FROM COLORADO. -- Prof. Allen, President of the Tioga Co., Inst. of Instruction, acknowledges the receipt of a box of valuable Indian relics and ores from Mr. C. A. Dean, of Denver City. The Institute should elect him an honorary member.

PUBLIC CONCERT.-We are requested to give notice that the Musical Convention, which has been in session in this village for two weeks. will close by a public concert at the Court House, Saturday evening, Oct. 26. The Convention numbers 40 members and is a decided success .-Mr. Dartt is entitled to much credit, and deserves a liberal patronage wherever he goes.

ACCIDENT .- A correspondent at Mansfield writes us that Mr. John Phelps, clerk of the Mansfield Furnace, was badly burned in the face By an explosion of gas on the 5th inst. He was looking into the oven when the gas took five .-Mr. Phelps was doing well at last accounts.

REMARKABLE LONGEVITY-A TALL FABILY.-Judge Case, of Knoxville, writes us als follows: "Messrs. Isnac, Jonathan, and Harvoy amounted to 387 years; and the sum of their Statures was thirty feet, one-and-a-half inches!" We agree with the Judge that it will be difficult to had another ramily of five the sum of whose ages and statures will equal this.

new building under erection had already reached present. its third story, and was being rapidly pushed forward to completion. When finished, it will bela beautiful structure, substantially built, and an ornament to the county and builder, Mr. S. M. Broakman. We shall say more of the beauty, convenience, and finish of this building bereafter.

A Good Business .- Mr. S. B. Elliott. Deputy Assessor, Mansfield, sends us the following item touching business at Tioga: "The monthly return of Johnston' & Co., tanners, for eptember, 1967, shows the value of finishe leather turned out by them to have been \$36,442. Upon this a tax of 21 per cent, is levied, making their tax for September 2011,05! True, this is an unusual amount, but the business of the firm is steadily increasing, and they are turning out more leather than any other establishment in Northern Pennsylvania, and more than all others taken together in this Congressional district." " We are glad to Jearn this. If the remaining pine in this county could be traded off for hemlock and oak, the county would be a million better'off, and perhaps more than that. With a railroad from Lawrenceville to Wilson Creek, we can have two or three more tanneries in operation, each turning out as much as Messrs. Johnson &

Suppen Death.-We are pained to announce the sudden death of Mrs. Andrew Crowl, of this village, which took place on the cars between Canton and Troy, Thursday last. Mrs. Crowl had been on a visit to Lincoln, Delaware where her husband is engaged in business, and was on her return to Wellshoro, being recalled by the illness of her little boy. She was observed to le in a fainting condition by her fellow passengers, and every means of restoration procurable were employed, but in vain. The sad news was dispatched to her husband, pt Lincoln, and the body was taken to the house of her parents ucar Troy, whence it was brought to Wellshoro on

The and news cast a deep gloom of er our little village. The deceased was universally beloved, an amiable, winning woman, a model wife and ten der mother. For many years an invalid, her sufferings only served to devolop those Christian graces which more adorn woman than jewels and gems of price. She was a devoted member of the Protestant Episcopal Church, and her life was a witness to the carnestness, of her faith and the vitality of her hope.

The circumstances attending the funeral were panful. The husband was absent, the son, ignorant of his loss, lay ill , of fever, and the only dingheer, now truly alone, left to bear the crushing weight of this sudden affliction. .

It may be mentioned as nestriking circumstance that her sudden death loccurred but a few miles from the spot where, ten years ago, her eldest daughter met with a violent death.

TEMPERANCE. - The meeting called to resemble at the Court House to morrow after noon (Thursday) will be addressed by Rav. G. D Chemonith, Secretary of the State Telliperane Union. The object of the meeting is the organhation of a County Temperance Union, auxiliary to the State Union. The plan of the Temperance Union is, briefly to discourage the use, sale and manufacture of liquors, by public meetings, the the pledge, the diffusion of temperance literature, and the enforcement of the law

Is it too much to expect of the law-loving and church going people of Wellsboro, and vicinity that they shall come forward and assist to estab lish a public temperance Union in this County? Until men become sober there can be no safety for the young men of the land. We do not regard it as asking too much, or expecting too much of the orderly and religioue, to ask them and expeet them to be at the Court House to-morrow afternoon and help to reform so much of the world as they may. What nobler cause invites to labor than human progress? We must unite to make the world better and maver; and remember that, in the war between right and wrong there can be to truce, and no discharge. Let the men and wo-

men of Wellshoro enlish snew to-morrow. Gossip,-Mrs. Grundy, Thurlow Weed, Manton Marble, and H. J. Raymond, to gether with a large shoal of minnows in the news. It is also true that Abra- quality and price cannot be beaten. ham Lincoln, unlike most of his predecessors, did not make a fortune out of his salary as President. He was too generous to do that. So it seems, that, after paying his debts, the remainder of his forfune yields Mrs. Lincoln and her little boy but a slender income. However, she became possessed of a valuable wardrobe during her husband's those bargains can be secured at W. R. SMITH'S SONS.

There are lots of fools who would starve in sating rather than convert an useless shawl into cash to defensively, that Mrs. Lincoln had no business to parado her destitutions, before the people. The American Cooking Stove.

A FTER twenty years experience in the mar A little twonty years experience in the manunacture of stoves, we became convinced,
some six years since, that a vast amount of
money was being expended by the people of this
country, in buying cheap and worthless stoves, a
large portion of which was wasted; and that
true economy consisted in buying the best stoves
that could be made, notwithstanding the price
was higher. With this view we proceeded to
construct the American Cooking Stove, and
spared no pains or expense to make it the best spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves. AMERIC'N WATCH WALTHAM, MASS.

The American Watch Company, of Waltham Mass., respectfully submit that their Watches are cheaper/more accurate, less complex, more durable, better adapted for general use, and more ca-sily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely o be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:

HENN. RAILROAD COMPANY. OFFICE OF THE GEN'L SPERINTENDENT, ALTOONA, PA., 15 Dec., 1866. GENTLEBEN: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we farnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction is earlier your watches give a gloss trouble and in saying your watches give us less trouble, and have word, and lo wear much longer without repairs than any watches we have ever had in use on this coal. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done

In these statements I am sustained by my predicessor, Mr. Lowis, whose experience extended over a series of years. Respectfully, EDWARD H. WILLIAMS, General Superintendent American Watch Co., Waltham.

We make now the different grades of watches, named respectively as follows: Appleton, Tracy & Co., Waltham, Mass. Waltham Watch Company, Waltham, Mass. P. S. Burtlett, Waltham, Mass.

Vm. Ellery, Lome Watch Company, Boston, Mass. All of these, with the exception of the Home Wach Company, are warranted by the American Wach Company to be of the best material, on the most approved principle, and to possess overy requisite for a reliable timekeeper. Every dealer selling these Watches is provided with the Compary's printed card of guarantee, which should telempany each Watch sold, so that buyers may ed sure they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and would caution nurchasors to be on their guard aminst imposition.

Any grades of Waltham Watches may be purased of Watch Dealers throughout the country. ROBBINS & APPLETON, Sept. 4, 1867-1m. 182 Broadway, N. Y.
