THE ACADEMY.—The current Term opens with encouraging prospects. Upwards of seventy schollars are in attendance, inany of them being well advanced. By the advertisement it will be seen that the Principal adoquaces this as the last term under the present Faculty, and promises to make it the best. Students may diter at any time by special arrangement.

NEW Music.-We have received from O. Ditson & Co., 277 Washington St., Boston, the following named pieces of Sheet Music: "Fall of the Leaf Waltz;" "Somebody's Darling Slumbers here".—Song;" "Fairy May Polka;" "Champagne Charlie was His Name"-Song; "The Little Way-side Station"-a Ballad; "Sweet Flower"-Ballad. These pieces are very choice.

FIRE IN TIOGA.-At about ten o'clock last Thursday morning fire broke out in a barn upon the farm of John I. & T. B. Mitchell, in Tioga township, and raged until three barns and other outbuildings were destroyed. Luckily, than \$1000. No insurance. The fire is believed to have been incendiary.

IMPROVEMENTS .- W. H. Smith, Esq., is titting up his new office in most convenient and substantial form. The unsightly book cases and desks which commonly disfigure Lawyer's offices will not be seen, but in place thereof attached , book cases, groups of pigeon-holes, and a series of drawers, will accommodate the books and papers, and a generous table will occupy one side for purposes of business.

Under the head of "Potter county Witnesses," the Venange Republican tells us that not long since a lawyer friend of ours had occusion to arbitrate a cause, on the cast-fork of the sinn to arbitrate a cause, on the cast-tork of the Sinnematoning, in Potter county. The tough swearing of the witnesses on the other side prevailed against him, and he lost his suit. He was condoided by a mative, who said to him: "Why in h—II didn't you let me know you was comin'? Knox" (the other lawyer), he come on here a week ago, and had his pick of winesses."

EAST CHARLESTON CHEESE FACTO-RY .- We are requested to give notice to the patrons of this Cheese Factory that they can commence delivering milk Tuesday morning, May 7. The milking of the night before should be brought with Tuesday morning's milk. A report of the operations of the Factory will be published every month during the season.

Managers-W. V. Bailey, and Elias Tipple. Oversedr-Miss R. Clark, of Whitesville, N. Y. Assistants-Charles Close, formerly of Round Top Factory, and Miss Baker, of Charleston.

REMOVED.-Hugh Young has removmoved his Jewelry Store to the same location.have fitted up in a neat and becoming manner, and the appearance is that of the old concern condensed. The Shop makes a brilliant show in the evening.

—By the way—Foley has received a nice lot of plated ware, bronzes, and new style clocks.

"WOMAN'S WORK IN THE CIVIL WAR."—This record of heroism, patriotism and patience, is just issued under the sanction of the Sanitary and Christian Commissions, and is the work of Ir. Brockett. It will be the standard work on the subject, and will commemorate the strings of about 200 Level 200 services of about 200 ladies during the war of the rebellion. It is illustrated with numerous steel postraits and engravings, is beautifully printed and bound in superior style. It is sold only by subscription through canvassing agents. Mrs. Weltha Brundage is the agent for Tioga County. This is and oubtedly the best work of its kind vet published. It is more minute and general in its notice of women of the war than any of its

give up the use of the implements and grounds granted to them on all days, except the days for playing match games, in order that volunteer games may be played as heretofore by all the that whenever it is desirable." To CHEESEMAKERS.—We are obliged to Mrs. H. Brooks for a sample of skinmed-milk these made about the middle of Just October, and cut about the first of last mouth. The cheese

was taken to make 8 lbs. of butter, and from the skimmed milk a choese weighing 16 lbs. was made. The sample sent us would not be taken to be skimmed cheese by any means, not being at all of the white-oak, order. The flavor is fine, a peculiarity of all theese from Mrs. B's dairy. We make a note of this as a hint to our cheese tactory people who are soon to begin the work of the season. We repeat our last year's declaration, that cheese made from milk of which the night's portion has been once skimmed and put in with

the new morning's milk, is more easily and uniformly cured, easier to take care of, and ten per cent. better for table use. To put in all the cream makes the choese unwholesomely rich, and unless great care be observed, increases the risk of damage in curing. Of two samples, -one skimmed, and the other with all the cream put in, we, as a purchaser, will pay the higher price for the formtr in market.

