MANSFIELD.-Our Mansfield neighbors had a most enthusiaatic Temperance meet-ing last Wednesday evening. Maj. W. A. ago, without capital, and while the political com-plexion of the county was decidedly adverse to its success. From the start, however, we had no doubt of the result which places Trogs at the head of Republican counties. The paper, as then published, was little more than half its present size, illy supported by business men, and a dead loss to us, as far as compensation for labor be-stowed was soneerned. It had not 500 paying subscribers, and the good-will was nothing.

Our friends will get an ides of the growth of business in this county from a brief statement which we here make: The paper used for the entire edition in 1854-5 & 6 did not cost so much as the additional paper used in the present size In other words, laying the old size upon the present, and cutting off the enlargement, you would have more money in the waste thue made than the entire edition cost, then. The type used now for reading matter, is an annul as that used for advertisements, and that now used for adver-tising is one and two sizes smaller than the type used for the same purpose at that time.

Our white paper bills were then about \$4 per

week Now, they-vary from \$20 to \$25. Of course, the enormous prices now asked and paid for paper, go largely to make up this increase. The Jobbing at that time did not average on day's work per week. It now requires about five

Then, we occupied a 100m 22x20. Now, we find an office 20x50 too small to accommodate our business.

We allude to these facts not in a boasting spirit, but to show the growth of business in Tioga county: for the measure of every kind of productive benines in the county.

We believe it was Arrandale & Co., of New Yorkhough we guess the name is all the police can find of the firm—who wanted a column of the Agitator in which to display guild birt for the poor greenhorns of Tioga County. We were tempted wo in for a piano worth \$600 as the price of olama directisement : but just they we happened to generalize that Arrandolo & Co., could have offered us \$100—the regular price of a column—and so saved themselves \$550. This looked suspicious, and we returned the proposition with the reply-" not at any price, gentlemen."

When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs incident to our climate. While many inferior remedies thrust upon the community have failed and been disearded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced curse too numerous and too remarkable to be forgotten.
