BUTTER AND CHEESE FACTORY .-We have received the following report of a preliminary meeting to consider the subject of a but ter and cheese factory, to be established in or near this borough :

"The farmers in the vicinity of Wellsboro met last Saturday at the Court House, to take into consideration the building of a butter and cheese

Ira Johnson, Esq., was called to the chair, and W. A. Nichols, Esq., elected Secretary. A letter was road from a gentleman residing in the State of New York, who is operating a factory of State of New York, who is operating a factory of this kind with great success. This gentlemang estimates the cost of building such a factory at hom 55,000, and that a factory that will use the milk from 500 cows will clear above all expenses \$5,000 cach season, an average profit of 100 on each cow. It is proposed to huild a butter and cheese factory near this place, to use the milk of 500 or 700 cows. Messrs. Clark Barlow, John Dickinson, Samuel Dickinson, Peujamin Austin, Ira Johnson, E. P. Deane, W. P. Shumway and F. D. Bannell, were appointed to cantal their respective neighborhood, to learn how gone cows could be obtained for the factory. meny cows could be obtained for the factory, and these gentlemen will report progress at the text meeting, which will be held at the Court House, on next Saturday, the 17th instant, at two P. M. went cows could be obtained for the factory

" It is expected as this affair is so nearly related to the interests of the farmers of this vicinity at ithe public generally, that there will be a respectable attendance."

[If it he necessary to add a word of encourage ment for the prosecution of this laudable enterprise, we would like to add that word. The enterprise cannot fail of success, if entered upon with vigor. Such a factory, if established in every township in this county, would enhance the aggregate value of real estate not less than \$1,-900,000. By all means, then, let there be a full meeting next Saturday. Ep.]

Young Men's Republican Club .-At an adjourned meeting of this Club, held at the Union League rooms, fast Friday evening, it was agreed to adjourn the Club to meet at the all of the President, and that the members would weet with citizens, without distinction of party, at the Court House, this (Wednesday) evening, Uctober 24, to organize a society for literary purposes. We commend the enterprise as worthy of fereral favor. Lot there be a good attendance.

ELMIRA.-A few days since we (the Junior) paid a brief visit to this city. The busi-DESS places were thronged with customers-the Imageal streets were being literally torn to pieces preparatory to sinking sewers and paving. Build dge were in progress of erection in all parts of the city, besides many others undergoing improvement Among the many places of note, we vistiel the Eye and Ear Institute of Dr. Up De Graf, opposite the Rathbone House. The Doctor has justly won the reputation which he bears, as being one of the most skillful surgeons in this country. He never travels for practice, us his great success gives him plenty of business at home. As for one instance of his skill, we vonels for the following statement, having seen the tumor on exhibition at the institute:

OVARIOTOMY. -- On Wednesday morning last. Dr. Up De Graff, attended by a corps of targeous and physicians, proceeded to Dresden, where they were joined by others. This company, representing the ablest medical talent this section of country can boast, then repaired to section of country can boast, then repaired to the residence of the patient, a short dictance from Dre-den, where Dr. Up De Graff, of this city, ably assisted by Dre. THE JUBILEE.—The jubilee meeting of the Young Men's Republican Club, last week Tuesday evening, was a fit closing up of the campaign. The Court House was not large enough to accommodate the crowd. The ladies (God bless them!) were out in force, and the occasion was one of unparalleled interest and enjoyment. The meeting opened with a jubilee song, sung by Dr. Webb, and was followed by short speeches from the corps of Republican campaigners.

This was the most sensible celebration of great political victory ever held in Wellsboro. No disorder, no drunkenness, no burning of powder to disturb the peace of the defeated foe. We feel prouder than ever of the Republican party, which expresses its gratitude for success in a ed to notify the Jurors drawn for the special great moral conflict, as men rejoice in deliverance

Thanks to the Young Men's Club for its gal. lant service in the campaign, and in this its. crowning effort.

THE NORMAL SCHOOL -- We direct attention to a communication on the first page from Professor F. A. Allen, of the Mansfield Nor mal School. The objects mentioned in the communication are important, and we trust our people will respond generously.

There is no good reason why there should no be a cabinet of natural curiosities in Tioga county, and we have no place so appropriate as the Normal School building. Specimens of the shell rock of this region, as well as sections of native woods, should not be forgotten. The Flora of the county, as well as the Entomology, should be pro cured. Let us all assist in this work.

Protecting the toes of children's shoes from Protecting the toes of children's shoes from wear by metal tips, has proved a most important and useful invention. But until lately a great mistake has been made in applying them chiefly to the coarser grades of shoes. For the higher the cost of the shoe, the more there is saved by protecting the toe from wear, which can only be done by a metal tip. Genteel metal tipped shoes are now being made and are worn by the best families in the city. Manufacturers could not have conferred a greater public favor than by supplying this great want.—Boston Journal.

Ayer's Pills.

A RE you sick, feeble and com-plaining? Are you out of order—your system deranged and your feelings incomfortable?—
These symptoms are often the precursors of serious illness. Some cursors of serious liness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the or-gans of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural operations of that part.—
This, if not relieved, will react upon itself and This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. What is true and so apparent in this trivial and common complaint, is also true in many of the deep seated and dangerous diseases. The same purgative expels them. Caused by similar obstructions and derangements, they are surely, and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the dislect to employ them when suffering from the disorders they cure, such as headache, foul stomach, dysentery, bilious complaints, indigestion, derangement of the liver, costiveness, constipation, heartburn, rheumatism, droppy, worms and suppression, when taken in large doses. Our facilities for BUYING GOODS are UN-SURPASSED by any in this section, and we wish it understood that suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered. We do not intend to be UNDERSOLD by any.

We tender our thanks to the citizens of Tioga Co., who have patronized us and would respectfully invite those who have never done so to call

minimatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.