EDITOR OF THE AGITATOR - Dear Sir: In your article — "Sunday — Sabbath — First Day," you say, "Sunday is the Christian Sabbath; and as regards its observance as a day of worship, we leave that branch of the subject to the clergy, whose province and privilege it is to discuss it. Your object appears to be to express sympathy with the Press, but the sentence quoted seems to put you on the wrong side of the tence. If I am lightly posted to rightly posted the Press has never persuaded any person to ride on street cars on Sunday who thinks it wrong. Gossip.-A newspaper is the true miror of the times in which it is printed. Here is copy of The Lycoming Gazette, published on he 10th of March, 1819, or 48 years ago. It is a dingy brown sheet, one-quarter the size of The

Agitator. The number contains the annual Statenent of the Commissioners of Tioga County, who were Asa Mann, Elijah De Puy, and John Ryon, Ir. David Lindsay was Commissioners' Clerk, W. D. Bacon and Isane Baker were Auditors, and John Knox, Treasurer. There were eight townships in the county then, and the apportionment of taxes for them was as follows:

Delmar, \$1349.65; Decrield, \$459.85; Elkland, \$354.46; Lawrence, \$283.88; Tioga, . \$236.87 Covington, \$626.66; Sullivan, \$427.50; Jackson, \$252.95: or a grand total of \$5893.20. Among the expenses we note \$136 hounties for panthers' and wolves' heads.

The editor of the Gazette tried his hand at waggery, it seems. Speaking of a hog weighing 1000 pounds, he ventures to suggest that most people think it a "great bore." We find an item. of news to the effect that his Excellency the Vice President, while walking on his piazza the Sunday evening previous, fell over a wheelbarrow and dislocated his shoulder. Messrs. Torbert & Lewis were the publishers. We are indebted to . Emery, Esq., for the loan of the paper.

-Mr. J. P. Hall, who writes to have his pape sent to Nelson, does not remember to write where he now gets it. There are many names so similar on our books that we cannot 'decide which is which. If Mr. Hall will write us, where he has lately got his paper, it shall be sent to Nelson as ne requests. This reminds us that subscribers are apt to make a similar blunder. Not long ago. we got a note requesting the address of a paper changed; but unfortunately the writer neglected o date or sign the letter, nor did he say where the paper should be sent. Another, living away n California, sent us \$1, for a year's subscription, and said that he would send more if that was not | and that of Posterity, depends upon prompt use of enough. We gave him eredit for two years in advance, not deeming it best to risk his money on the return trip. Another person asks us to print him the Weekly Press for one year. Cannot do it at any price. The Agitator is enough for us, most of the valurble property usually stored let alone so big a paper as the Press. Another, therein had been taken out. The loss is not less matheureux, sends a notice warning everybody not to trust his fugacious wife. He forgot to send the \$2, and will not see his name in print therefore. Hereafter let it be understood that such advertisements must be accompanied by the

eash, to wit—\$2. -

The Magazines. Harper.—The May number of this Magazine is as welcome, as, though somewhat in advance of, May flowers. "The Pictured Rocks of Luke Superior." The History of the Secret Service during the Re-hillion. By General L. C. Baker, late Provost Mar-hal and Chief Detective of the War Department. Philadelphia. P. Garrett & Co. This is decidedly the most interesting and ab sorbing book of the day, revealing as it does pha-ses of our National Ristory, hitherto sedulously concealed from the knowledge of the public.

During his five years directorship of the Secret
Service Bureau, General Baker learned some
strange things, and took an active part in many dangerous and at the time very important enter-prises. All these secrets are now brought to light

some of them rather compromise gentlemen nov occupying highly responsible positions; but the and cut about the first of last mouth. The cheese was made at an experiment. From seven pails of milk, weighing about 190 lbs., effent chough was taken to make 8 the of butter and from the

ception until the execution of the guilty Conspir-ators. There is much that is new, curious, and interesting, divulged in this connection. The work is complete in one handsome octave volume of 700 pages, printed in a superior manner, on stout white paper, and illustrated with seventeen fine engravings, among them a steel portrait of the author, and a faithful representation of the burial place of J. AN INVALUABLE REMEDY

THE PURIFYING OF THE BLOOD. DR. J. W. POLAND'S:

HUMOR DOCTOR. A Positive Remedy for all Kinds of Humors, particularly ERYSIPELAS, NETTLE RASH, SALT RHEUN, Schofula, Carbuncies, Boile,

