Perilous Balloon Voyage Across Lake

An exchange informs us that an aeronaut named Thompson, who ascended recently from Toronto, descended safely near this city, the balloon having been taken by a strong upper current accross the lakes. Much anxiety was felt in Toronto as to Thompson's fate before the telegram arrived announcing his it need not be a "vexed question" a small chicartof to take them well, we will safe landing. Mr. Thompson gives the day longer, if the Republican party first to last; and then—well, we will following account of his adventure: will plant itself upon the correct prin-"The halloon ascended at 4:40, and from the velocity the balloon was traveling at, I soon perceived it was foolish to try to descend. It soon became evident to me that landing in Canada was out of the question, and that all arrangements inust be made to be driven across the lakes. The first thing, that struck me was to drop the grapuel to the full extent, 120 feet. This acted as a guide to the distance the balloon might be kept above the surface of the water; it being now Hark, and, by placing one hand on the rope; the effect of the grapuel striking the water was distinefly felt. We take ground for basing Suffrage ipon intelligence, ignoring all other accidents, such as color, property, and nativity.

The argument is this: all agree that he permanency of free institutions depends upon the virtue and integrity of the people; virtue and integrity are the fruits of moral growth and culightend reason; therefore intelligence must be the safeguard of the republic.

Admit this, and we proceed in the following order:

AYER'S Cherry Pectoral

prepared to meet the upgent need of a safe and reliable cure for diseases deahe
throat and lungs. A trial of many years has established the fact, that it is more efflections in tablished the fact, that it is more efficacions in pulmanary affections, than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain, France, and Germany, where medical solence has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies, in hospitals and other public institutions, where it is regarded by the attending physicians as the most speedy and agreeable remedy that can be simployed. Scarcely any neighborhood can be found where well known cases of discussed lungs, which had builted the efforts of the most skillful and experienced doctors, have been completely cared by it. There results are the most convincing proofs of the stage perior curative properties of this preparation; and to them the nuthors point with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the voungest, when administered into

ciously.

This health-restorer accomplishes even mere by prevention than cure. If taken in season, it heals all irritations of the throat and lungs, whether mising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from the neglect of them. Hence no tamile from the neglect of them. Hence no tamily should be without it. Influenza, Croup, Hoarse. noss, Whooping Cough, Pleurisy; Incipient Consumption, and other affections of the breathing organs, give way before this pre-eminent combination of medical virtues.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and dealers in medicines overwhere. nedicines everywhere.
