crowded away one of the good ones and came up and looked me in the face, and instantly all of the good actions, and all of the fairies became devils of bones and hair out of my head. And inside of me, until I was so full of misery that I prayed they might kill me at once, and when I tried to tell them so, it was like as if my head would burst asunder. As I can't tell you how happy I was before, so I can't near tell you how I suffered now. I had heard a great deal about hell, and I thought I was there for certain. Sometimes the devils inside of me would be fire and burn me, and then they would be an ocean, and I would be drowning. And when I seemed to be suffering the most, all of a sudden I came sort out of it, and the boys were standing about me and the boys were standing about me and rubbing me, and trying to bring me to life, and then I knew that I had been nearly drowned, but they had saved me. But I tell you as I told them, if I should ever come so near drowning again don' try to save me, for I had ten thousand times rather die feeling like I did when I seemed in paradise, than to be brought to and suffer all the torments I did afterwards.—Milwaukee Wisconsin.

Precious.—An urchin leading a small dog along the streets some days ago was accosted by a gentleman as follows:

Give him some good name. Call him "Weil; then, name him Andrew Johnson."

"I won't do that neither, for that would be disrespectful to the dog." Prefer that glory which endures to all

eternity.

Wellshoro, Feb. 20, 1867-11.

PATENT WHIPE WIRE LAPEX67ES,

CLOTHES LINES.

We beg leave to call the attention of the pub-

in to an entirely new quality of Wire known as White Wire, possessing apparing which prevents it from ever corroding or turning from its uniform whiteness during any number of years, and on which letters Patent has been secured. It has been found to be the only article suitable for a clothes line, except the old-fashioned rope or cord; which always glyes so much twouble and annoyance by breaking, rotting conf. and discol, oring clothes, and by being obliged to but it up and take it down every time desd; With this embracing all the novelties as well as the suband take it down every time deed. With this Wire Clothes Line you have none of these annoyances, and when it is once put up it gives you no more trouble until the stakes or posts rot down to which it is stitched. After the pipe it was a federal fident you will fully corroborate, the statements of thousands of Athers in its praise. Over 300, 000 lines already sold, and every family should and will have one. It will not change, though you may keep it under water for any length of time; hence, you see, it cannot discolor clothes time; hence, you see, it cannot discolor clothes like a rope or cord. Size of Wire, No. 9.

Six Reasons why every family should have one of these Patent White Wire Clothes OLOTHS & CASSIMERES in the county

Ist. You never have to take it in no matter what the weather may be; the weather cannot affect it.

at least, and during that time you will wear out fifty ordinary lines, besides suffering an untold amount of trouble and annoyance with them.

3d. It is the cheapest Line in the world, to say nothing of its great convenience. A good rope line costs about 2 cents per foot, and this only 41 cents. This will last a life time, while panie in that with good care will last about a year. This panie in Wire, at 25 cents per foot, would be cheaper than prices.

4th. You cannot load it heavy enough with clothes, and the wind never blows strong enough 4th. You cannot load it heavy enough with clothes, and the wind never blows strong enough other store dan or dare compete with us in quality and price. For further particulars call at the store of the olothes that are hing upon it.

Sth. It does not in any way discalor or injure clothes that are hing upon it.

Sth. It will save its price in saving you trouble and annoyance every three months you own it.

The Wire is annealed before coating, which makes it very soft and tough. It can never be broken in the use for which it is intended.

Price four and a half cents per foot. Usual amount for a good line, 75 to 100 feet.

Clothes are fastened to it with the common clothes pir.

clothes pin. The following editorial notices from the Tri-bune, Independent and Christian Advocate, are among the many newspaper testimonials which we have received, but space will not allow us to ntroduce more here: The American White Wire Clothes-line, is a superior article in its way. It does not injure clothes, and is almost indestructable. Every housewife should use it.: Worke now using it.—

N. Y. Tribune. The Patent White Wire Clothes-line, is all it purports to be—a most indispensable article. It does not injure the clothes, and never wears out. Every house will ultimately have it.—N. Y. In-

dependent.

The White Wire Cloracy Light. Among the special annoyances of the washing day are to be reckoned high up the list the ill adaptation of clothes lines. The old cord or rope has done much good service; but what with its breaking, rotting out, discoloring the clothes, and the annoyance of putting up and taking down each week is not quite a perfect article. A substitute is now offered in the "Patent White Wire Clothes Line," for sale by the American Wire Company, 149 Broadway. The peculiarity of this wire is in its coating, which, it is said, never becomes broken. We have seen it used, and find that it gives entire satisfaction.—N. Y. Christian Advocate.

Address, with stamp, NATIONAL GATE CO., March 27, 1867-tf.

LATEST, FASHIONS DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)

SKIRT.

THE wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Billiptic Skirt, will be experienced particularly in all crowded assemblies, operas, carriages, ralicoad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as s silk or muslin dress, an invaluable quality in crincline, not found in any single spring skirt.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the duplex elliptic steel spring skirt for a single day, will never afterwards willingly dispense with their use. For children, Misses and young ladies they are superfor to all others.

They will not bend or brask like the single spring, but will preserve their perfect and grapeful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered; preventing them from wearing out when dragging down/stoops, stairs, &c.

The Union Elliptic is a great favorite with all ladies.

them from weating out when dragging down stoops, stairs &c.

TheD uplex Elliptic is a great favorite with all ladies, and is universally recommended by the fashion magazines, as the standard ekirt of the fashionable world.

To enjoy the following inestimable advantages in crinoline, viz: superior quality, perfect manufacture stylish shape and finish, flexibility, durability, comfort and economy, inquire for J. W-Bradley's Duplex Elliptic, or double spring skirt, and be sure you get the gen sine article.

aine article.

CAUTION.—To guard against imposition, be particular to notice that skirts offered as "duplex" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also notice that every hoop will admit a pin being passed through the center, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt. "Y For sale in all stores where finiteless skirts are said throughout the United States and elsewhere. Manufactured by the sole owners of the patent. factured by the sole owners of the patent,
