THE STAR-FALL .- Thirty-three years ago, whoever was abroad on a certain November morning, from two till daylight, saw a most magnificent sight. This was no less than a shower of meteors, which was witnessed and commented upon by the philosophers of that day. It was computed by Arago, the French astronomer, that no less than 240,000 of these meteors were seen that morning.

These showers are periodic. It is announced that another shower may be expected on the night of November 13-14, proximo. Professor Newton, of Yale College, is the prophet. Probably he has certain data upon which to make the announcement.

We are requested to give notice that, by order of the Executive Committee of the Tioga County Agricultural Society, there will be an inspection of one, two and three year old Grounds next Saturday, the 27th inst. As the committee on this class made no report during the Fair, this chance is offered competitors, so they can secure the premiums and notice due them from the Agricultural Society.

On the same day there will take place several trots, the matches having been already made. A premium of \$10 also will be offered for the best trotter, and one of \$5 for the slowest trotter.

The fox will be let loose, and liberal premium will be awarded for the foremost hound. Aside from foot races and other things worthy to behold, the day's sport will well pay for a trip to

Persons who have subscribed for life memberships and have not paid, are urgently requested to make payment to the Treasurer, J. L. Robinson, Fsq., on or before Saturday next.

## [For the Agitator.] Agricultural Meeting.

A few of the enterprising men of this neighborhood met last evening at the Culver school house, according to appointment, for the purpose of organizing into a township agricultural socie ty, and getting up a ploughing match this fall.— Thomas L. Davis was chosen Chairman. The Chair made a brief statement of the object of the meeting. A great anxiety was shown by those present (judging by the spirited remarks they raise the standard of our occupation, in this vicinity, worthy of the age we live in.

The following resolutions passed unanimously:

Resolved. That we will have a ploughing match on Thursday, the first day of November next, at one o'clock P. M.; a notice of the place to be given in next week's Agitator; to be conducted as follows: Competitors to send their names to the Secretary, on or before the last of this month. A committee of three to be chosen, whose duty is shall be to select ground, measure, stake and num-ber each land. The ploughmen to choose lands by ballot. Three judges to be appointed, who shall be located in a certain room from the time of balloting until the ploughing is done, in order to avoid the least possible chance for partiality.

Resolved, That we give an invitation to all our fellow townsmen to meet at the Burns school house next Friday evening, to complete the organization and to elect officers for the ploughing Resolved, That the premiums for ploughing

shall be the honor of the name.

> [For the Agitator.] Taxpayers of Tioga County.

Now is the time to see to it that we ere not unwisely overgloaded with debt in the purchase of a house for our poor. Let us avoid if possible the errors and almost uneless extravagance we exhibited in the construction of our new jail, which proves to be only an easy place-for offenders to get out of. Why not take this costly monument of our mismanagement for the present accommodation of our poor, and avoid contracting a debt of eighteen to twenty thousand dollars, until we pay off our bounty debt, and take in a small store of financial wisdom for our future guidance? Let us at least draw one prudent breath before we donate to any one—even our brother—\$4,000 to \$5,000 in purchasing a farm for our poor house.

WELLSBORO, PENN'A. WEDNESDAY, OCT. 24, 1866.

CIRCULATION 1,650. With MALICE toward none. with CHARITY for ALL, WILL firmness in the RIGHT, let us strive to finish the are in, to bind up the nation's wounds, for him who shall have borne the battle, and widow and orphans, and to do all which may achie

and cherish a just and lasting peace among ourselv and with all nations.—A. Lincoln—Marcu 4, 1865.

Gen. GEARY's majority in the State is 17,227. Wilson's majority in the district is 2,046—a gain of 1,200 on his majority in 1864. Glory enough for this year!

A Georgia paper having declared that the South wanted a million of General Grangers in the North, our spicy cotemporary, the Erie Gazette, asks if half-a-million Grangers and half-a-million Custers will not do.

As an evidence of the salutary effect of the late Republican victories upon the unreconstructed South, we extract tion. In intellect he does not exceed from a letter written by Maj. A. E. body to eat less and pray more. Roast turkey | NILES, now on duty in South Carolina, the following:

"I want to congratulate you upon the result of the elections so far as heard frem. I never felt so proud of my mative State as I do at this time. You can't imagine how civil it makes the Rebs. They begin fo see for the first time that a coalition with the Copperheads may harm them. They will come to it and adopt the amendments; all that is necessary now is backbone. A plenty of that in the Republican party, and the thing will end as it should. I know what I am talking about, and I say don't let Stray faiter for nothing; the proper course say don't let STEVE falter for nothing; the proper cour-lies ahead, and all will come right in the course

GAIN AND LOSS.

