MANSFIELD.-A meeting in the interest of Tomperance Reforms was held in the Methodist Church, Mansfield, Friday evening, 5th inst. The Church was crowded and the occasion impressive. Earnest and spirited appeals were made by Rev. H. Lamkin, and Prof. F. A. Allen. The Temperance men of Mansfield have put on the harness and taken hold of the work Edwin Stickley, with an earnestness of purpose truly gratifying. The Normal School entered upon its present term with encouraging prospects. The teachers ing their duties with a fidelity which cannot fail Delta Kimball, are thoroughly carnest men and women, dischargof its reward. The Seminary building is being fitted up with the modern conveniences as rapidly as circumstances will permit. The impression

ABSCONDED .- Col. Theodore Moore, Banker, of Addison, absconded on Tuesday last week, carrying with him about \$30,000 which was mainly the deposits of widows, orphans, and men of small means. It is now quite certain that he came to Addison with little or no capital, and with the express design of swindling the community. As he was about taking "French leave," the citizens dragged him from the cars, and compolled him to disgorge about \$1,500% and an attempt was made to detail him permanently. PATENT WHITE WIRE,

We beg leave to call the attention of the pub-lic to an entirely new quality of Wire known as White Wire, possessing a coating which prevents it from ever corroding or turning from its uniform whiteness during any number of years, and on which Letters Patent has been secured. It has been found to be the only article suitable for a clothes line, except the old-fashioned rope or cord, which always gives so much trouble and annoyance by breaking, rotting out, and discoloring clothes, and hy being deliged to put it up and take it down every time used. With this Wire Clothes Line you have note of these annoyances, and when it is once put up it gives you no acre trouble until the stakes or posts rot down to which it is attached. After using it we are confident you will fully corroborate the statements of thousands of others in its praise. Over 300,of thousands of their in the plants of thousands of their sold, and every family should and will have one. It will not change, though you may keep it under water for any length of time; hence, you see, it cannot discolor clothes like a rope or cord. Size of Wire, No. 9.
