WEDNESDAY, JAN. 9, 1867. CIRCULATION 1,700.

The Legislature convened on the 1st day of January and organized by electing Hon. John P. Glass, of Allegheny county, Speaker of the House. The contest was made as between Cameron and Curtin, candidates for U. S. Senator, Quay being the Curtin candidate, and Glass the Cameron, candidate for Speaker. The election of the latter was considered a decided triumph for Cameron.

The legislature has done no busines un to date. -The inauguration of Gen. Geary and

the election of U. S. Senator take place on the loth. The Senatorial caucus is for to morrow.

The failure to issue this paper on the 2d day- of January, as proposed, was caused by one of those provoking neglects which N. York men of business are sometimes guilty of. First we ordered new chases, head rules and column party. rules. They came, ten days after time, and all wrong. This made a trip to the city unavoidable. One of our firm, therefore, went to New York, and had prevent the destruction which is liable our first order filled under his own suwere shipped on the 24th of December. chases arrived on the 3d of January, one day after the paper should have appeared. Meanwhile, a fruitlesstrip to Tioga had been made, another to Corning, consuming five days in all, and all be cause of the stupidity of the shipper in New York. We had no time to "make ready," and in consequence the outside of the paper shows the effect of a new blanket which had to be stretched and

worked down on inky forms. Our patrons will see, also, that the sheet is scant one way and full the other. Instead of 26 x 40 we shall be obliged to use 261 x 41 paper, a lot of which we have ordered, expecting it in time for the next issue. The delay, besides vexations innumerable, has cost us upward of \$100 extra expense, and crowds two weeks' advertising into one. Our patrons will lose nothing by the delay, however, our volume commend ing one week later in the year.

The enlargement gives two columns more to? each page than before, and when we catch up with our advertising, will give nearly twice as much reading matter as before. The proprietors wish you all a happy New Year.

WHERE WILL IT STOP!

'Rising near the common boundary of Berkshire, and Hampden counties, Massachusetts, and towering high above the bed of the Farmington River, there is a chain of precipices of naked granite rising sheer from the river bed, of a mile or more in extent, and terminating at its Southern extremity in a beetling cliff five or six hundred feet high. This mighty cliff overhangs its base about sixty feet. Its top is strewed with grante boulders of all shapes and sizes, varying from a hundred weight to one hun-The boys will at once recognize in

this brief description a capital field for rolling stones. Children of considerable growth have so recognized it in the past, and still so recognize it. Once upon a time a farmer, whose house was under the shadow of this cliff, conceived the project of setting in motion a big boulder on the summit. He shouldered his crowbar one day, and climbed up the southern declivity. Reaching the summit he prepared to disturb the inertia of the boulder, weighing some forty tons, and in a brief space of time had the satis faction of beholding it slowly approaching the edge of the precipice. This boulder, if it should roll direct, would inevitably thunder its way into the river. The farmer so expected it to roll; but as it leaped from the verge, and went with a great rushing noise downward and referred. A bill to: equalize the through the air, it struck a projection currency so as to make National Bank vain, and the fire raged until the business por from the base, and shot with fearful notes legal tender to the same extent as tion of Lake Street was in rains. The loss is esvelocity in an oblique direction toward greenbacks, was referred to the Comhis barn. Down the steep, granite strewn declivity it thundered, and through the barn it went with a terrible crash, leaving but a mass of splintered timbers in its track.

This incident is brought vividly to mind by the course of the leading Cop- for clerks in the Executive Department perhead papers in the North. The Chicago Times, one of the ablest and bitterest of its class, not long ago declared in | Scofield said he learned that all the par favor of negre suffrage, and enforced its dons sent South by the Express Comdeclaration with argument always di- pany were marked "C. The Boston Post took up the argument and endorsed its conclusions frankly and fully. The chief argument was that without the full enfranchisement of the negro he could not be got out of politics; and if he were not soon gotten out of politics, the Democratic party the President to prevent the infliction must die; therefore, the true policy of of corporal punishment upon offenders the Democracy was to accept the situation, take a step in advance of the Republican party, and declare for Universal Suffrage.

This may be considered a selfish argument, and such it is. But men who put party above mankind must be selfish.-It was the setting of the ball in motion;

and with this initial fact we have to do. Venango County juil since the failure dent's Washington organ par excellence, resolution declaring it unhwful to pay and its tender, the National Republican, followed in the wake of the bold editor of the Chicago paper. They accepted the situation, and declared that the President had taken the same ground long before.

Meantime, the small fry newspapers of that stripe, kicked and scolded .-They had belabored the negro so lustily during the campaign, and excited such fears in the breasts of their readers touching negro equality, that they found it most embarassing to swallow their ravings with a great gulp, and take the brother from Africa to their heaving hosoms. SAD ACCIDENT.—The Vidette, Jersey Shore, publishes the following in its last num

ber:

"A most unfortunate accident occured on Tuesday, which resulted fatally to Mr. W. P. Brown, and in serious injury to Ashrer D. Young, A number of mon, emplayed by Martin, Wood & Co., were engaged with a team drawing logs out of what is called Hays' pond, a place where they are carried in when the water is high, using for the purpose a rope and pulleys. They had driven the grabs in the log and were drawing it up when they came out causing the rope, which was a new one, to fly back with almost inconceivable force. Mr. Young was struck on the arm and breast, causing a compound fracture of the upper area, and bruising the breast scriously. Mr. Brown was struck on the abdomen and injured internally. One of the party started for the Doctor and was fortunate enough to find Dr. McKinney not far from the place. Finding that it was impossible himself to attend both cases, Dr. Strause was sent for to assist. A sled was obtained as soon as possible and the injured men brought home, and all that medical skill could do was done for them. But Mr. Brown's injuries were of such a nature that no human power could save him, and after severe suffering he breathed his last about 12 o'clock on Wednesday.

TIOGA LYCEUM.—The entertainments iren by the Lycaum of Tiega on Wednesday and Thursday evenings of last week, were a decided success. The Programmes were well chosen, every part well condered. Where sail were so very good, it is difficult to particularize any one part of the exercises as more pleasing than the others. Grave, serious und comic were so well arranged, that the last was not once shocked, nor the appetite cloyed

The purpose for which the sitertainments were given (the building of a Public Gymnasium in Tioga) is worthy the co operation of all, and we hope that it will not be long before efforts made in this direction will be successful.

IS now prepared to execute all work pertaining to his profession, promptly and in a superior manner.

He extracts Teeth without pain by the new method of freezing or numbing the gums. Many are they who have submitted themselves to his treatment, and have been saved from the sovere pain of extracting, and are now advising their friends to follow their example, which they are rapidly doing, and sovers of people are now having their mouths freed from disease who were before delaying from fear and dread of pain. It is pleasing to hear their testimony.

One says: "the scratch of a pin is equal to the pain I realized in having all my teeth taken out." Another says: "my teeth had ached so long that they were very sore and I know I could not have endured the pain without the spray, but by having it applied did not mind it." Another (after having thirty teeth extracted) says: "I knew when every tooth came out, but realized no pain, and I believe the Spray to be a great preventative to soreness, for my mouth is bealing very fact and has been sore but very little; and I would say to all doubting oues, try it for your-selves and you will agree with me in saying that this is certainly a boson for suffering humanity."
