A POINT ON WHICH ALL PHYSICIANS AGREE Out of ten thousand fégular physicians you cannot find one who will not have that stimulates and invigorants are absolutely necessary in medical practice. And yet in bygone years humane practitioners have hesitated to administer them, because the figures ingenuity of wretches who make merchandize of haman infirmities, had so polluted and deteriorated them that the remedy was deemed as dangerous as the disease. This perplexity is happily done away with. Physicians know, because the first analytical chemists of the age have demonstrated the fact, that HOSTETER'S CELEBRATED STOMACH BITTERS TER'S CRIEBRATED STOMACH BITTERS are absolutely and entirely free from all pernicious elements. Hence they have been introduced into the United States army, and are accepted; whereon the testimony of the wise, the intelligent and the philanthropic is rated at its just value, as the best protective against and cure for all diseases arising from impurity in the air or other unbealthy climate influences, that has ever been tested by experience. In cases of Dyspep-sia and Liver Complaint, we state, without quali-fication or reservation, that the Bitters are as nearly infallible as anything prepared by human skill can be.