It is very gratifying to say of this, or of any other medicine, "It is the very best remedy known." It is not always so easy to prove it. It is, however, exceedingly gratifying to the Proprietor of this medicine, that, while he de clares to the public that this is a most wonderful and effective specific for Humors, as stated above. and effective specific for Humors, as stated above, he has abundant proof at hand to sustain his For sixteen years the Humor Doctor has been For sixteen years the Humor Doctor has been manufactured and sold, and every year has increased the value of its reputation, and the amount of its sales. In New Hampshire, where it originated, no remedy for humors is so highly prized. An eminent physician (now an army surgeon) when practicing in New Hampshire, purchased between fifty and sixty gallons of it, during some seven or eight years, and used it in his practice. He has since then ordered it for the bespital where he was stationed. Other physychans have purchased it, and have used it in practice with great success. When the proprietor lived in New Hampshire, at Golfstown Center, for the space of thirty or forty miles around, and in Manchester particularly, the Humor Doctor was well known and highly valued for the nuwas well known and nightly valued, for the hit-merour and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purcha-sers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with—and they were cured! Erysipelas sores, or carbuncles, those ugly painful ulcers, were entirely removed wherever this medicine was faithfully used. So it was with Screenla and

Salt Rhoum. The Humor Doctor oured them.
For the sake of showing what is thought of it, a few testimonials are here inserted: Milton Gale, Esq., Boston,

I hereby certify that I was sorely afflicted with Boils for two years, developing themselves upon my limbs and other parts of my body. The sufferings which I embraced troin them are indescribable. Suffice it to say that I faithfully tired several of the most popular humor remedies, but without removing the affliction. At length, by the earnest requect of an intimate friend, I was induced to try Dr. J. W. Poland's Humor Doctor, and am very happy to attest that all my Boils were removed, and my health was restored by using Dr. Poland's aforesaid medicine.

A. C. Wallace, Esq., Manchester, N. II. Dr. J. W. Potand—Dear Sir ! I very cheerfully give my testimony in favor of your Humor Doctor as an excellent remedy for Humors. My numerous acquaint-ance in Manohester know, how severely I was afflicted with Boils and they know how perfectly good my health is at present. Your Humor Doctor curgd me. Please refer to me for particulars in my case.

Mrs. Wheeler, Stoneham, Mass. Mrs. Wheeler, Stoneham, Mass.

I very confidently and enruestly recommend Dr. J. W. Poland's Humor Docter as an excellent remedy for Humors, having been wonderfully benefitted by it myself: My own case was a very severe and obstinate one. For more than two years the skin upon the inside of Soth my hands, and even down on the wrist, was constantly cracked and broken up, so that I was anable to use my hands in any kind of wet work, and was obliged to wear gloves in sewing to avoid getting blood upon my work. The humor which so afflicted me was probably a combination of Erysipelas and Salt Rhoum. My general health was quite poor. Soon after I began to use the Humor Doctor I could perceive signs of healing. I continued to take the medicine till I was finally cured, My hands are bow perfectly free from humors, and to all appearances my whole system is clear of it, and has been for several months. I used eight bottles before I felt safe to give it up entirely, but they cared me.

DR. POLAND: I received your letter inquiring as to the effects of your medicine on sea-sickness. I am happy to say that I think it is "the medicine" for that dreadful sickness. I tried various prescriptions, but found none that settled the stomach and cleared the head like the Humor Doctor. I felt as though I could be added to the stomach and cleared the head like the Humor Doctor. head the the humor boctor. I let as though I contain hadly wait to get ashore, to entreat you to introduce it into ship chandledy stores, that it may find its way to those who suffer upon the mighty deep from seasickness. THIS new Compound, prepared by a practical Chemist, having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind every et offered to the Public as an external application for the diseases for which it is recommended. Whare satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by farriers, and all who have tried it, to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the Public that I sond it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse, is subject.

HARRAH'S NATIONAL GATE

[Patented September, 20th, 1861.] .

ITS CLAIMS ARE:

many gentremen who have valuable horses, and are un-willing to trust them to the care of designing and pre-tended Farriors. Their wishes are at length fully grat-ified, by (Dr. Beale) being prevailed upon to allow this Embrocation (which has proved so effectious to the various diseases) to be prepared and brought out to the publics?

