Dear Agitator: - We have just passed through one of the severest winters ever before known in Kansas by "the oldest inhabitant." The Missouri was bridged over by ice and navigation suspended early in winter, much to the inconvenience of wood and produce venders, as the people of Atchison depend in the main on getting fuel and a great deal of produce from Buchanan county, Mo., opposite to this city. Notwithstanding the free bridge over this mighty river, most everything has been exorbitantly high and the demand has been fully high, and the demand has been fully equal to the supply. Wood has been selling readily for \$9 to \$12 per cord, apples for \$3 per bushel, potatoes \$1 25 and corn from 75c. to \$1 per bushel. Butter (fresh) has been ranging from 60 to 75c., lard 35 to 45c., and eggs from

The weather the past few days has been pleasant and delightful; nearly all the frost is out of the ground, the roads are fast drying up, and the farmers are making every preparation for putting in an early crop. Last year was an unusually wet season, though a pretty large crop of corn and potatoes was raised; but as one extreme generally follows another, many are calculating on a season other, many are calculating on a season equally as dry the present year, in which case only small crops will be raised on

the high, rolling prairie.

Professor Swallow, our State Geologist, has ascertained from observations hat Kansas suffers no more from the drouth than any other State, while she has advantages equal, and possesses many superior, to any other State. For stock-raising, there is not another State in the Union as well adapted.

The freighting business from this city

to the Rocky Mountains, Santa Fe, Salt Lake and Montana, will be carried on much longer this year than ever before. There are acres of mining machinery here now, ready to be transported to the gold and silver mines as soon as grass comes; and by the middle of April or first of May, trains will commence moving. Wagons can be counted by the hundreds, while ox yokes and bows are piled up like pyramids, and can be counted by thousands.

Good mules can now be purchased for \$100 each, and oxen for \$100 per yoke; though an advance on these prices may be looked for as soon as grass is plenty and the demand for stock increases. The Atchison and Pike's Peak R. R.,

which was commenced the summer before the war, and suspended for four years, has recently been commenced again, and promises to be pushed ahead as rapidly as possible. The track is laid down some six or eight miles, and the cars will be running over thirty miles by the first of June or July. All kinds of property are advancing rapidly, and buildings are being rented at fabulous prices. A dwelling that would cost in Wellsboro less than \$1,000, will rent readily here for \$35 and \$50 per month.— Good business houses are in demand at \$150 per month; and although many of them are going up, yet I think many business men will be compelled to leave here for want of buildings to do busi-

Our city contains a population of some six thousand souls, and the prospects are that it will nearly double the present year. Business of all kinds is good, and promises to be better as soon as spring emigration commences.

We hear very little excitement in regard to the new mines of the northwest, though it cannot be doubted that it is a good country, and that a man with cap-ital can make money there; but while ten men may go out there and get rich, one hundred will return without a dol-

protect it. It is a jewel as easily lost as vir-tue, and in some cases as difficult to recover. Nature, in our climate, and especially at this season, requires to be occasionally reinforced. But everything depends upon the tonic used for this purpose. The medicinal tinctures, all of which are based on common alcohol, are dangerous. Quinine, as everybody finds out who takes much of it, is a slow poison. One safe protective from all unhealthy atmospheric influences exists, and one only. This powerful preventive is HOSTETTER'S CELEBRATED STOMACH BITTERS, a compound of the purest stimulant ever manufactured, with the most effective tonics alteratives, and depurators that chemistry has yet alteratives, and depurators that chemistry has yet extracted from the botanical kingdom. Convalescents, languid and feeble from recent sickness, will find the Bitters an incomparable Restorative, not disagreeable to the taste, and eminently invigorating. No other stimulant produces the same effect as this Stomachic. It does not excite or flutter the nerves, or occasion any undue arterial action; but at once soothes and strengthens the nervens system and the animal spirits. the nervous system and the animal spirits.
