Enchsh: I. S., N. S. Kimball: O. S., T. Bush. The division was never better officered, nor i more efficient working order. And, we can say for it what can be said for few similar organizations-the Division has never failed of a quorum to thansact business every week of the first year of its existence. Of the good works it has achieved its membership is a living history.

We visited this establishment last week and saw a right worth seeing-about 60,000 lbs. of the nicest theese in market. The "make" will come up to about 90,000 pounds for the season. The proprietors are preparing to erect a main building of three stories for next year's work. They are making about 400 lbs. per day at present .-The managers appear to have made a perfect sucecss of their enterprise this year.

The village is growing finely. Avery is running his strain saw and shingle mill successfully The establishment is a credit to all persons concerned. A new School House 26x40 has been erected during the season and finished in most comfortable style. Of the church we can say that it is the neatest, as well as most roomy for its size, of any we know of. Success to the "Hub."

(Late Powell's) EMBROCATION. For all Discuses incident to Horses, Cattle, and

BEALE'S

the Human Flesh, requiring the use of an External Application. an External Application.

THIS new Compound, prepared by a practical Chemist, having a full knowledge of all the medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind over yet offered to the Public as an external application for the diseases for which it is recommended. We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by Farriers, and all who have tried it, to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of my friends and the Public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse, is subject.

Many remedies have been offered to the Public under different forms, some of these are injurious, others at best of slittle use, and many wholly improper to an suger the purpose for which they are recommended.

A judicious and really useful composition, free from those "objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them, to the care of designing and protended Farriers. Their wishes are at length fully gratified, by (Dr. Beale) being prevailed upon to allow this Embrocation (which has proved so effecations to the various diseases) to be propared and brought out to the public.

This Embrocation was extensively used by the Gov-

public.
This Embrocation was extensively used by the Government during the war. Address all Orders to DR. EDMOND BEALE, 602 South Second Street, Philadelphia, Pa. For sale by storekeepers generally. 17apr67-6m. MAT For sale at ROY'S Drug Store.
