CIRCULATION 1,600.
FOR GOVERNOR
MAJ. GEN. JOHN W. GEARY,
OF CUMBERLAND COUNTY.

The Tribune says, "We do not fire a 100-pounder to kill a wren."

We see that the half-breed Republicans and Copperheads have combined against Hon. G. W. Julian, for Congress, in Indiana.

This reminds us of the toper, who, when asked if he took his tippie strong, replied: "Not very; water, I: whiskey, 99."

Republican victories are so common that we neglected to chronicle the result of the first city charter election in Williamsport, on the 16th inst.

What "THEY SAY." The countless tongues of rumor wag busily now—a day, that old, barbaric, haridan, "The Toga Agitator," prognosticating and diagnosing the case of the body politic in a most noisy manner.

We have special reference to the work of the old dame in this Commonwealth. This is the situation: Hon. Hiestor Clymer has been selected by the "democracy" as their candidate for Governor.

Mr. Clymer, in the language of his own home paper, is "the Vallandigham of Pennsylvania." Our readers understand that. In other words, Mr. Clymer, during the effort of the Government to put down the rebellion, adhered to the enemies of the Government, encouraged his fellow Copperheads in Congress to vote against men and money to carry on the war...

During this period, Gen. Geary was at the head of his regiment, brigade and division, fighting against the rebels, that rebellion might be crushed and the integrity of the Government maintained.

You will see, at once, that Mr. Clymer's record is not a pleasant one to exhibit among the people; more particularly among the 200,000 returned soldiers whom he labored and voted to disfranchise. In fact, his party seem to regard his election as entirely out of the question.

What, therefore, is to be done? Listen to Rumor: "They Say"—That Senator Cowan is authorized to measure the Republican party in his silver half-bushel. Every Republican who puts his foot in that measure is to have the place, post office or otherwise, of every republican place-holder who will not put his foot in it.

Then, after the half-bushel test shall be thoroughly tried, the dignified Senator will take a riddle or sieve with holes one half-inch square, and go out among Republicans to sift them. Every Republican who can be shaken thro' the sieve is to be baptized into the new Conservative, copper-bottomed and copper-fastened party which is to inherit all the plunder within the gift of Andrew Johnson; and then sit in the great Conservative Vallhalla and drink beer from the skulls of the radicals.

Then, on or about the 4th of July next, these redeemed, regenerated, and disenfranchised disciples of "my policy," are to congregate in Pittsburg, and select some military man to run for Governor, against Gen. Geary.

The object of the Convention is, of course, to put a third man in the field so as to "divide and conquer" the Republican party.

But dignified Senators, armed with measures and sieves, have more than one string to their bows. On consultation with the people, Senator Cowan, obtuse though he may be, has discovered that few Republicans are ready to put their foot into his silver measure; still fewer will shake through a half-inch hole. What then?

Listen to Rumor: "They Say"—That Mr. Clymer, having been convinced that he stands no chance to be elected, proposes to withdraw from the contest and accept a foreign mission from President Johnson. Upon this the "Democracy" will meet in Convention, and after deploring the declination of Mr. Clymer, will proceed to nominate Hon. Geo. R. Barrett, at present a resident of Clearfield county, but Judge of the Wayne judicial district.

That would be a nice arrangement.—Judge Barrett is a man of considerable

Whether the prognostications of "They Say" shall be justified by events, or not, the fact that there is a plan to divide the Republican party, with a view to its subjugation, is not to be disputed. It will fail. There is no likelihood of any extensive demoralization of the party which rescued the country from death at the hands of treason, and which will now preserve it from the ill-judged policy of the President.

Third parties never succeed in getting any permanent foothold. It is not in the nature of things that any man can rally a party around him, and hold it subject to his will, for any considerable period of time. The soil is too thin and poor to sustain a vigorous growth.

Whether a Convention held at Pittsburg, and a half-breed Republican put in the field against Gen. Geary, or whether Mr. Clymer be withdrawn from the field, and a new, and possibly less obnoxious man, be substituted as the candidate of the "Democracy," in our judgment makes not a particle of difference. The Republican party occupies too large a space in history to be divided and defeated in detail.

The Governor's friends in this part of the State would be glad to hear from him. Up here in the mountains we estimate men at their worth as unselfish patriots.

To DAIRYMEN.—Most of the Cheese Factories heretofore in operation at this time, and notwithstanding the prognostications of some, we prophesy that there will be a greater quantity of cheese made in Tioga county this season than last.

The new Excise Law in New York is playing the deuce with the rum and beer sellers. A license to sell rum costs \$250, and for beer, \$100. Why not? If revenue is wanted, why not put the price of a license up among the pictures?

