

**The Cheap Postage Bill.**

The bill from the House of Representatives providing for a reduction of the rates of postage, has been so materially altered in the Senate, with regard to the rates of postage on letters and newspapers, that we have prepared a statement of the substance of those provisions as they now stand in the bill as amended by the Senate. With regard to letter postage, the Senate bill provides, that from and after June 30, 1851, in lieu of the rates of postage now established by law, there shall be charged the following rates, to wit: For every single letter in manuscript, or paper of any kind upon which information shall be asked, &c., conveyed in the mail, for any distance between places within the United States not exceeding 3,000 miles, three cents, when the postage shall have been prepaid; and for any distance exceeding 3,000 miles double these rates; for every such single letter, when conveyed wholly or in part by sea, and too far from a foreign country, for any distance over 2,500 miles, twenty cents; and for any distance under 2,500 miles, ten cents. A single letter is one not exceeding half an ounce; double and treble letters pay double and treble these rates.

The rates of postage on newspapers may be stated thus: All newspapers, not exceeding three ounces in weight, sent to actual subscribers from the office of publication, shall be charged as follows: Weekly papers, within the county where published, free; for any distance not exceeding fifty miles out of the county where published, five cents per quarter; exceeding fifty and not more than three hundred miles, ten cents per quarter; over three hundred and not exceeding one thousand miles, fifteen cents per quarter; over one thousand and not exceeding two thousand miles, twenty cents per quarter; over two thousand and not exceeding four thousand, twenty-five cents per quarter; and for any greater distance, thirty cents per quarter; semi-weekly papers to pay double, tri-weekly treble, and papers issued oftener than tri-weekly, five times these rates.

For any other book; paper, magazine, &c., not exceeding one ounce in weight, there shall be paid for a distance not exceeding 500 miles, one cent.

Over 500 and not exceeding 1,500 miles, 2 cents.  
" 1,500 " 2,500 " 3 "  
" 2,500 " 3,500 " 4 "  
" 3,500 " 4,500 " 5 "

For each additional ounce or fraction the rates are proportionably increased.

**Republ.****Danger to Farmers.**

The farmers of our country are, perhaps, not aware of the danger that is threatening their interests, through the Locofoco policy of legislation to the advancement of British interests and depression of our own. That party now in consonance with its Free Trade doctrines, is broaching the policy of reciprocity with the British provinces of Canada, allowing them to bring their wheat duty free into our ports, providing they give us the privilege of navigating the St. Lawrence. This may well alarm the farmers of the United States. In the last year, we imported near three millions of bushels of wheat from Canada, notwithstanding the present duty of 20 per cent; if that duty be taken off, it will naturally immeasurably increase the amount imported. The importation of wheat into our country, from Canada, shows an important fact, in relation to the foreign market for grain which was promised by Locofocoism. It proves that, notwithstanding the demand in our country is crippled by the Tariff of '46, which encourages foreign markets for this article at the expense of our own, there is still no better market in the world for grain than is found in the United States, and the anxiety evinced by the British to get the control of it, shows that they understand it. Now, in view of these facts, we think the farming portion of our country ought to wake up, and not allow their interests to be sacrificed for the benefit of commerce. The agricultural portion of our country have the numerical strength in their own hands, and can shape legislation to their own liking, if they choose to inform themselves on the subjects affecting their interests, and not allow themselves to be blinded by party bias. We call on them to reflect, and sustain the party whose policy sustains them.

**THE INCARNATED LIES OF COMMERCE.** In the preparation for markets, home and foreign, wholesale and retail, what a list of impositions, adulterations and frauds, under every letter of the alphabet, might be made out. It is hardly too much to say, that goods are incarnated lies. We that consume, are daily in the consumption of lies—we drink lying coffee, we eat lying food, we patch lying cloth with cheating thread, we perfume ourselves with lying essence, we wet our feet in lying boots, catch cold however, truly enough—are tormented with adulterated drugs, sometimes from ignorant prescribers, who lie in pretending to know what they are prescribing, or what they are prescribing for. It is the very business of one part of commerce to deal in appearances and not in realities, and the mind is trained to deception.

**Hunt's Merchants' Magazine.**

**WHAT IS MAN?**—Of the human frame, bones included, only about one-fourth is solid matter, chiefly carbon and nitrogen, the rest is water. If a man weighing 10 stone were squeezed out under a hydraulic press, seven and a half stone of water would run out, and two and a half stone of dry residue would remain. A man is, therefore, chemically speaking, 45 lbs. of carbon and nitrogen diffused through five parts of water.

Mrs. PARTINGTON is opposed to the Home Exemption law, because men, she says would stay away all night. "Bless her old heart!"

**REMOVED.**

**DAUGERREAN GALLERY.**  
MR. D. GARRISON would announce to the ladies and gentlemen of Wellsborough and vicinity, that he has removed to the second story of the residence of W. D. Bailey, on Wain street, near Main street, where he is prepared to take Likenesses in a superior manner and on short notice. Likenesses taken without regard to the weather.  
Having availed himself of the late London Process, with all other recent improvements in the art, he is enabled to ensure a Likeness unsurpassed for richness of tone, finish, and strength of expression, which so plainly distinguishes a good picture from the mere shadow, that are often thrust upon those who are not good judges.  
In no case will any charge be made if a perfect Likeness is not produced. Call and examine specimens, and you will be prepared to judge for yourselves.

**The Improved Clinton Air-Tight****COOK STOVE.**

THE subscriber would respectfully inform the farmers and housekeepers of Tioga county, that he has the exclusive right to sell the above unrivaled and celebrated cook stove in this and the adjoining counties of Potter and McKean.

Eight hundred of the above Stoves have been sold during the past year in the counties of Bradford, Susquehanna and Wyoming, Pa., and all, without exception, have given the very best satisfaction. The Improved Clinton Air-Tight Stove is beyond a question the most durable and the very best FARMER'S COOK STOVE in America. It is constructed without an inside plate, or an inside damper, and also without a fire back! The Stove warms up quickly with an moderate amount of fuel as is desirable; the fire chamber is commodious, and has an additional one for fine fuel and chips, for summer use. The oven is very large, and bakes in the greatest perfection; the working surface is ample, and it has an excellent broiling hearth without the annoyance of grates. In short, it possesses in an eminent degree, every necessary convenience, without departing from the simplicity in its construction and arrangements, that should be a striking characteristic of a Good Cook Stove; and to purchase a Good Cook Stove, should by all means examine the Clinton Air-Tight, before purchasing.

The undersigned will furnish the farmers of Tioga county with the above celebrated stoves through his pedlars at their doors, or they can be had of the following named gentlemen, who are my authorized agents for this county:

MR. CHAS. H. L. FORD, . . . Lawrenceville.  
MR. JOHN B. STEELE, . . . Tioga.  
MR. EDWIN DYER, . . . Covington.  
Messrs. C. & J. L. ROBINSON, . . . Wellsborough.  
No deviation in prices by Pedlars or Agents. Every Stove is warranted to operate as represented.

The above Stove is made at Athens, Bradford county, where communications addressed to the subscriber will reach him.  
Wellsborough, Jan. 2, 1851.

RAYMOND M. WELLES.
