from xistence. Tioga county, being composed largely of a mining population, is particularly interested in the question. Let those of us who appreciate the situation, bestir ourselves, and see to it that the hardy miner and the toiling sons of labor shall have this temptation removed from their reach, and be left to lay up and enjoy the fruits of their industry in peace and security. There never was a more momentous period in the history of the cause,-the loathsome and shameless head of the monster never before reared itself so unblushingly, and a more holy cause

never called for the efforts of men. The Rev. J. N. Throat and Lungs.

It is gratifying to us to inform the public hat Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Pacific coest, and from thence to some of the first families of Burope, not through the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes,

Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood. &Third. It is free from squills, lobelis, ipeeso and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach. acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects. it has gained a reputation which it must hold above
