AN INDEPENDENT PRACTIONER.-Some years ago there lived in the city of Boston an author of distinction who was not without certain eccentricities of word and way. One day a friend asked him: "Professor A., what physician do you

employ?"
"Not any," replied the Professor.
"Not any," echoed his friend, in surprise, knowing that he had a family of some half a dozen children.
"What do you do when your children are side?"

"What do you do when your children are sick?"
"Well, I don't do anything for a few days, and then if they don't begin to get better, I give them Calomel."
"Calomel! what, for every disease?"
"Well, yes, for everything," returned the Professor in his moderate way.
"Years ago I always used to call a doctor when the children were sick; and I found his invariable method was to look at the child's tongue, feel the pulse, and

found his invariable method was to look at the child's tongue, feel the pulse, and shake his head, look very wise and prescribe Calomel—it always ended in that. So I thought I might as well give the Calomel myself."

"Well—but"—persisted his friend, hesitatingly, "how do you know how much Calomel to give?"

"Well—I give a dose; and then if that is not enough, I gives larger one—and, if it is too much, nature generally disposes of it!"

Saleratus is an effective remedy fo worms in horses. Dose, one teaspoonfull a day, and it should be sprinkled on wet hay. I knew one case which had defied other remedies, and was cured by Most cases this in about two weeks. Most cases can be cured in a much shorter time, One of our farmers, who has tried it, says that it is fully equal to Dr. Dadd's celebrated worm powders, and very much cheaper.

HEAVES IN HORSES.—Get some clack hickory bark—the outside shell bark—burn it to ashes and mix it with the horse's feed, as much as he can be made to eat, and allow him to eat no dusty hay, especially clover hay. This will greatly relieve him, but will not effect an entire cure, as I do not think anything will do that completely. THE GREAT

valuable quality in crinoline, not found in any single spring skirt.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the duplex elliptic steel spring skirt fora single day, will never afterwards will-ingly dispense with their use. For children, Misses and young ladies they are superior to all others.

BRAVE AND IMPORTANT INFORMA TION TO CASH BUYERS WHO WISH TO SPEND THEIR MONEY WHERE THEY CAN GET THE MOST FOR IT.

W. R. SMITH'S SONS' system of keeping an enormous stock of goods at all times of the year, and selling them cheap—this system so obsorted to big profit stores—is fairly begun for the Fall ceason at their store, and such a year for the Fall ceason at their store, and such a year for doing people good was never known before. Cer-tainly there is no good reason for swindling pri-ces new; we have had enough of them already. The great advantage and importance of trading for Cash or Ready pay is fully illustrated by the low prices now raging at the People's Store.

Look out for big stores and big rants; big notes and big rates of interest and, no real takers at that—all of which its very bad as against W. R. Smith's floor situation. Light expenses and no realts, new goods at broak down prices, and the good old motto of small profits, good value and quiek returns, flying to the brease. The fact is, the only true and certain road to fortune for the merchant is always to give his customers, as we do, the most he can for his money, and depend on large sales for his profits. Again, our popular and legitimate system of dealing, buying strictly for cash, always having cash on hand, render us masters of the situation when a drop comes in the market.
