A WILLHELM APPEAL. -As a part of the political history of the county, we print the following appeal for Wilhelm, which was put in circulation last week:

TO THE REPUBLICANS OF TIODA COUNTY.

"We the indersigned Republicans of Tioga county, call the attention of the voters of the county to the importance of electing a man to fill the office of Sheriff of temperate habits, good thorals and ability, and we recommend J. W. Wilhellm, of Mansfield, as such a man. We are opposed to any set of men. or any Ring, controlling the election of public men for their own private purposes; and we recommend that all good citizens should not be controlled by selfish polificians.

O. A. Benedict, John Lewis, D. S. Dawey, H. H. Nickersou, S. Sweet, Aston Dodge, Assa'A. Bullock, A. E. Rowley, W. K. Benjamin, Oren Shaw, R. Lamkin, Sanford Delvey, P. V. Clark, Mart King, (Lib.) R. E. Brown.

S. S. Gillett, W. H. Boll.
A. Davis

H. M. Backer, P. W. Doud, J. W. Austin, In view of the fact that the Republican candidate was nominated by the direct vote of the Republicans of the county under the Crawford County System, and that the Democratic candidate was named by a little cotoric of politicians who represented nobody but themselves and who didn't even claim one tittle of delegated authority, the atter lack of sense in this appeal will be apparent to every voter. The only "set of meth" or "ring" that has controlled the Republican nomination for Sheriff is made up of the people themselves, and the "selfish politicians" who will control to-day's election compose the whole Republican party of Tloga county.—And yet this silly gabble about "rings" and "selfish politicians" is quite as sensible as such talk ever can be under our present system of the selfish politicians of coal are annually brought from this territory into Corning, Elmira and Waverly. In two years more, this amount will be increased by fifty per cent, and even at this rate the coal beds will scarcely be exhausted in six hundred years. The statistical report from the several charges will show that God has been with us and that souls have been saved. The kingdom of God comes with and without observation on Troy District.

"The success of our Methodist in this secterie of politicians who represented nobody talk ever can be under our present system of by such action is the whole Republican party. We have full faith that that "ring" will

horoughly indorse its own nominations by triumphantly electing all its own candidates. We believe the whole of the above appeal s as baseless and deceptive in its insinuaions as every man in the county knows the latter part of it to be; and we here put it on record not because we think it of any importance, but as a curious scrap of local political

GOOD TEMPLAR CONVENTION .- The deleg gates of the respective lodges of the I.O. of G. T. of Tioga county met in quarterly convention at Knoxville, Oct. 7th, 1873. The meeting was called to order at 2 p. m. by W. Albany... C. T., Jno. Brown, of Wellsboro. After the usual proliminary exercises, Bros.C. L. Peck, Rutland tee on credentials, reported the following persons entitled to a voice in the convention :

Reports as to the condition and workings of the respective ladges were then received Most of the reports were very favorable and gave much encouragement to those present-The state of the county under the Local Option System was reviewed and various suggestions made for devising plans for the nore stringent enforcement of the laws against the traffic in intoxicating, liquors.-This took considerable time, the question being a general one, affecting a large communido well to remember the date, as they will ty the different sections of which present log only be on exhibition at that time. An hour cal advantages and disadvantages in every variety of phase and meaning. Attempts were made to view the subject in all its bearngs, and the general conclusion was that Local Option, in spirit and in issue, has been conducive to the elevation of the social standing of our county; that where certain secions-(reference was made to the mining districts in particular)—have not been materially benefited they are exceptions rather

than the rule, and the general temperance tone of the county has been strengthened. In the evening a public session was held in the Congregational church. A large audience assembled, and during the evening much enthusiasm was manifested. The address of welcome by Rev. W. H. Sigston, of Wide Awake Lodge, Knoxville, was replete with cordial feeling and noble sentiment .-It was ably responded to by Bro. Dennis O'Connell, of Fall Brook. Rev. N. L. Reynolds, of Wellsboro, then spoke in his usually interesting way. He said that fear, faultfinders, and a want of funds are the greatest obstacles to the temperance reform. Fear on the part of the individual lest personal inter-

ests should suffer, seconded by the recognized dampening influence of habitual faultfinders, to which must be added a want of the necessary funds, are great obstructions to temperance ardor and obstacles in the way of successful prosecution. Impromtu specches were made by Bros. Peck, Close, Alba, Short, Edwards and others. The Chairman of the meeting, Bro. Brainard, of Spring Green, Wis., read a very interesting account of the system of adulterating liquors, electing much laughter at the ingredients employed. These various exercises of the evening were interspersed by some very fine music

ance choir. The meeting of the following morning was occupied in somewhat the same manner as the preceding day. Bros. W. H. Sigster, N L. Reynolds and Dennis O'Connell, the committee on resolutions, presented the following which were unanimously adopted: Resolved, First, That we regard the traffic in intoxicating drinks as the greatest hinderance to the religi ous, social, and financial prosperity of the American

Fourth, That for the more effective execution of the law we need additional legislation to provide us with a State constabalary, and we also need temperance men in all of the offices of the Commonwealth. Fifth, That in the present state of the country v cannot as temperance men, under any ordinary cir-

cumstances, knowingly vote for any but temperance men; especially do we affirm this in reference to al township, borough and county officers. Sixth, That in order to prevent, if possible, the formation of a temperance political party, we will use and follow existing parties, so long as they can be made subservent to temperance interests; that if all parties offer us temperance men and principles, we will vote with either, as other juterests may dictate; that if only one shall thus offer, we will vote for temperance men and temperance principles irrespective

of party; that if neither party shall give us this op-

ity, then we will strive to organize an indepen

dent temperance party. the following paper which is of some local interest:

'Troy District is that part of the State of New York which is situated in Pennsylvania. Its northern boundary is nothing but a "State line" which, ignoring natural and social relations, runs across and over no matter what. And it is of the same consequence in the practical workings of church inputers as are parallels of latitude in agriculture.

'The southern line of the District no man will ever be troubled to find, whose eyes or legs have been called to survey it. It is one of the grand fences by which the God of nature has divided his fields and deparated his flocks. A long line of scalloped hills, rising into the proportions of a mountain range, gashed and gorged to suit the wildest freaks of the earthquake, parading its illimitable forests of hemlock against the sky, serves as effectually to debar social and business intercourse with what lies to the south of it as would a confusion of tongues.

"Bast and west also the District is similarly defined, for it extends from the great river Susquehanna over and up to the head waters of all streams—Potter county. So far as a community of life with that which surrounds it is concerned, three of its sides and practi-lies concerned, three of its sides are practi-lies wax, per ib.

On the north its happy gates cally shut. On the north its happy gates stand open night and day. "For a goodly number of years therefore, the territory embraced in Troy District has supplied its northern dependencies with water, lumber, coal and Methodist preachers. The Chemung would be like the Nile in the days of Moses but for its southern tributaries. Its richest flats have been shipped into New York on the flowly of the Tiers and

Those Republicans who oppose Republican candidates must remember that the only "ring" they can injure by such action is the whole Republican particularly. It began with the settlers, endured hardships, and performed labors, which if written up, would do honor to Methodist history.
