Mr. Scars's shoe shop, and which every fisherman ou ht to have. PLANK WALKS.-Many of our citiger have exhibited a commendable public spirit during the past week in putting their side walks in order, and are entitled to public gratitude, therefor. The Street Commissioner will this week onter upon the work of laying and repair-

ing the walks which seem to invite his attention. STDDEN DEATH; We learn from a citizen of Westfield, that Mr. Allen King, a highy respectable resident of that township, was found dead in his bed Monday morning, 28th inunt. He retired Sunday night in usual bealth, and so continued up to three o'clock Monday morning, so far as is known. At that 'hour Mrs. hing arose to get some water for a child, when teasked for and drank some. 'Two hours later it was found dead. 'Mr. King was about forty ters old, and leaves a wife and two children to geurn his loss.

ON A STRIKE.-The Morris Run miers are reported to be on a strike. From seveal sources we learn that the strike arose from a duction of the price per ton for mining and an rease of the rents of tenant houses, by the Tris Run Coal Company.

We are more recently informed that 'the Commy has reduced the rents to the old standard. m still holds the price of mining at twenty cents show last year. It is to be hoped that some accamodation may be reached by the parties, as ne interests of all parties, as well as the public atterest, cannot but be unfavorably affected by tte stoppage.

THE RAIN.—The rain of Sunday must have saved the hay crop, and otherwise conferred almost incalculable benefit upon the country at ler e. The drouth has been severe, and but for the unusual low temperature would have rained gues and grain. The unusual coldness, and oc asional hail-storms are believed to be caused by me presence of extraordinary quantities of ice ergs in the Atlantic. The part winter was deemed, by scientific men, peculiarly favorable to the formation of icebergs far north.

The temperature is still low, and there is some diager that corn may not come up on first plant-

BOLD ROBBERY-ARREST OF THE Ressens .- On Friday, 18th instant, two men, amed, respectively, Albert'A. Cummings and Joeph ----, entered the house of Thomas Wolnuty, and commenced rummaging the desk and runks. The only occupant at the time, a sick Eat, remonstrated, when one of the fellows seized athagen banging in the shanty, and holding it to the treast of the man, threatened to shoot him if he interfered. The other thief proceeded to th the house, taking two watches, some clothing, nd about \$75 in money. Having secured al rtable valuables, they departed, taking the gun

Upon information lodged with the proper au-Orther, a warrant issued, and pursuit of the three made. Report of their presence at Tioga the to Sheriff Tabor Monday noon, and he starin pursuit, tracking them to Corning, near faich place he took them into custody Tuesday erning. He brought them to Wellsboro the heday and lodged them in jail. One of the lows was hanging around this village ten days and left under suspicion. He is a bounty-

PRAISEWORTHY LIBERALITY .- The disboro Fire Company, with a thoughtful libey worthy of imitation, have appropriated the in of \$25 for each of six wells to be established Main and Pearl streets, for the better secu-If of the village in cases of fire. The approration is made to depend upon the liberality of tedizens owning property in the vicinity of weils At a meeting of the Council on Mon-4) trening, May 21, it was agreed to meet the torintee of the Fire Company Wednesday mor-Lig following, and locate the wells. Accord-Biy this was done, and the wells located within tilporting distance along Main street, from the Her bridge to the lower end of the village, with the on Pearl and Lincoln streets, near S. H. Landu's, and another in the rear of Union Block. We com to see signs of a disposition on the part of the property-owners to meet the Fire Cempany half way. By all means let it be done. Without water, an engine is worthless. Besidek,

Horse Training.—Messrs. Wilder Angeli, the noted horse trainers, favored the cople of Wellsboro and vicinity with exhibitions their method of training horses, Friday and aturday of last week. Their programme, as. subthehed last week, was faithfully carried out, ud the affair was an agreeable success.

there is reason to believe that the wells will lower

the rate of insurance.

The ground-work of their system is, to be brief, umon sense. The facts which gave life to Mr. lider's licotures were not new, but their applicabut certainly was novel. Their system substities reason for brute force, and makes man masbe of the horse by wirtue of his nobler nature and enlightened will, and not through the appliabout of restraint by force.

The lecturer taught that the spirit of the horse u not to be broken, but educated and directed. Noble, and highly receptive by nature, the horse it to be treated witz kindness; to be persuaded, and not driven-retaining his will in subjection to the more powerful because educated, will of man. The horse, to be acronghly trained, must be taken into the confidency of the master.

We learn that Messrs. W. A. have a large clustere. That is right. If the can establish their system throughout the land, the will merit that.
