The first public performance of an oratorio in this country was at King's chapel, Boston, October 27th, 1789, on the occasion of the visit of Washington to Boston. The Grand Opera House and several of the leading theaters of New York have made a material reduction in price, and report an increase of revenue as the result. The most fortunate among the exhibitors at Vienna have been those from Japan, China and Turkey, they having sold nearly, everything they brought to Vienna. Few people are aware that Boston is second only to Chicago in the amount of pork an-nually packed. The Cunard steamers carry

An editor says the only reason he knows of why his house was not blown away the other day, during a severe gale, was because there was a heavy mortgage upon it. Few housekeepers know that the expressed juice of garlic is an everlasting cement for broken china, glassware, and the like, leav-ing no mark of fructure it neatly done. In spite of the panic, the number of mercantile failures in the country from the 1st of September to the 22d of October has been smaller this year than in the corresponding period of 1872. This shows how strong our business men generally are.

The students of Brown University, Rhode Island, have of their own sense of right and propriety abolished the senseless and barbarous custom of hazing and abrogated the silly custom of prescribing what style of hats and cuts of coats the students shall wear. cuts of coats the students shall wear.

A wealthy, but miserly old man dining in the city one day with his son at a restaurant whispered in his ear: "Tom, you must eat for to-day and to-morrow." "Oh yes," replied the half-starved lad, "but I ha nt eaten for yesterday and the day before yet, father." The people of Chicago are getting more from their great lake tunnel than anticipated. It not only supplies them with water, but the papers say that people "spoon fish out of their coffee and catch small eels in their mustaches as they quaff the sparkling water"

The taxpaying women of Australia are to be allowed to vote. This is extending to laws the general reversal at the antipodes of northern hemisphere conditions. A people whose Christmas comes at midsummer, and who shiver in July, may be supposed to be radical and eccentric in all things.

A Beston gentleman, who could not waltz offered a young lady \$100 if she would let him hug her as much as the man did who had just waltzed with her. The conundrum over which Vicksburg is now agitated is to ascertain precisely how much more dangerous than a burglar is the average Vicksburg policeman. One of the force, in attempting to capture one of these gentry, last week, shot a horse and two citizens, but didn't catch or injure the thiof.

The veritable Caldwell who created so much noise in Congress last session, is a candidate for the Kansas Legislature. Mr. Caldwell is a queer compound of humanity. If he ever feit the slightest tinge of humiliation over the unmerciful exposure last winter, her has concealed it from the most intimate activations.

A young lady who had recently returned from Long Branch, where she had been for her health, was mot by a friend, who, after the usual greeting, said; "I hope your trip has done you good, I must say you are not looking amiss after it." A curious case of semnambulism was that of an English soldier, who while on guard during the night at Woolwich arsenal, recently, fell asleep at his post and started off across the country, trailing his rifle in true military fashiou, and only ended his campaign, after a march of four miles, by running against a policeman who arrested him as a deserter.

A number of our native artists endowed with rare gifts have gone to Europe to reside permanently. Among the recent departures are Bradford and Perry. Those men of real genius leave their own land forever, not that they love the Old World more, but because their talents are better appreciated and their work receives a higher remuneration abroad.

A very remarkable Russian has arrived at Paris, brought by the director of a theater at St. Petersburg. His head is that of a Scotch terrier, with a regular snout, long silky hair, and pendant ears. As to the rest of the body it is that of an ordinary man. The voice is perfectly human; he converses well, and is not devoid of intelligence. The monster is married and has a child, which he has brought with him, afflicted with the same deformity, though in a rather less marked manner. The face is more natural, the hair is county and the ears are shorter than those is scanty and the ears are shorter than those of the inther. In the old coaching days an honest Jack tar would be coached up to town from Deptford, but thought it a very unbecoming thing in him, who had just been paid off and had plenty of money, not to have a whole coach to himself; so he took all the seats, and seated himself is the same time upon the top. The coach was about to set off, when a gentleman appeared who was holding an altercation with the coachman about the absurdity of his insisting that the seats were all taken as were not a person was in the coach. Jack, overhearing high words, thought, as he had paid full freight, that he had a right to interfere, and inquired what was the matter, when, being told that the gentleman was much disappointed at not getting a sent, he replied, "You lubbor, stow him away in the hold; but I'll be blowed to Davy Jones if he cames on deck!"
