That is, in pleasant weather, And he and I beneath the trees ...Would pick the fruit together. There was an older, huge pear tree, That in a corner grew,
And oh! the pears were soft and sweet,

And very mellow too. The pears were sweet, and ripe, and red, And large as pears could be, And oh! what feastings I have had Beneath that old pear tree.

One day my father to me said-(I never shall forget it)
"Now, find the finest pear you can And in your pocket put it. And when you get within the house, And find your sister there, You claim of her a sister's kiss, And give her the sweet-pear.' I climb'd the tree, in haste and glee, The russet pride to find. And many a pear I gather'd there, But threw them all behind. The fairest one I meant to have,

Just then I spied the wish'd for prize, That far above me grew, And the above me grew,
Says I, "the very pear I want,
My boy I come for you."
So quickly up the branch I sprang,
But oh! I had a fall,
With aching limbs beneath the tree
I lest the year and all

If it could there be found,

And flung all to the ground,

And so I plucked unsatisfied.

I lost the pear and all. ; My father ran to where I lay, And sooth'd my aching head And as he bore me home away. He mildly to me said-" My son, as through this life you go, Don't try to climb too high, The lofty fruits you'll often find Are worse than those close by." So girls take heed and don't forenke The humble for the lofty pear,

Good men are found in lowly walks, You'll often find the best are there. But if you climb for lofty fruits, Be sure you'll have a fall, And gaining nought but ache and wounds, You'll lose your MAN and-ALL. Boston, February, 1851,

#### and the same of th The Improved Clinton Air-Tight

THE subscriber would respectfully inform the farmers and housekeepers of Tioga county, that he has the exclusive right to sell the above unrivalled and celebrated cook stove in this and the ad-

oining counties of Potter and McKean.

Eight hundred of the above Stoves have been sold during the past year in the counties of Bradford, Susquehanna and Wyoming, Pa., and all, without exception, have given the very best satisfaction.

The Improved Clinton Air-Tight Stove is beyond a question the most durable and the very best FARMER'S COOK STOVE in America. It is constructed without an inside plate, or an inside damper, and also without a fire-back? The Stove warms up quickly with as moderate an amount of fuel as is desirable; the fire chamber is commodious, and has an additional one for fine fuel and chips, for summer use. The oven is very large, and bakes in the greatest perfection; the working surface is ample, and it has an excellent broiling hearth without the annoyance of grates. In short, it possesses in an eminent degree, every necessary convenience, without departing from the simplicity in its construction and arrangements, that should be a striking characteristic of a Good Cook Stove; and which departure from simplicity is the almost uninvest feature of Lorders Stores. which departure from simplicity is the almost universal feature of Low Oven Stoves. Persons wishing to purchase a Good Cook Stove, should by all means examine the Clinton Air-Tight, before purchasing. The undersigned will furnish the farmers of Tioga county with the above celebrated stoves through his pedlars at their doors, or they can be had of the following nrmed gentlemen, who are my autho-