But the great effect of this law, according to the New York Herald, will be to use up the big Copperhead majority in the city. It says that by this law hundreds of manufacturers of "Democratic" votes will be closed.

The Tribune said a pretty good thing when it declared that "it is no part of the American system to make our obligations types of eternity."

Certainly, give us a five per cent. loan, to take the place of the other loans when they mature. Why does Congress fear to test the patriotism of men and women who nobly invested their earnings in 7-30's and 5-20's during the dark days of the war? Give us a five per cent. loan to fund the present indebtedness.

The Merchants' National Bank of Washington lately failed, leaving its depositors in the lurch to the tune of about a million. The Government, through the rascality of a Treasurer, loses over half a million. The note-holders, of course, are secured, as the Government has securities to cover the circulation.

The Copperhead papers are making a great fuss about this failure, calling the bank a pet National Bank. The fact is, that the conductors of the bank are Copperheads, and to a man the ardent supporters of "my policy." Pitch in, little folks!

The loyal Virginians are holding a State Convention in Alexandria. Some of their proceedings are decidedly radical. One man, Mr. Lipscomb, stated that he was born with a silver spoon in his mouth; that he had lost everything by the rebellion, to which he was opposed from the beginning to the end; and that he was in favor of the reconstruction policy of Congress, by which treason would be made infamous, and opposed to the policy of Andrew Johnson, which rewarded traitors.

Another man, Mr. Lewis, among other things, said that he could not see any other way than to give the ballot to the negro; that he could see no difference between "going with the democracy and going to the devil."

Well, we don't see any difference between the two "goes." Going with the Democracy is a short cut to the devil.

A most destructive fire occurred in New York last Tuesday morning, causing a loss of \$3,500,000. The fire was kindled in the Academy of Music, the largest and most magnificent opera house in America, whence it spread in every direction. The University Medical College, with its valuable apparatus, and collection of curiosities, two piano factories, two churches, and a dozen other buildings, were totally destroyed.

A Copperhead exchange says that when the Union "goes up," the Republican party will go down. Exactly so. The Republican party have been trying to keep the Union from "going up," for six years. The Copperheads have been trying to blow it "up" during that time.

The Connecticut Legislature has elected Gen. O. S. FERRY its Senator for six years from March 1, 1867, in the place of Lafayette S. Foster, whose term expires at that time. Gen. Ferry is a radical Republican, and received every Republican vote in the Legislature. We suppose this may be taken as one of the fruits of the victory in Connecticut. It is the question.

Some of the Copperhead papers below the mountain are making a very little capital out of Gov. Curtin's silence upon the great issues of the day. One or two state, positively, that Gov. Curtin is not in favor of Gen. Geary's election, but will throw his influence for Clymer, or some stool pigeon who may be nominated as a "Johnson candidate."

We doubt if the Governor is quite so obtuse as this gives him credit for being. He will, doubtless, have considered the plain truth, that his popularity arises from his conduct during the war, and not from any more personal and peculiar. He is a man of some ambitions. He comprehends, of course, the fact, that occupying a doubtful position in these days, would "fing" him, so far as any preterm at the hands of the people is concerned.

The Governor's friends in this part of the State would be glad to hear from him. Up here in the mountains we estimate men at their worth as unselfish patriots.

When to Revive the Democratic Party. Hon. John Sherman, of Ohio, in a speech made at Bridgeport, Connecticut, in touching on the question of the revival of the Democratic party, told the following story, describing the simple logic of Gov. Todd, of Ohio, an old Democrat, concerning the vitalizing of the Democracy:

"A modern Democrat came to a distinguished Democrat of the State of Ohio, (Gov. Todd), last fall, after the war had ended, and said: 'Now, my friend, you supported Lincoln all thro' the war; now the war is over; you have had everything your own way; and now suppose we start again the old Democratic party.' 'Well,' said the old Ohio Democrat, 'I don't know but that would be a good thing; I like the Democracy; I was raised in it, and I stuck to it until it deserted the country and went over to the rebels. I don't know but it would be a good thing to revive and purify the old party; but I won't do it just yet. Ah,' said his friend, 'when would you do it, then?' 'My friend,' said the Ohio Democrat, 'when the Union party shall have discharged in full all the obligations it has assumed during the war; when it shall have paid all the pensions that are due to widows of soldiers; when it shall have paid every dollar of the national debt incurred during the war; when it shall have punished all the rebels; when in short it shall have accomplished all that it has promised to do, then I am willing that the old Democratic party should be revived. I am not willing to trust the Democratic party to perform obligations that they opposed in their own contracting. I prefer to see it done myself—to pay my old debts myself.'"
