To SCHOOL DIRECTORS.—The State Superintendent of Common Schools states that School-Directors are required to publish an annual statement of their receipts and expenditures; and a neglect to perform this duty subjects them to removal by the Courts, the same as a neglect of any other duty prescribed by law.

SUNDAY SCHOOL CONCERT.-We omitted to notice the monthly session of the M. E. Sunday School, Sunday evening, June 2 .-There was a good attendance and the exercises Philadelphia, addressed the School. These monthly sessions are becoming a marked feature of this prosperous School.

PERSONAL.+Mr. John B. Emery has just returned from a trip across the Plains, via San Francisco and the Isthmus. Mr. Emery left this village about a year ago, and has made good After a protracted and patient hearing of the peuse of his eyes and cars on his leisurely journey. His advice to young men is that if they are well of here they cannot better themselves in the Far West. Still, hundreds will try the experiment.

HYMENIAL.-We have received from Dr. C. V. Elliott, of Mansfield, a specimen of a beautiful Photograph Marriage Certificate, for which he is the general agent in Tioga County. The size is 14x19, and framed it would be an ornament to any room. The sample may be seen at Young's Book Store. Young people who propose to unite their lives and fortunes should supply themselves with a copy of this novel cer-

PUBLIC SPIRIT.-Mr. Isaac Wheeler, of Charleston, has planted maple trees along the roads passing through and along his farm. Mr. D. G. Edwards a neighbor, on the Welsh Settlement road, has planted the roadside by his place with apple-trees, of choice varieties, twenty in number. This is for the accommodation and refreshment of passers-by. These fine improvements are highly creditable to both parties, and

purposes, and timber for that purpose is not too plenty. Mr. D. G. Edwards, of Charleston, inly second to it. Both make fences which cattle a good one, and we hope it may be acted upon.

To SUNDAY SCHOOLS.—We have received from Mr. Jay Cooke, of Philadelphia, two httle pamphlets entitled-" The Teacher," and directory to the Sunday School teacher. From a carsory examination we feel warranted in commending them to Sunday School Superintendents as capital aids to the profitable secondart of Sanday Schools. Five books, at 10 cents each form the series. Address S. W. Thomas, 1018 Arch St. Philadelphia.

CHILD DROWNED .- We regret to announce the death by drowning of a little girl. daughter of Mr. Hickman Dorset, of Lamb's Creek, Wednesday, 5th inst. The little girl was observed playing upon the bank of the creek. about ten rods from the house, by the mother, who called for her to come to dinner. The child did not obey however, and some time afterward. on search being made, the body was found twenty rods below, in the creek. It is supposed that the tried to cross the creek where her father crossed but a few minutes previous, and fell in. The child was three years old.

Notice.-We deem it proper to assure the parties who have pledged themselves to promote disorder within the limits of the borough, that a pledge so fraught with evil consequences will not be permitted to be kept. Order will be regard to necessary cost. Especially do we wish it Papers to be read before the Association to be understood that free whiskey in the streets of this borough, or on the commons, will result in the prompt incarceration and just punishment of the offenders, without respect to porsons. The rule established and to be carried out to the letter, will be punishment to the offenders first, then to the instigators of the offence.

BASE BALL-MATCH GAME -We learn from the Secretary of the Keystone B. P. Club of this village, that the preliminaries of the Match Game between its 1st Nines and the let, Nines of the Nyrmal, B. B. Club of Man-field, are and vegetable growth. completed. The time dixed upon is Saturday. Jane 22, at Wellsboro; commencing at eleven A. 4. The rules of the zame are very rigid, no wind. The rules of the game, are very rigid, no profamily or disorder charge allowed on the grounds. It is to be hoped that the ladies will bonor the occasion by their presence, and we are requested to exist a cordial invitation to them, and all others who may be interested in the game. The contest will be vigorougand close, doubtless, but good humor will leaven manly competition.

