

HOME MATTERS. WEDNESDAY, JULY 17, 1887.

New Advertisements. Rail Road Notices—Commissioners. Rules for Horse Fairs—Zola & Barker. Spec York Butcher—Amos Trumble. Light for the Market—Blakely & Huchell. Advertisement for Commissioners—Job Ford. The greatest Pain-Reliever in the World. A Card from the American Watch Company—Addison & Appleton. Chain Book Bindery—Fairman & Co.

Hon. GEO. BOAL, late Assessor of this District, died at his residence in Cecil County, on Monday, July 8. He was 71 years of age.

The "HERO" Fruit Jar, just received for sale at Roy's Drug Store, is the "king" of contrivances for putting up fruit. It is of like but better.

Lost—probably by Henry J. Boyd, a Hotel and residence of Eliza J. Boyd, a brass doorknob. The finder will confer a favor and receive a suitable reward by leaving it at the Agent Office.

REBY has received an elegant lot of jewelry from the city, and very reasonable. He has a reputation for cleaning silver which is about the best thing ever invented.

Mr. A. Russell requests us to notify all persons indebted to him that prompt payment will make the loss of his house and furniture safe forward at once.

FIRK IN CHAMBERS.—The house of Mr. A. Russell, about two and a half miles from Chambersburg, was on Saturday morning, and was totally consumed together with the contents. We have no particulars.

Mr. M. Conway made his appearance in court with his attorneys, J. H. Farley, causing a decided equation. The equities are most laudable, and we trust that the liberality of our citizens will render it remunerative.

SELECT SCHOOL.—Miss Emma Churchill will open a Select School in Cecil County, Main Street, Wellboro, Monday, July 22. Instruction in Common and Higher English Branches. Terms from \$2 to \$5 per quarter. Wellboro, July 17, 1887.

THE RAILROAD.—Elsewhere we published the notice for the opening of the stock-books of the Wellboro & Lawrenceville R. R. Company. We do not desire to encourage too sanguine speculations, but it seems not improbable that a variety of the route may be made during the season.

The first No. of the 15th volume of the Philadelphia Medical & Surgical Reporter has been received. This is a weekly Magazine devoted to the latest progress in the various schools, discussions, reports of hospitals, and transactions of Medical Associations. The article on Cholera in the current number is worth the subscription price. Dr. J. H. Bator and Dr. J. H. Bator are the editors.

A CAPITAL MAGAZINE.—The Philadelphia Magazine commenced its 46th volume July 1. It is an authority in Mental, Physiological, Therapeutic and Social Science, and one of the finest of illustrated Magazines, is not a one-sided publication, and is an invaluable Family Journal. It is the sturdy advocate of the Retention of Manhood, a fine educator, and ought to be on every reader's table. Price \$3 per annum. Address: R. W. Wells, 359 Broadway, New York.

NEW MOTIVE POWER.—Mr. Oscar Sly, of Rochester, N. Y., has had an exhibition for several days at the Wellboro & Lawrenceville Fair, a model of Fryer & Edmonds' new motive power for sailing, or for any other business where a crank motion is used. In place of the crank there is a pitman working in a wheel, which is at right angles to its outer surface. The guide is a bar that slides in a groove, and the motion of the outer traverses the rim of the wheel. The most of the most ingenious little machines that we have seen.

WHAT IS IT?—Mr. Samuel Domet, of Merit, has deposited, with an Indian, a specimen found in that township, very singular in its construction, ornamentation, and purpose. It is a hollow cone of red-stone, about five inches high, 1 1/2 inches in diameter at the base and 1 1/2 inches at the top. At the top of the cone is a hole which contains a stone stopper, which is fastened to the cone by a string, and is used to prevent the cone from being blown away by the wind. The cone is covered with strange hieroglyphs, representing the heavenly bodies, and is supposed to be a relic of the ancient civilization of the South American continent.

THE AMAZON.—The Weekly Philadelphia Press of last week contains the first two of a series of letters from the valley of the Amazon, written by our townsman, Mr. G. W. Sears. The letters are replete with information touching the South American tropics, and are descriptive of the Brazilian City of Para, of the mouth of the Amazon, reminding us of some of the letters of travel written by Bayard Taylor in his best vein. The series promises to be exceedingly interesting, and all who wish to secure their own copy should subscribe for the Weekly Press. A club being made up of subscribers, Sears & Derby, in this village, whose living office is at the range of the Postoffice can secure the paper at \$2.50 subscription, five copies for \$10.00 copies \$1.50, ten copies \$3.00. The paper up of a club of ten will receive a copy free of trouble.

THE TRIENNIAL ASSESSMENT.—This is the year of the triennial assessment, for the equalization of property values for purposes of taxation. That some equalization of values never necessary than at present, we suppose, is due to nearly every rational citizen. The work required to be done is of a very great importance to the Commonwealth and to the individual taxpayer. It is a work calling for sober judgment, strict fidelity, and unflinching honesty; and we presume the members of Cecil County selected their assessors last Spring with special reference to these qualifications. The law requires assessors to return property at its market value, or the probable cash value at public sale. Every assessor takes an oath to this effect before he enters his books, and the Commissioners. That law, or the assessor's compliance with the stipulation of their official oath is not those assessor's which must satisfy every thinking citizen. And were an assessor to make a return according to law, the Commissioners would be obliged to reduce it to the false standard of values which long neglect has established in this great Commonwealth. At present every Assessor takes the value of property as it was established by the triennial assessment before, as he is expected to do; and therefore, the assessor's attack upon the officers, but the vicious attacks which sometimes occur, and results in popular lawless interference.

It is time that this popular outrage was avenged, and that the assessor's return should be made to the assessor, and that the assessor should be held responsible for the same. It is a work calling for sober judgment, strict fidelity, and unflinching honesty; and we presume the members of Cecil County selected their assessors last Spring with special reference to these qualifications. The law requires assessors to return property at its market value, or the probable cash value at public sale. Every assessor takes an oath to this effect before he enters his books, and the Commissioners. That law, or the assessor's compliance with the stipulation of their official oath is not those assessor's which must satisfy every thinking citizen. And were an assessor to make a return according to law, the Commissioners would be obliged to reduce it to the false standard of values which long neglect has established in this great Commonwealth. At present every Assessor takes the value of property as it was established by the triennial assessment before, as he is expected to do; and therefore, the assessor's attack upon the officers, but the vicious attacks which sometimes occur, and results in popular lawless interference.

Let us look at some of the facts in the case: Let us look at the value of the property in proportion to the actual cash value. What are the facts? These: Real estate in Wellboro is returned

Local Trade. Go to W. T. SMITH'S BROS., Addition, N. Y., and buy your goods cheap.—They sell East Coast... (Text continues with details of local trade and prices for various goods like flour, sugar, and oil.)
