THE COLORED PEOPLE OF THE SOUTH-ERN STATES.—General Howard has CRN STATES.—General Howard has written a letter to Secretary Stanton, in which he estimates the number of negroes now alive in the different Southern States. Comparing his estimates with the returns of the census of 1860, it appears that in North Carolina, Louisiana and Florida, the number of blacks remains nearly the same. There is a decrease in Georgia of nearly 66,000, in Virginia of 49,000, in South Carolina of 57,000, in Missouri of 18,000, in Mississippi of 17,000, and in Arkansas of 11,000, The only State in which an increase is reported are Texas and Tennessee, the gain in each being about 17,000.

There are no returns from Alabama of Kentucky. The movement of the colored population appears to have been from the interior to the coast, and northward. The emigration from the border

ward. The emigration from the border States into the original free States, has been larger than is generally supposed. Missouri, Virginia, Maryland and Arkansas, have lost most from this caus They have been partially compensated, however, by a straggling immigration from the southern ter of States.

armies, a very large proportion have not returned to their homes. The ex-ceptional cases of Texas and Tennessee are easily explained. During the later years of the war thousands of negroes were shipped to Texas by their masters. and there became free; while in Tennessee the blacks find now the protection and security of a loyal government

WORLD MUTUAL LIFE INSURANCE COMPANY.—This institution, located in the city of New York, commends itself to the public by a number of special features, to wit: Mutual Premiums features, to wit: Mutual Premiums lower than those of a majority of the Life Insurance Companies in the United States; Non-Participating Premiums lower than those charged by any Company in the world; Dividends increase annually after two years, with the age of the Policy; Losses Paid in Thirty Days after due notice and proof of death, and Thirty Days Grace allowed in the Payment of Premiums. The Non-Participating feature of this company offers peculiar inducements to persons of fixed income who desire to pay an even sum, peculiar inducements to persons of fixed income who desire to pay an even sum, and to secure at once the largest insurance therefore. J. F. Fruenuff, of Holidaysburg, is the General Agent for this State, to whom applications for insurance, further information, and persons desiring local agencies, should be directed.

PROGRESS OF CALIFORNIA.—The San Francisco Bulletin says that the reports from the district assessors, as far as received, indicate a taxable wealth in the state of more than \$192,000,000.—an instate of more than \$192,000,000.—an increase upon the returns of 1865 of nearly \$10,000,000. The total increase of state property values in 1865 was only \$3,678,803. An increase of \$20,410,817 was reported for 1864, but the returns were meagre and incorrect, twenty-two counties which had sustained great lime and copperas; it of the lime to losses, making no returns at all; so that the statement has no value for the purposes of comparison. In 1863 there was a decrease of \$10,530,677, resulting from the drought mainly; and it is improbable that this loss had been recovered 5. Keep a shallow dish of chloride of and \$20,000,000 added in one year.

Gen. Sheridan, in refusing to allow civic honors to be paid to the body of the Rebel Gen. Johnson, has now a claim upon the respect of the nation. In this brief letter to the Mayor of Galveston, Texas, he says: "I have too much regard for the memory of the brave men who died to preserve our Government, to authorize Confederate demonstrations over the remains of any one who attempted to destroy it." These are noble words and will ring through the land.

WE see that Dr. Humphrey, of Tioga county, has introduced a bill into the Legislature for a railroad from Lawrenceville to Wellsboro. Good. Anything to wake Lawrenceville from its slumbers. WASH, AND BE OLEAN!

The Cholera carnival extends through space of three years. Last year was the initial year in the Western Hemisphere.

We should prove remiss in duty were we to fail to raise the voice of warning to the general public. Cleanliness and health abide together. Filth and peatilence occupy the same bed, and pestilence abideth not with cleanliness a day and a night.

"But you raised the voice of warning last year; and the cholera did not come after all." That is true, as regards Tioga county; but the scourge touched the seaboard cities, halted, sporadically, in lesser inland towns, and found work to do in the uncleansed slums of the proverbially dirty cities of the West, where it slew thousands.

New York escaped decimation only because of its efficient Board of Health. For once in its history that city was tolerably clean. The same is true of Philadelphia, and other seaboard cities.

vent of cholera. The defences were built high last year, but they will need an evidence that the La Crosse monster building higher this year. Where you washed once last year you must wash twice this year; where you used one bound of lime and copperas then, use two now; and where you swept then, you should serub now.

We address farmers as well as villag ers. None can hope to escape the penalty affixed to wanton violation of the laws of health. Death can go wherevown or country, palace or but of logs.

We can speak from observation; for t so happened that we saw the ravages of cholera in 1849, both in New York and in the country. The most frightful saw, was in the country, not more than six miles from the sea, and on table land overlooking the Atlantic. The lo cation was healthy, but the local influences were the reverse.

Desirous of the prevention of epidem c diseases in this county, we submit the following schedule of precautions to be observed by householders in town and country, if they would discharge a plain duty :

1. The premises should be thoroughly cleansed and whitewashed, as early as may be practicable.

2. Drains to carry off waste and slops should be opened and cleansed with lime. Vegetable waste from cellar and kitchen should be scattered afar from dwellings, unless fed to the cows. 3. The accumulated waste of winter,

lying about back premises, should be tion measure was introduced. It descrupulously cleaned up and carted to clares the State governments in Virthe garden. 4. Privies and water-closets should b

thoroughly deodorized with chloride of lime and copperas: Alb of the lime to

lime standing on the cellar bottom constantly. Every vestige of vegetable waste should be removed from the cellar at once.

6. Personal cleanliness, through use of water, is a great preventive of bowel diseases; a towel bath on arising in the morning is better than a full bath. It is also well to abstain from all salted fy a greater curtailment of the currency meats in the spring of the year. Salt is a stimulant, and its excessive use is weakening to the stomach and bowels.

CONGRESS.

Feb. 1. The Senate passed the bill regulating the organization of the House by a vote of 31 to 6. The bill provides that the clerk of the House shall enter upon the rolls only the names of Representatives from States represented in the previous Congress. The bankrupt bill was taken up and discussed, but without reaching a vote.

`The House took up the tenure of office bill. The Johnson men opposing it as an encroachment upon the Constitutional rights of the President. An amend ment prohibiting the President from removing Cabinet officers without the consent of the Senate, was defeated by a vote of 76 to 78.

reading and passed finally. There is a bill before the Legislature to provide for the better and more impartial selection of jurors in the several courts of the State. We present a brief digest of its provisions, as follows:

the same as the County Commissioners.
6. Penalties for refusing to serve.
7. Court to appoint persons to fill vacancies occurring from death and resignation.

We regard this measure as eminently just and proper in its object and direction. The present system is vicious and should be abolished. The selecand should be abolished. The selection of jurors ought not to be subject to political bias in any respect; and we believe that it is as little subject to bias of that sort in Tioga County as it would be under the proposed law. Still, we object to excepting any County from the operation of the law. Let it be perfected and passed, say we.
