THE FAIR .- We had prepared a notice of the Horse Fair of the 3d and 4th insis., which, by some inadvertence, was miglaid, and its absence from the copy drawer only discovered when too late to prepare and put in type a substitute. The Fair was a failure as an exhibition of horses and as a pecuniary venture. We regret it, but hardly looked for a success. official report will doubtless reach us in time for

next issue. MANDERC. - Grand Officers - Sir Knights Knapp, McKean, Oranmer, Creigh, and Kecler, on Friday afternoon and evening, 5th inst., instituted a Council of Royal and Sciect Masters, and a Commandery of Knights Templars, in this village. The Youncil is entitled "Tyoga Council, No. 31;" the Commandery, "Tyaganton Com; nendery, No. 28."
The following officers of the Commandery were

listalled: R. C. Simpson, E. C. A. Poley, G. W. Roberts, C. G.

The San Francisco Churchman of May 16. under the head of "Episcopal Acts," records a visit of the Bishop to Petaluma, and says: "in the evening, after service by the Rectar, Rev. Goo. H. Jenks, the Bishop preached, confirmed 16 candidates and addressed them. This mide the total number 19, and it is the second confirmation in six months. They were all persons of mature years, some of them heads of famisons of mature years, some of them heads of families and persons of standing in the community.

Almost all the amembers of this cluss were a few months ago, members of the different sects.

"Since Mr. Jenke' residence in this parish the Church edifice has been doubled in size, and has not now a vacant pew. It will be soon necessary to make a farther enlargement of this building."

ACCIDENT AT HOLIDAYTOWN.-We learn that as Mr. Saiguel Maine, of Chathain, was crossing the bridge over Crooked Crock on his way home from Humphrey's Grist Mill, on Tuesday, 2d inst., with an ox team and wagen with a grist, the bridge gave away and precipitatel Mr. M., with his team into the creek below. The water was about ten feet deep. Mr. Maine saught at some of the timbers of the bridge and rated himself, though he was senseless when found. The wagon upset and spilled the grist into the creek, and the oxen swam out. This, was a narrow escape. The bridge, we learn, has been unsafe for some time.

FIRE AT LAWRENCEVILLE.-A destractive fire broke out in Lawrenceville at about Il ofclock of the 4th instant, resulting in the burning of ten buildings. The fire took in the tear of Turner's Dry Goods Store, and spreading up Main Street, caught and consumed the Stores of Mather & Horton, Leonard & Phippen, Drugs, Adams's Shoe Store, and Wheeler's Wagon Shop. From this point the wind carried the flames across the street to Slosson's Hotel which, with the barn's, was totally consumed. In the rear of Turner's Store was the meat shop and grocery of U. Baynes, which was also destroyed: The loss is estimated at from \$15,000 to \$20,000. There was little or no insurance upon the property destroyed.

This is a heavy loss to Anwrenceville. The fire is believed to have been kindled by freeracker. It caught near Bayne's Grocery, where a brisk trade in fire crackers was carried on during the day. Comment may be unnecessary. We are indebted to Mr. H. C. Bailey for these particulars.

THE FOURTH .- We have little report to make of the Fourth, no account of celebrations in detail having been received at this wrimng The largest gathering was at Tioga, conscraing which we hear much that is unpleasant. Several persons who were present inform us that for indiscriminate drunkenness they never saw its qual. Even boys of tender years were seen recling through the streets, and two estimates place the number of grossly intoxicated persons at one time as high as 200. The calcuf liquois in Tinga ts legalized, we believe, and in so large a crowd excesses are inevitable unless very great care is

We put a plain question: If the patriots of 1776 could express their views of the observance of the Fourth of July, do you supposed they would recommend drinking rotgut whisky? Dogs patriousm inhere in brutal drunkenness, or in the

word elevation of the people?" Furthermore, we affirm that a good citizen will not show himself in public drank. It is the pesular duty of the good citizen to set an example before boys in general which he would like his the better regulated portion of community.

Gossip.—We have to record one of altogether it must be counted the great success of those inverted; jokes which sometimes astonish the year. Address "The Nursery," Boston, their inventors, and which rather turned the ta"The Children's Hour," intended for children colored citizens is one William Elias familiarly known as "Bill 'Lias." William is deaf, and nearly dumb, and is not averse to crooking the elbow at the bar occasionally. Soon after the refusal to grant license in this borough, "Bill" was one morning observed pointing toward a former station for the sale of liquors. Quite a

show, asked for his bitters. "Can't have any. Hotel and the residence of Elisha J. Brown, a Bill : the temperance men have stopped license," was the reply. William was expected to perform some indignant profamity; but to the amusement of the crowd William straitened himself up and einculated with great unction: "Glad of it! man will preach the funeral sermon of James glad of it! Pizen! pizen! Kill you all! Kill you Mickle, one of the dead of Andersonville, at the all! Save money! save money! go home and Round Top School House, Charleston, Sunday, buy beeff buy beef! It | Lucla Deano 5, would not be difficult to prove that more powder | Carrie Deane 2, was hurned on the Fourth of July, 1867, than was burned during the entire Revolution by the Confinental army. Logically, we are impelled to rate the patriotism of the two periods at an equality. Powder being the measure of patriotism, and the language of joy, the patriotism of Wellsboro cannot be rated very high; for there was never less powder-burning here than on the occasion alluded to: This was the universal remark, | Carrie Williston, School House, Monday, July 15. enquixed of me when the Register and Courts would be ready to proceed in cases of backruptcy. I have to-day received a letter from S.C. McCaudless, Esq., Clerk U. S. District Court, under date of July 4, saying that his Honor, Judgo McCaudless, was then prescribing rules for our guidance, which would be ready in about ten days. That meantime, patitions might be filed with me, and upon my certificate that they were correct in form, and that the \$50 had been deposited with me, an order of reference would be entered. The Records will be kept at Putsburg. Parties deshing to make application may therefore do so at once. AYER'S Cathartic Pills

A RE the most perfect purgative we are able to produce, and as we think, has ever yet been made by any ody. Their effects have abundantly shown to body. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-cented, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspleion of untruth. Many eminent elergymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute impersals to the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute impersals to the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute impersals to the reliability of our remedience that the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute impersals to the reliability of our remedience the reliability of our remed

The Agent below named is pleased to furnish ratis our American Almanac, containing direc-ions for the use of these medicines and certificates of their cures of the following complaints:
Costiveness, Bilious Complaints, Rhomatism,
Dropsy, Heartburn, Headache arising from foul
stomach, Nausea, Indigestion, Morbid Inaction
of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system,
cure many complaints which it would not be supposed they could reach, such as Deafness, Partial
Blindness, Neuralgia and Norvous Trritability,
Derangements of the Liver and Kidneys, Gout,
and all other kindred disorders arising from a

(Late Powell's) EMBROCATION.

For all Diseases incident to Horses, Cattle, and the Human Flesh, requiring the use of an External Application. an External Application.

All IS now Compound, prepared by a practical Chemist, having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind over yet offered to the Public as an external application for the diseases for which it is recommended. We are satisfied that is will work its own read into the confidence of all who use it, and those who try it once will novel be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it, to be the best application eyer used. This Embrecation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the Public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse, is subject.

Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purpose for which they are recommended.

A judicious and really useful composition, free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pretended Farriers. Their wishes are at length fully gratified by (Dr. Beale) being prevailed upon to allow this Embrecation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.

This Embrecation was extensively asset by the Goy.
