This is only a portion of the votes cast by the Copperhead candidate for Governor as a Senator of Pennsylvania.— The "boys in blue" can judge from this how friendly Clymer was and is to the cause in which they periled their lives. As occasion serves during the campaign, we can lay before our readers many similar passages in the legislative career of Hiester Clymer.

The Senate debated the House Reconstruction resolution on the 29th ultimo, striking out the third section, which disqualified rebels from voting for members of Congress and President until 1870. Lincoln—March 4, 1866. CIRCULATION 1,600.

FOR GOVERNOR MAJ. GEN. JOHN W. GEARY, OF CUMBERLAND COUNTY.

Gov. CURTIN has signed the bill to disfranchise deserters and skedaddlers from the draft. We guess that settles the Constitutional hash.

Two weeks ago we noted the declarations of several rabid Clymer papers below the mountains, to the effect that to Gen. Geary. The Bellefonte Press is authorized by Gov. Curtin to say that he is now, and has from the first been, a firm and unconditional supporter of the nomination of Gen. Geary, and shall, so far as in him lies, advocate his election. This disposes of one more Copperhead lie.

On Friday, the 4th day of March, 1864, the following joint resolution was taken up for consideration, (See page 295 of the Legislative Record, session of 1864,) bers, and murderers. It is not stating punity. The courts may do their duty, pass a law increasing the pay of private soldiers and non-commissioned officers in the army, came before the Senate on the third reading, and was read as follows:

conviction. There is a point whence the road to clemency diverges widely, and leads downward to sympathy for crime. It would be hard to say that Andrew Johnson has taken this divergent road; but if we judge him by the common standard, that is the inevitable conclusion .-Look around you to-day, reader, and crime than treason. tell us, if ever before in your term of life you knew crime so bold, and ney, Speaker—18.

So the bill passed finally.
This includes the restrict of the common of the start of the leading crimes of the time. The crimes once limited to populous places with a changing population, are now domesticated among us in our little hamdomesticated among us in our little hamlete, away from the great thoroughfares of the country.

"Has Hell broken loose'?" asked our friend. No. But high officers have so trimmed down the magnitude of crime, rendered the avenues of escape from punishment so broad, that vice has taken a new lease of life, and impudently beards virtue wherever that modest quality shows itself.

Now, therefore, the universal question sems to be: What shall be done to check the fearful increase of crime? Moral culture would do it in time: but moral culture, in its nature, is a thing of degrees. We cannot wait for its slow ref- of them, whether they be full-bloods ormation.

Had Mr. Johnson exercised his prerogative with care and judgment, probably the occasion for this question would who engaged in the rebellion, shall be a Senator or Representative, or elector of President, or hold any office, civil or military, under the United States, or made odious,—and has ended in making not have arisen. But he has exercised made odious,—and has ended in making treason semi-respectable. This led to other clemencies in the shape of minor crimes; and to-day it is a safer thing for a man to counterfeit the national coin, respect to the memory of Gen. Scott, than it would be to take a joint of mut-whose death was formally announced ton from the market without leave, to in a message from the President.

The Senate transacted little business

save one's children from starvation.—

The reason of this is, that the counterfeiter of coin is given to understand that he has a friend in Washington, while the pilferer of eatables knows that de-

tection means punishment. Whether the President sympathizes with crimes or not, makes no difference. We have no idea that he would encourage the crime of counterfeiting by direct means. The point we make, is, that he prostitutes his prerogative—from what motive we know not,-and this indirectly encourages the vicious to prosecute their illicit vocations.

We charge upon Andrew Johnson's bad faith to the people, the terrible havoc crime is now making throughout the length and breadth of the land. SOLDIERS' CONVENTION.

The Soldiers' Convention, held at egates, very many of them maimed and disabled, and nearly all veteran volunteers, were present, representing all parts of the State.

The proceedings of this Convention were unusually significant. In York and Cumberland counties the Clymer party undertook to control the primary elections for delegates, and boasted of their success. They endeavored to smuggle in a delegation of "Clymer" soldiers. but got ashamed of it, we presume, as there appears no record of contesting delegations.

We receive the proceedings of the this week, and so defer the publication of the platform until next week. The Gov. Curtin would not give his support following resolution, however, will serve to give our friends the key note to the whole:

"Resolved. That this Convention is able to express its sentiments upon the whole matter of isnes and candidates in four words, which may an swer for our banners in the pending political cam-

paigt -- GOD GRANT GEARY VICTORY." The policy of Congress was endorsed in the strongest terms.

After the main resolutions were adopted, a Berks county delegate rose to oppose the resolution endorsing radical measures and radical men. Gen. Collis, of Philadelphia, asked him if he would abide by the action of the Convention. He prevaricated, and at last said that he would vote for Clymer. Upon this two one-legged soldiers were deputed a committee to escort the gen-

The Copperhead papers in this District are abusing Congressman Wilson most vigorously. That is to be expected. No man ever represented this District more faithfully than he. If you will be at the trouble of examining the proceedings of Congress you will find his vote recorded on every important measure, and always on the right side. He has given the closest attention to seconded Andrew Johnson's proposition to make treason infamous, and by his votes helped to conduct traitors to a "back seat" in the work of reconstruction. We call that a good record.

The sympathizers with treason are invited to bring on their bears. Mr. Wilson, by the universal consent of the Republicans of his District, will take care or only half breeds.

We see that the Copperheads are making desperate efforts to get up meetings of soldiers in favor of Hiester Clymer. Why not? On Saturday evening (June 2d) Col. Theodore Gregg, late commander of the 45th regiment of Pennsylvania volunteers, addressed a large audi-ence of ladies, returned soldiers, and others, at

DUBLIC HEALTH. THE PRESS.—Advertising has been pronounced "undignified," by the medical faculty. A physician who advertises a valuable remedy to fifty people in his private practice, would recaise the cold shoulder from his professional brethren, should he make its merits known to millions through the breiness columns of a newspaper press. This may be "dignified"—but is it benevolent, humane, or just' Whoever is fortunate enough to discover or invent anything that will prevent, or cure, or alleviate human suffering, is bound to make it known, through every channel of communication within his reach, to the general public, For many years the merits of HOSTETTER'S CELK-BRATED STOMACH BITTERS have thus been proclaimed to the world, and multitudes have been restored to health, or saved from fatal maladies, in consequence As new facts have been developed in relation to theoperation of this most pure and potent of all Stomachies and Alteratives, they have been stated in sample has guage to the people of many lands; and it the propuetors of the medicine have derived profit from their dissemination, thoisands upon thousands of individuals have been benefitted thereby to an extent beyond all estimate. In the West Indies, Cannada, Austraha and South America, Hostertries Bitters are now recognized as the sole specific for Dyspepsia, the best possible safeguard against epidemics, and the fluest invigorant in cases of General Debility, and the only diffusive stimulant entirely free from noxiors ingredients.
