OR. SACE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and perfectly applied to all parts of the affected nased passages, and the chambers or cavities communicating therewith, in which apresented ulcers frequently exist, and from which the catarrhal discharge generally ricceeds. The want of success in treating catarrh beretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of efecting cares is entirely overcome by the invention of the Douche. In using this instrument, the field is caried by its own weight ine southing fording or pumping being required, up one neatril in a full goutly flowing stram to the highest portion of the nasal passages, passes into and thoroughly deanness all the tubers and chambers counceded therewith, and flows out of the opposite nostril. Thousands have found relief,
and thousands will turn to this medicine, after exhausting their purses and patience in search of health. Olddiness of the head, duliness of the mind, fortid Oldfiness of the head, dullness of the mind, foild breath, coated tongue, loss of appetite, pains and weakness in the stomach, enlargement of the liver, yellowness of the skin, constant fever and thirst, with a total disrelish for business, pleasure, or any kind of employment. FAHRNEY'S PANACEA, if taken and persevered in for a few days, will remove this whole class of symptoms. The fluids of the body become pure, the mind clear, the stomach strengthqued, the tongue clean, the appetite improved, and the whole system so benefited that disease, in bad weather, is less liable to afflict you.

g DR. P. FAHRNEY'S Celebrated Blood Cleanser or Panacea.

As a medicine for children, the panacea is, in every way, calculated to take the place of the endless variety of drugs which are annually sold for that purpose, and which are often very injurious. A medicine which possesses the qualities of a cathartic as well as a mild alterative, and which is capable of arresting disease without the least injury to the child, is of incalculable value to every mother. As a cathartic it is very effective, yet it does not, if given in proper quantities, cause muses or distress in the stomach or bowels.—It is very pleasant to the taste, which is a very important feature as a medicine for children. As a presenting of disease it is unprecodented, as it acts directly upon the digestive organs and the blood. In all scrofulculous diseases it is the most effective medicine over offered to the public, and it given regularly and perseveringly those cruptive diseases, so common to children may be entirely oradicated.

Prepared by P. Fahrney's Bros. & Co., Waynesboro, Pennsylvania, and Dr. P. FAHHNEY, North Dearborn street, Chicago. Price \$1.25 per testall dealers, and by Hastings & Coles, Welleboro, Pa.

There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system, Their Diuretic properties act on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

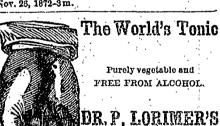

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus forearmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.