1. The most common workman or a farmer can build it.

2. It is made of all sizes, and is perfectly adapted, to all Gate purposes, whether for cattle 3. It requires no hinges, and cannot be blown

open nor shut.

4. It does not swag the post, and the Gate itself cannot sag.
5. Breachy stock cannot open it.
6. It cannot be driven against when open.
7. It is not obstructed by either rain, sleet or 8. Being built without mortise or tonon, i

rosts but little more than a pair of good bars.

9. It is stronger than any other gate built of an equal amount of lumber, and its strength is

auní upon both sides. 10. It is the cheapest, neatest, and most convenient and durable Gate in use. During the full of 1885, the National Gate has received the highest award at SEVEN STATE and some SEVENTY COUNTY FAIRS, and in competition with other Gates, it has taken the FIRST PREMIUM in every instance. It challenges the whole list of Gates to a price ical test, throughout all seasons. The National Gate has received the unquali-fied approbation of all who have used it. These Gates, including Posts, are built at a cost of \$4 to \$8, according to workmanship and material used. Their manufacture insures a profitable investment of capital, as they com-mand a ready sale at from 60 to 100 per cent. rofit; and it is perfectly safe to put them up at all times under a warrant, as they have in no cas ailed to give the fullest satisfaction.

PATENT WHITE WIRE,

CLOTHES LINES.

We beg leave to call the attention of the public to an entirely new quality of Wire known as White Wire, possessing a coating which prevents it from ever corroding or turning from its uniform whiteness during any number of years, and on which Letters Patent has been secured. It has been found to be the only article suitable for a clothes line, except the old-fashioned rope or cord, which always gives so much trouble and annoyance by breaking, rotting out, and discoloring clothes, and by being obliged to put it up and take it down every time used. With this Wire Clothes Line you have none of these annoyances, and when it is once put up it gives you no more trouble until the stakes or posts ret down to more trouble until the stakes or posts rot down to which it is attached. After using it we are confident you will fully corroborate the statements of thousands of others in its praise. Over 300,000 lines already sold, and every family should and will have one. It will not change, though you may keep it under water for any length of time; hence, you see, it cannot discolor clothes like a rope or cord. Size of Wire, No. 9.

Six Reasons why every family should have one of these Patent White Wire Clothes

Lines: Ist. You never have to take it in no matter what the weather may be; the weather cannot 2d. It will last from twenty-five to fifty years at least, and during that time you will wear out fifty ordinary lines, besides suffering an untold amount of trouble and annoyance with them. 3d. It is the cheaport Line in the world, to say nothing of its great convenience. A good rope line costs about 2 cents per foot, and this nly 44 conts. This will last a life time, while hat with good care will last about a year. This Wire, at 25 cents per foot, would be cheaper than

a rope line.

4th. You cannot load it heavy enough with clothes, and the wind never blows strong enough 5th. It does not in any way discolor or injure lothes that are hung upon it.

6th: It will save its price in saving you trouble and annoyance every three months you own it. The Wire is annealed before coating, which makes it very soft and tough. It can never be broken in the use for which it is intended.

Price four and a half cents per foot. Usual amount for a good line, 75 to 100 feet.

Clothes are fastened to it with the common

FROM THE PRESS. The following editorial notices from the Triane, Independent and Christian Advocate, are uong the many newspaper testimonials which we have received, but space will not allow us to ntroduce more here: The American White Wire Clothes-line, is a

superior article in its way. It does not injure solothes, and is almost indestructable. Every ousowife should use it. We are now using it. V. Y. Tribune. The Patent White Wire Clothes-line, is all it. purports to be-a most indispensable article. It loes not injure the clothes, and never wears out.
Every house will ultimately have it.—N. Y. In-

THE WHITE WIRE CLOTHES LINE .- Among the special annoyances of the washing day are to be reckoned high up the list the ill adaptation of clothes lines. The old cord or rope has done much good service; but what with its breaking, rotting out, discoloring the clothes, and the an-noyance of politing up and taking down each week is not quite a perfect article. A substitute is now offered in the "Patent White Wire Clothes Line," for sale by the American Wire Company, 119 Broadway. The peculiarity of this wire is in its coating, which, it is said, never becomes broken. We have seen it used, and find that it-gives entire satisfaction.—N. Y. Christian Advo-
