PEELING A VERY SMALL POTATO.-It is evident that the silly patent-outside apology for a newspaper with which the Democrats of this county, much to the chagrin of some of them, are at present afflicted lacks one quality which is quite essential to papers of that stamp ;--its memory is just a little too short. We have just had a laughable illustration of this fact, which we presume our readers will enjoy as much as we do.

It will be remembered that a few weeks ago that wonderful exponent of "correct and fairly printed English" contained an editori-
