It is difficult to ascertain from the Protest Fort Wayne Presbytery, Indiana, and has itself, precisely what our brethren object to. But went the confidence of our churches in the Board f Missions from being shaken; and as the Committee judge from the speeches of the protestants, that it was principally to the third resolution they object, we suppose the language protested against was that in which the Presbytery, in view of the "agitation" of this subject, "express the hope that the Board will reconsider the matter, (viz., the Associate Secretaryship,) and so decide

Against this, the protestants urge four reasons The first and fourth are one and the same, viz., that they (the protestants,) "are opposed to the agitation of the subject," and think it will "have injury upon the contributions of the churches." To this it is only necessary to reply. (a.) It would have been well to have thought of the evil they think the "agitation of the subject" will do, at an earlier period in the history of this business, and before the most acrimonious articles

upon the subject appeared in the public papers. (b.) The object of the Presbytery was, by a calm, kind, and wise deliverance, to allay the agitation which the brethren so much dread, and which the majority of Presbytery certainly did neither com mence nor continue. (c.) Complaint of agitation comes with a bad grace, from those who are unwilling to submit to a majority of nearly five to of Paw Creek, N. C., were dissolved by one, and who yet blame their brethren for desiring by the casting vote of their Chairman. Brethren who continue agitation by protests, ought not to complain of agitation.

The second reason for protesting, is, that the rotestants "are not satisfied that the Associate Secretaryship can be dispensed with, without disadvantage to the cause." The Presbytery has not asserted that it can; they only suggest that, as there is great diversity of opinion, and that as the Executive Committee, who might be presumed to know best, think it might, it would be well for the Board to reconsider, with a view to the satisfaction of the public mind. The third reason is, that the protestants " can.

ot subscribe" to the notion that the Executive Committee of the Board, who are every week in the office, can know the necessities of the service, nfantry, had arrived at Camp Floyd. members of the Board. Well, that is a matter of

ppinion, and the Presbytery is willing that their protesting brethren shall enjoy the utmost free dom of opinion ; but as it constitutes no argument, it needs no answer.

In no case need it be expected that an article truly good, can be had at the rate of one quite nferior; but in many branches of business, an article possessing intrinsic worth, is sold at such high rates as to place it beyond the reach of the mass. [ADVERTISEMENT.] No Family Should Be Without Them.

We speak of M'Lane's Liver Pills, prepared by Fleming Bros., Pittsburgh, Pa., which have become an indispensable Family Medicine. The frightful symptoms which arise from a diseased Liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepatic derangement-and for these Dr. M'Lane's Pills are a sovereign remedy. They have never

been known to fail, and they should be kept at all times by families. DIRECTIONS .- Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more. A slight breakfast should invariably

follow their use. The Liver Pills may also be used where purging is simply necessary. As an anti-bilious purgative, they are inferior to none. And in doses

of two or three, they give astonishing relief to sick headache; also in slight derangements of the stomach. Purchasers will be careful to ask for DR. M' LANE'S CELEBRATED VERMIFUGE, manu-

factured by FLE VING BROS. of PITTSBURGH. PA. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, all respectable drug stores. None genuine without

Foreign Intelligence.

There have been several foreign arrivals, sinc our last. The latest dates are to Oct. 16th.

There is no very exciting news. England The Bank of England's bullion decreased £29, 000 during the week. Later advices from Lady Franklin's Arctic

yacht, Fox, have been received, which mention that the expedition has safely crossed the middle ice of Baffin's Sea, and was in a fair way of accomplishing the object of the enterprise. The London *Times* says that all appearances in-dicate that the present Atlantic cable must be

given up, and hopes that the experience gained will be used to insure that success which is finally

in something like contested battles, that in India Christian infidence over her sons, that they in something like contested battles, that in india is over already. In no quarter does there seem to be any real fighting. The campaigning has degenerated into a mere chase a hunting of the rebel bands by little detachments not a fourth part of their strength. It was predicted that, when the native armies were beaten in the field, when the native armies were beaten in the field, we chend have a content against a guerilla warwe should have to contend against a guerilla war-fare ; but it would be an insult to the Spanish name and language to apply the term to the dastardly bands, which are now flying before our columns, burning and plundering defenceless vil-lages on their way. It is said that not a force exists in India which would dare to resist in the

field a strong party of our police, and we can well believe it. The enemy, however, finds safety and the power of farther annoying us in his speed of foot. He can march forty miles a day, while our troops can hardily march a third of the distance. This kind of racing campaign is consequently likely to last

until Lord Clyde is able to take the field in force toward the end of the present month, and by simultaneous movements from different quarters lestroy the swarms which still continue to give is trouble. By the 25th of October, says our Calcutta cor

respondent, an army of twenty five thousand Eu-ropeans and ten thousand natives, chiefly cavalry, will be collected at Cawnpore. Then will com mence the final campaign, not for vanquishing the rebels, but for surrounding, catching, and finally destroying them. We may expect, there-fore, that the disturbed districts, which are now little more than a part of Oude and Rohilcund, will be brought fully under the civil authority, also his celebrated Liver Pills, can now be had at the power of the independent. fort bolding, all respectable drug stores. Later. The mutiny at Mooltan occurred on the 31st of

August. Their almost total extermination fol-lowed. The fugitive rebels from Pource were defeated with great slaughter on the 5th of Sep-tember. Four of the emissaries of Nena Sabib had been captured at Gwalior, while attempting to corrupt the native troops. They were executed. persed in all directions.
