We are glad to know

hat the movement is a success. FIRE IN BLOSSBURG.-We learn in arectly, and not very explicitly that the tayerncuse occupied by John R. THE CONCERT.—The Concert in the Court House on Thursday evening, given by Mr. Rockwell and daughter, was extremely well atended. A COMMON DUTY.—The copious rains of the season have greatly assisted to cleanso villages of much pestilence-breeding filth which, under other circumstances, must have been removed by householders. However, something still remains to be done to put every village on a health footing. There is a great deal of waste still remaining in bulk, and the warm weather near at hand will soon make it apparent to the senses. Every householder who has a proper regard for the the health of his family and neighbors will at once set about purifying his sinks and drains. Perhaps the most noxious accumulation is kitchen slops and waste. Particular attention should be given to conducting this filth way from the premises. Unless the drains used for this purpose are connected with running water it is best to throw the slops broadcast upon the garden, and never too much in one place. It is to be hoped that our citizens will pay attention o this important matter without delay.

ABOUT FASHION. - How often we

have heard ladies remark-"they had better be

true!! Obedience to fashion is a greater transgression of the law of woman's nature, a greater injury to her physical and mental constitution, than the hardships of poverty and neglect. The slave woman at her tasks will live and grow old, and see two or three generations of her mistresses pass away. The washer-woman, with scarce a ray of hope to cheer her in her toils, will live to see all her, fashionable sisters die around her.— BENJAMIN-RUMSEY—In Sullivan, May The kitchen maid is hearty and strong, when her 26th, 1867, at the residence of the bride's father; lady has to be nursed like a sick baby. It is a by Rev. G. P. Watrous, Mr. Watson K. Benjamin, and truth, that fashion-pampered women are of Mansfield, and Miss Olive M. They live for no greater purpose in life—they accomplish no greater ends. They are dull forms in the hands of milliners, dressmakers and servants, to be dressed and fed to order. They dress noboby; they feed nobody; they instruct nobody; they bless nobody; they save nobody. They write no books, and set no rielt examples of virtue and womanly life. Who ever heard of any fashionable woman exhibiting any virtue and power of mind for which she became eminent? Read the biographies of our great and good men and women. Not one of them had a fashionable mother. They nearly all sprang from strong minded women, who had about as much to do with fashions as the changing clouds.

OBITUARY. -THOMAS SKELTON, of Dolmar, who was buried last Monday week, is entitled to something more than a passing tribute

of respect. Mr. Skelton was born in the village of Wilbertoyce, Yorkshire, England, in August, 1813, and was brought to this country by his parents, now living in Delmar, in the year 1844. The subject of this notice enlisted in Co. A, 149th Pa. Volunteers, Capt. Sofield, in the summer of 1862, being then about 19 years of age. He served faithfully until May 6, 1864, when in one of the terrible battles of the Wilderness, he received a gunshot wound in the right arm, and was sent back to Washington and assigned to Finlay Hospital .-Here he submitted to a resection of the elbow joint, it being thought | preferable to amputation; and lay for nearly a year hovering between death and convatescence. It was in the summer of 1865 before he was discharged and sent home, the wound still festering and discharging. During the first year of his detention in the hospital it was the privilege of the writer of this to see him every week, and to mark the heroic fortitude and patience which he at all times exhibited. From the day of his disabling togethed was the day of his disabling togethed was the privilege of the writer of this to see him every week, and to mark the heroic fortitude and patience which he at all times exhibited. So passes away another of the men whose lives have purchased the redemption of the republic from nieditated destruction by traitors. Thomas Skelton was a true patriot; and if any may claim remembrance of the living, his claim is equal and pre-eminently just.

Gossip.-The late departed Spring contained not even a line of poetry. From May first to the last, every day and every hour of the day, was strictly matter-of-fact. It was simply a question of steady wet. For thirty consecutive days there was rain during some portion of the 24 hours. We have nowhere seen stanzas addresed to Spring. Even the line of Thomson-"Come, gentle Spring, etherial mildness, come!" -has not been once quoted in the papers. Still. the desire that gentle Spring should come, has been overruling. The nice drives usual to be enjoyed by "lovers" were "postponed on account of the weather," and the usual out of door love-

making, so peculiar to the month of May, has, we suspect, been deferred till "leafy June." As for summer heats, the 29th of May was sufficiently exemplary

WITH corrupt or tainted Blood, you are sick all over. It may burst out in Pimples, or Bores, or in some active disease, or tr may morely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Ayer's Sarsaparilla purges out these impurities; it expels disease and restores health and stimulates the organs of life into vigorous action. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrolals, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Bolls, St. Anthony's Fire, Rose or Erysipelas, Tatter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases graph. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, it any, Sarsaparilla, but often no curative ingredient whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymarket, until the name itself has become synony-mous with imposition and chest. Still we call this compound, "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obliquy which rests upon it. We think we have ground for believing it has virtues which are irresistible by the class of diseases it is intended to cure. We can assure the sick, that we offer them the best alterative we

Ayer's Cherry Pectoral is so universally known to surples every other medicine for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced etages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them.

EMBROCATION. For all Diseases incident to Horses, Cattle, and

the Human Flesh, requiring the use of an External Application. THIS new Compound, prepared by a practical Chemist, having a full knowledge of all the medical yirtues of each nugredlent that enters into its composition, is warranted to exceed anything of the kind ever yet offered to the Public as an external application for the lilicenses for which it is recommended. We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it; to be the best application eyer used. This Embrocation has been put up for drs, and all who have tried it; to be the best application ever used. This Embrocation has been put up for
over digit years, and it is only through the increasing
demaid and urgent request of my friends and the
Public that I send it forth as the grand is medial agent
for the various diseases to which that holde and, useful
animal, the horse, is subject.

Many remedies have been offered to the Public under
different forms, some of these are injurious, others at
best of little use, and many wholly improper to answer the purpose for which they are recommended.

A judicious and really useful composition, free from
those objections, has therefore long been desired by
many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pre-

Their wishes are at length unly grat-fied. by (Dr. Beale) being prevailed upon to allow this Embrocation (which has proved so efficacious to the various diseases) to be prepared and brought, out to the orblic.
This Embrocation was extensively used by the Govenment during the war. Address, all Orders to DR. EDMOND REALE, .602 South Second Street, Philadelphia, Is. For sale by storekeepers generally. 174pr67-6m.
