PELLETS. Urgative

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo

The novelty of modern Medical, Chemical and Pharlancoutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fasticious tastes. Each little Purgative Fellett preents, in a most concentrated form, as much catharne power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most scarce hing and thorough, yet gently and kindly operating exthairtie.

Fierco's Pleasant Purgative Pellets. In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that their action upon the animal oconomy is universal, not a gland or tissue escaping their sunative imprehs. Age does not impair them: their sugar-coating and being enclosed in glass bottles preserve their virtues unimpaired for any longth of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a Laxative, Alterniive or Purgative is indicated, these little Pollets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a bottle.

influence that a marked improvement is soon perceptible.

For Influminatory and Chronic Rheurinatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Block, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion of Inflammation of the Livet and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-They are sold by all enterprising Druggists at 25 cents a bottle. Thousands have found relief, and thousands will turn to this medicine, after exhausting their purses and patience in search of health!

Giddiness of the head, duliness of the mind, fortid reath, coated tongue, loss of appetite, pains and reakness in the stomach, enlargement of the liver, rellowness of the skin, constant lever and thirst, with

yellowness of the skin, constant sever and thirst, with a total disrelish for business, pleasure, or any kind of employment. FAHRNEY'S PANACEA, if taken and persevered in for a few days, will remove this whole class of symptoms. The fluids of the body become pure, the mind clear, the stornach strengthened, the tongue clean, the appetite improved, and the whole system so benefitted that disease, in bed weather, is less liable to afflict you. DR. P. FAHRNEY'S Celebrated Blood Cleansor or Panacea.

Celebrated Blood Cicancor or Panacea.

As a medicine for children, the panacea is, in every way, calculated to take the place of the endless variety of drugs which are annually sold for that purpose, and which are often very injurious. A medicine which possesses the qualities of a cathertic as well as a mild alterative, and which is capable of arresting disease without the least injury to the child, is of incalculable value to every mother. As a cathartic it is very effective, yet it does not, if given in proper quantities, cause nausea or distress in the stounch or bowels— It is very pleasant to the taxte, which is a very important feature as a medicine for children "As a preventive of disease it is unprecedented, as it acts directly upon the digestive organs and the blood. In all scrofulous diseases it is the most effective medicine ever offered to the public, and if given regularly and perseveringly those cruptive diseases so common to children may be entirely eradicated.

No system of Medicine, no vermifuges, no anthelminities, will free the system from worms like these Biters. Mechanical Diseases. Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels! To guard against this take a dose of Walker's Vinngar Bitters once or twice a week, as a Preventive.

Billious, Remittent, and Bitters of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Ilinois, Tennesse, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Rosanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dn. J. Walkar's Vinggar Bitters, as they will speedily remove the dark-colored viscid matter with which the howels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the liver, and generally restoring the healthy functions of the liver, and generally restoring the healthy functions of the digestive organs.