Now that the smoke of the battle has cleared away, it becomes us to consider result of the year when the heaviest previous vote was cast, estimate our gains and losses. It is not our custom to deal in vague declarations of gains and losses when the figures can be got

The heaviest vote ever cast in this October, 1866, was in 1863. The aggre- Bradford district, and Wilson, in this gate vote of that year was 6,121. Of these Curtin received 4,504, and Woodcolts, also mares and sucking colts, on the Fair | ward 1,617—giving Curtin a majority of

In the recent election the aggregate vote was 6,419. Of these Geary received 4,791, and Clymer 1,628—giving Geary a majority of 3,163. This shows an increased Republican majority of 256; an increase of votes to the number of 298, of which 287 accrue to the Republicans, and only eleven to the opposition.

These are the figures for the aggregate gains of both parties in this county.-They do not lie, nor can they be made to comfort our opponents.

Our heaviest gain, in both vote and majority, is in Bloss, where Geary's majority nearly doubles Curtin's in 1863. The gain on the whole vote is also immense-114-showing that Bloss is growing fast, and that her Republicans are up and doing.

Covington and borough gain 25 votes

in stock, implements and workmanship; to follow our avocation more systematically; and to responding increase in the vote for Clymer and Wright. This shows that the gained heavily in all the States which ranks are not only unbroken, but, taken in connection with the fact that our increased majority represents our increase on the aggregate vote, it shows that correct principles are flourishing with renewed vigor in our grand old banner county.

Not to be too selfish, let us go outside the county, and see if Republican principles are not on the progressive side elsewhere.

Lycoming county cast her heaviest vote in November, 1864, when her majority for McClellan was 806. This year her majority for Clymer is 577, a falling off of 229, and a corresponding gain for us. The official vote in Clinton, Center and Potter has not reached us, but we have little doubt of a corresponding growth of correct principles in those comties.

It is doubtful if the vote in the State will prove so large as that of November, 1864. Probably it will not much exceed that cast for Governor in 1863. The majority for Geary will considerably overgo Curtin's three years ago, from present indications.

The magnitude of the wictory just achieved may be comprehended best by taking into consideration the fact, that in 1863 the patronage of the General Government was in Republican hands; whereas, this fall, the entire influence of the General Government was used against us with a bold unscrupulousness never exceeded. Against patronage, against such wholesale lying as we never before encountered, against mighty and persistent "attempts to arouse the prejudices of the people against us, we have routed the legions of rebellion and scattered them like chaff.

It is something to be proud of, something to be grateful for. The irresistible power of awakened conscience was never before so manifest.

And thus has the country been rescued from very great peril once more, and the Chief Magistrate has been taught a solemn lesson. The people have decided that the Union must be when a monument would be erected to property, consisting of four hundred and thirty-restored upon the Congressional plan. Booth higher than their created to Line nine acres of warrant No. 4480, in the name of restored upon the Congressional plan, Booth higher than that erected to Linsubstantially; that the chiefs of rebellion have forfeited their right to the privilege of the elective franchise under the common Constitution; that treason shall | such a monument. But we suspect that be made odious and traitors infamous; the structure would topple down upon and that the Government shall hereafter be administered upon the broad and mound of treason and its sympathizers.

DEFUNCT! Yes, that's the word. The new paper at Williamsport has put and seventy-two persons were indicted out its farthing rush-light, and the city for treason and conspiracy in Kentucky, is draped in gloom. Whether the ex- and the U.S. District Attorney has entinction of the serene Dunham's lumi- tered a nolle prosequi in each case. The nosity will require the Mayor of the people are thus taught that treason is

ring the day, or not, we cannot say.-But we shall miss the "something to laugh at," which always came when we opened the Union Republican. If we could say "Dunham's gone up," we would; but the truth is, he kept the company of those whose feet naturally enough go down, instead of up. "My policy" is death to its advocates. Dunham done his patrons, but "my policy" done him.

That was a good reply of Theodore Tilton to the question: "Would you marry a black woman?" "No," said he, "unless I was the father of her children, in which case I would be ashamed not to marry her."