PHENOMENON.—So many of our people as may like to witness a realization of the story of the reptile self-stung, and dying of itsown venom, must have been gratified by observing the conduct and course pursued by the intiday evening, 6th inst. Unless we very greatly overestimate the common sense of the citizens of Wellsboro, the disgraceful conduct of certain parties has settled the question of license in this porough for several years. The man who places an obstacle in the path of acknowledged reform, is either a very hold bad man, or an unconscionable coward. The act which furnished subject of comment during Sunday was the act, not of a very bold bad man, but of a very great coward. There can be no sadder commentary upon the noral condition of a people than an attempt to punish men who are striving to reclaim themelves and others from evil courses.

IMPROVEMENTS .- Watkins has setled his new hotel on its final foundations. This is to be a Temperance House, and will set as good

But we could not avoid thinking that Hon. Demas Barnes had

PHELPS—BACON—In Blossburg, at the residence of Dr. M. L. Bacon, May 20, 1867, by Rev. N. L. Reynolds, Mr. Chas. H. Phelps, of Corning, N. Y., and Miss Sarah A. Bacon, of Wellsboro. RIGHT.-We are glad to know that Mr. Barnes is a member of the firm sending the ground. The abuse should be promptly dealt with. CRIME.—The Raftman's Journal, published at Clearfield, in its last issue, gives what it the 2d inst., by S. S. Packard, Esq., Charles L. Whitman and Lovica A. Douglass, all of Cov-

ing the last ten days. There were thirteen riminal deeds, including rape, burglary, horsetealing, larceny, hog-shooting, concealing stolen goods, and aggravated assault. Clearfield county is fast overhauling Schuylkill county in the usiness of law-breaking. The latter county avérages about one murder a week, and robberies too numerous to mention. Both counties have been under "Democratio" rule for fifty years, at least; and we see no prospect of the residents were varied and interesting. Mr. Jaggars, of being secure in life and property unless they yield the reins to the Republicans.

No LICENSE.-The final hearing for he applicants for license to sell intoxicating drinks in Wellsboro, Mansfield, and Middlebury was held on Thursday afternoon, 6th inst., Judge H. W. Williams and Associate Veil on the Bench. titioners and remonstrants, by evidence and by counsel, the Court refused to grant license in the cases submitted, and revoked the license of E. R. Kimball on proof of violation of that section of the statute forbidding the sale of liquors t

The Court held, that under the law of 1867-it was bound to obey the voice of public sentiment, due regard to the weight and character of petitions for and against license being prescribed b the statute. The Wellshoro cases only, however, were considered under this rule, evidence of vio-Munsfield cases having been produced, in view of which the Court lind Bo option but to refer the matter of HOW LONG STANDING. Mansfield cases having been produced, in view of which the Court had no option but to refuse the licenses. The Court is entitled to the gratitude of the triends of temperance and order for thus extending the means of salvation from moral destruction to the young men of this region. ery father and mother of boys, every wife of husbands of intemperate habits cannot but apport ence a lively emotion of gratitude to the Conv for its prompt accognition of the will of the migjority, and the protection of society from a traffic fraught only with evil.

