A NEW PAPER. We have received the first number of The Lycoming Standard, published at Williamsport by Col. L. L. Tatr, formerly of the Columbia Democrat. The Standard is a remarkably neat and compact looking sheet, and shows a great deal of industry in its columns. I.Whether Lycoming County can support seven papers or not, remains to be proved. The Standard is the ablest of the Democratic Journals in that county, certainly. We should have recognited the Colonel in the salutatory even without

the publication of his name. COMMON Schools.—Teachers' examinations will be held as follows: Clymer, (Sabinsville.)

PATENT WHITE WIRE,

CLOTHES LINES.

We beg leave to call the attention of the pub lie to an entirely new quality of Wire known as White Wire, possessing a centing which prevents it from ever certading or turning from its uniform whiteness during any number of years and or which Letters Patent bus been secured. It has been found to be the only article suitable for a clothes line, except the old-fashioned rope or cold, which always gives so much trouble and annoyance by breaking, rotting out, and discoloring clothes, and by being abliged to put it up and take it down every time used. With this Wife Olothes Line you have none of these annoyances. ances, and when it is once put up it gives you no more trouble until the stakes or posts rot down to which it is attached. After using it we are confident you will fully corroborate the statement of thousands of others in its praise. Over 300

000 lines already sold, and every family should and will have one. It will not change, though you may keep it under water for any length of time; hence, you see, it cannot discolor like a rope or cord. Size of Wire, No. 9. Six Reasons why every family should

have one of these Patent White Wire Clothes Ist. You never have to take it in no matter what the weather may be; the weather cannot Box, Bottle, and Flask, before you buy. affect it.

2d. It will last from twenty-five to fifty years

ta rope line.
4th. You cannot load it heavy enough with

clothes, and the wind never blows strong enough to break it.

5th. It does not in any way discolor or injure olothes that are hung upon it.
6th. It will save its price in saving you trouble and annoyance every three months you own it. The Wire is annealed before coating, which makes it very soft and tough. It can never be broken in the use for which it is intended. Price four and a half cents per foot. Usual amount for a good line, 75 to 100 feet. Clothes are fastened to it with the common lothes pin.

THE WHITE WINE CLOTHES LINE .- Among the special annoyances of the washing day are to be reckened high up the list the ill adaptation of clothes lines. The old cord or rope has done much good service; but what with its breaking, rotting out, discoloring the clothes, and the annoyance of putting up and taking down each week is not quite a perfect article. A substitute is now offered in the "Patent White Wire Clothes Line," for sale by the American Wire Company, 149 Broadway. The peculiarity of this wire is in its coating, which, it is said, never becomes broken. We have seen it used, and find that it gives entire satisfaction.—N. Y. Christian Adve-