This was in Philadelphia, and during his speech at the Union League hall.— If every rebel and rebel sympathizer would take a hint, this hint of Tilton's would do them good.

After the defeat of Wright in 1864, we stated that not Mr. Wright, but his money, was defeated. We now repeat the statement as applicable to his Waterloo this year. Mr. Wright was never put forward as a fit person for the posimediocrity, and in a fair knowledge of human nature he is hopelessly below

par. He hung around the tap-rooms of Wellsboro, and employed silly go-betweens to corrupt the Republicans who were believed to be corruptible. Had he been penniless, even his party would never have thought of naming him for Congress.

Wilson's majority in the district is larger than we reported it last week-or upward of 2,000. This district, it will be recollected, was one of the three selected by Edgar Cowan & Co., (which at \$3,75; we also have all the extra qualities at the result, and by comparison with the firm now represents the modern democracy,) for especial operations. The sanguine Cowan proposed to elect three Copperjohnson members of Congress in hitherto Republican districts, but where the vote in 1864 was close. Unfortunately for his plans, he spent so much time in trying to defeat Scofield, in county prior to that of the 9th day of the Warren district, Mercur, in the district, that he suffered Covode to be elected in his own district, where the election of a Copperjohnson was considered safe. The effect of Cowan's influence may be seen in the almost trebling of Wilson's majority of 1864, and the heavy gains of Mercur and Scofield over their majorities in 1864. Mr. Cowan proposed to defeat three Republicans; the people elected them, and defeated two Copperheads besides. Our delegation in the 40th Congress stands 18 Republicans to 6 Copperjohnsons.

We said last week that the dispatch, to the effect that the President had interrogated the Attorney General as to his prerogative to disperse Congress, was a hoax. It is so declared by the President. But it is a significant fact that the leading papers of the rebels in the South, as of the Copperheads in the North, seized upon it as truth, and still declare that the President may properly set up as Dictator and repudiate Con-Covington and borough gain 25 votes for us, and gain 19 on majority. This is handsome, and shall be remembered.

Chatham falls off on her vote for Curtin, but the opposition stand just as they stood for Woodward—93 This occurs elsewhere; and we have yet to find a single district where any falling off in the Republican vote shows a cor-off in the Republican vote shows gress. If these devilish papers desire

election lie that the Johnsonites have voted October 9. We will do it with figures which cannot be disputed:

Sixty Congressmen were elected on that day, 48 of whom are Radicals, and 12 Johnsonites.

In 1864 we had 47 of these 60 Congressmen, and the Johnsonites had 13. That is the way the opposition have gained so tremendously. Is it plain? Put with our 48 the 8 members from Vermont, Maine, and Oregon, and we have 56 Radicals elected this fall to 12 Copperheads-about 5 to 1. Is it plain?

One of the very best statements of the question at issue between the Republican and Copperhead parties, was made by a Tioga county "Democrat" In this village the other day. Said he: "The difference between us is just this-the Republican party is in favor of universal freedom, and our party is in favor of

universal slavery." We are assured that a prominent apostle of that party living here, made the same acknowledgment to a Republican not many days ago.

Thank you for so much truth. Go ahead.

The Copperhead papers are placing much stress upon a loose statement that the sons of Daniel Webster and Henry Clay are with Andrew Johnson.

Daniel Webster's sons are dead-the last one having been killed in the war; and Henry Clay's sons were rebels during the war, and are not changed at this present.

· However, it is not very much to be wondered at that these drowning men should catch at straws. The lie is harmless as far as Webster's sons are concerned, and the truth makes against Johnson as regards Clay's rebel prog-

Some of the incidents of the campaign were notable. One B. F. Meyers, the Copperhead candidate for State Senator in the Bedford district, said in a speech in that town that the time would come

SYOW PRIMER Patented May 29, 1866.

This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, will not not this clothes, but will leave them much whitze than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used.

Among the advantages claimed are the following, viz. It saves all the expense of soap usually used on cut-ton and linen goods.

ton and linen goods.
It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed. With one quarter the labor and expense usually required, it imparts a beautiful gloss and luster, much superior to any other mode. No water required except to moisten

the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will the exceed there exerts. cost of washing for a family of five or six persons will aftexceed THREE CENTS.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt; but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has lobg existed, and which has heretofore remained unsupplied.