On the rendering of the decision of the Court, HEDGES.—This region is not fortunate | Mr. Holiday proceeded to dismantle his hotels of chough to have a sufficiency of stone for fencing | their signs, and otherwise to signalize his retiracy from the office of "mine host." The traveling and local public, however, will find ample and fams us that Whitethorn, which is indigenous to pleasant accommodation at the hotel of Mr. Erasthis country, makes a very superior live fence, tus Fellows, at the boarding houses of David and is extremely hardy. The Blackthorn is on- Hart, M. Scars, F. D. Bunnell, Israel Richards, and B. Monroe. Mr. Watkins is putting his howill neither browse nor pass. Gossip .- Sweeter than perfumed breezes from "Araby the blest," is the fragrance of the orchard bloom which lingers on the air, "How to Teach"-being works suggestive and and even penetrates into the open window as the clock denotes midnight. Skies as blue as those which canopy Italy, land of the vine, a sun as ardent as that of the northern tropies, and breeos as soft and bland as those which fan the waters of the Ionian Isles, make this month of June, 1867, memorable among its pastward trooping ward the tropies from a winter-land in a swift steamer, activing in flannels and awaking to put on linen and sombrero. For a week we have been watching the children, so long imprisoned within doors by the rains. They fairly bubble is prospering, and wish shim a large measure of over with joyous life as they scamper over the success in enlightening the Clinton public. It he nice grassplots, and pursue their harmless sports under the refreshing shade. And then, the vegotions, we see no reason why he should not so table world so promptly responds to the blanelevate the standard of morality in that county dishments of the summer sun, that the growth of grass, foliag , and crops is something wonderful. After all, the friend, of whose philosophy we made mention a few weeks ago, may reckon his nineteenth experience of a summer in every year. -"The evil that men do lives after them."quaint saying of one Will Shakepeare. Well, so does the good which men do live after them. But the life of the evil deeds of men is not as the life of the good deeds. The former may be limited by the efforts of those who survive the dier: but the life of good deeds is outwrought and added to, in spite of time, and change, and engcumstance. Evil deeds only live in theets; good ones exist as causes. A right action, ligwever triffing it may appear to the door, receive its im-

petus from the Supteme Good. So, workers in a humble way, do not despair of immortality. The door of good works for the love of good will live forever in the memories of true men and women.

The Magazines.

The June number of Harper seems not to meet the expectations of several cotemporaries, but on careful examination we regard it a first-rate number. The poems are better thin usual and the shorter storter stories equal to the average in the year. There is a finely illustrated article on the mining regions of the West, and the Easy Chair is very luxurious, as usual. \$4 per year. The Atlantic has not come to hand.

EMBROCATION.

THIS new Compound, prepared by a practical Chemist, having a full knowledge of all tile medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind ever yet offered to the Public as an external application for the diseases for which it is recommended. We are satisfied that it will work its own road into the confidence of all who used it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it, to be the best application over used. This Embrecation has been put up for over reight years, and it is only through the increasing demand, and argent request of my friends and the Public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful

This Embrocation was extensively used by the Government during the war. Address all Orders to DR. EDMOND BEALE.

burst ent in Pimples, or Sores, or in some active disease, or tt may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Ayor's Sarsaparilla purges out those impurities; it explis disease and restores health and stimulates the organs of life into vigorous action. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rhoum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilis or Venereal Diseases; Liver Complaints, and Heart Diseases. The Ayer's Sarsaparilla, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.

During late years the public have been misled by large bettles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative ingredient whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which mood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound, "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has from the load of obloquy which rests upon it. We think we have ground for believing it has virtues which are irresistible by the class of diseases it is intended to cure. We can assure the sick, that we offer them the best alterative we know how to produce, and we have reason to be-lieve, it is by far the most effectual purifier of the HAVE JUST PURCHASED a large stock of blood yet discovered.

Ayer's Cherry Pectoral is so universally known to surpass every other medicine for the cure of Goughs, Colds, Induenza, Hoarseness, Croup, Broachitis, Incipient Consumption, and for the relief of Consumptive Patients, in advanced etages of the disease, that it is useless here to recount the evidence of its virtues. For all Dispuses incident to Horses, Cattle, and the Human Flesh, requiring the use of an External Application. Public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse, is subject.

Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purpose for which they are recommended.

A judicious and really useful composition, free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unvilling to trust them to the care of designing and pretended Farriers. Their wishes are at length fully gratified, by (Dr. Beale) being prevailed upon to allow this Embrocation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.

DECOMING convinced that the wants of the people of this and adjoining counties war-, rant me in so doing, I have constructed at much expense, two finely arranged Hot Houses for propagating Grape Vines, Flowers, and all kinds of Green House Plants. I devote my whole time
