A Great Blessing to the Afflicted. Dr. M'Lane, the inventer of the celebrated Liver Pills, prepared by Fleming Bros., Pittsburgh, Pa., used these pills for several years in his practice, before he could be induced to offer them to the public in such a manner as to make them known throughout the country. This learned physician felt the same repugnance that all high minded men of science feel in entering the lists against those unscrupulous empirics who obtrude their useless nostrums upon the public, and rely upon a system of puffing to sustain them. Convinced, however, of the real value of the Liver Pills, and influenced by the plain dictates of duty, the Doctor finally authorized Flaming Bros., of Pittsburgh, Pa., who are now the sole proprietors, to manufacture and place them before the public. This great medicine has not disappointed the expectations of his friends, the medical faculty, at whose instance he was induced to place them before the public in their present popular form. Form every quarter do we hear the most gratifying accounts of their wonderful curative effects-the East an i the West, the North and the South, are alike laden with "tidings of great joy "from the afflicted. These wonderful Pills have completely conquered that great scourge of America, the Liver Complaint. Purchasers will be careful to ask for DR. M'-LANE'S CELEBRATED LIVER PILLS, manuactured by FLEMING BROS. of PITTSBURGE, PA. There are other Pills purporting to be Liver Pills, now before the public. WHAT THE QUARTERLY REVIEWS

Theology of Christian Experience, Alexander's (Dr. Jas. W.) Discourses,

extra, \$5.00.

The "Methodist Quarterly Review" says:—Richly evangolical in feeling, embodying massy thought expressed in clear, chaste, forcible style, they may be freely endorsed as able specimens of the American pulpit.

The "American Theological Review" says:—They are admirable specimens of elevating and useful discourses. The more doctrinal themes are handled in a practical way—the most practical subjects are tall of doctrinal vigor—they are adapted not only to seed the Church of God, but to arrest the attention of those who are still strangers to the covenant of promise.

The "Preshverian Quarterly" says:—Dr. Alexander is

time, all is sumceently pinin and clear.

The "Southern Presbyterian Review" says:—In Dr.
Alexander's Sermons there are beauties of style, terseness. and directness of expression, appropriate imagery, and depth of feeling, which make them attractive. The "New Englander" says:—The Sermons are all earnest, plain, dirnifed presentations of Gospel truths, and are written with unusual good taste and literary ability. The "North American Review" says :- They are evan

theory, in its essential teatures, and lucidues with which it is here developed.

The "Princeton Review" says:—It is quite the mostable and valuable of Dr. Bushnell's works on Theology. It of course bears the imprint of the author's genius, in its fresh and brilliant diction, its affinent originality and bewishing felicity of illustration, its episodic passages of marveious beauty and eloquence.

The "New Englander" says:—To many who care little for the name, have sighed for the reality of an established fath, it will prove a benison for which their hearts will ever bless the writer. * * The delineation of the character of Jesus is, in our view the finest upon its theme in English Literature. We do not hesitate to pronounce it a magnificent book, a truly Christian book, and one presiminently adapted to the times in which we live.

The "American Theological Review" asys:—We are prepared to, say that we have never followed so close and so fortble an argument, that was at the same time so readable. It is one of the freshest books of the season, or of any season.

The "Southern Presbyterian Review" says:—We feel sure that this book will, with the blessing of God, render very great service to the Church, by ministering to the edification of her members, both old and young. We strongly recommend Dr. Armstrong's book to our brethren in the ministry.

The "Universalist Quarterly" says:—The book, as a whole, is of unusual merit; it is admirably erranged, terrely written, and well calculated to suggest profitable matter for thought. matter for thought.

The "American Theological Review" says.—The whole aim of the work is eminently practical, and its spirit is reversential and devont. The conception of the book is a good one, and the execution is such as to commend it to all who hold the common faith of the Church of God.

The "Methodist Review" says.—The plan of the work is developed by the author, with genial feeling, great clearness, and no little interest of style. It is well calculated to edify the Church, and to make Christians of Infidels.
