The Wellsboro Academy will be open for the reception of Pupils, on Wednesday, Oct 30th 1867. Francis D. Hodoson,

CORRECTION .- In the notice to teachers by Charleston School Board, published last week. we made the day of hiring Nov. 30. It should have been Nov. 9, as now corrected.

PEACHES.—We are indebted to Mr. a cleak to his baseness, it is a fact that thieves, Wm. P. Shumway for a half peck of peaches, as a rule, do not care to associate with the honest raised on his farm. They cat well and would and upright. The prostitute does not find the preserve first-rate, These are the first native circles of virtue and respectability congenial, and peaches we have seen this year.

The Lewisburg Chronicle right on the heels of the election, enlarges its borders to eight columns per page. We admire the pluck of friend Cornelius, and hope he may increase still more as the years go by.

PERSONAL .- We last week had the pleasure of a call from Mr. A. S. Irving, formerly of this village, but for several years a resident of Toronto, Canada. Accompanied by his wife he has been spending a few days among friends in this region. Mr. Irving reports business in a lively condition in the New Dominion.

REMOVED .-- Our friend, Jno. I. Mitchelf, Esq., has opened a Law-Office over Roy's Ding Store, entrance opposite the Agitator Office same floor. We are glad to have such a good neighbor, and wish him a full measure of clients.

LUMBERMEN AROY !-- We learn that Messrs. W. T. Willard and Nathaniel Rice, on the 25th inst., felled the timber, butted, measured and topped logs for 70,000 feet of lumber. They neter to Messrs. Chas. Herrington, A. Stevens, Pope, Mathers, More, Furman, and others. If any other two men happen to beat it let us know.

THE CONCERT.—The juvenile concert at the Court House last Saturday evening was worthy of a larger patronage. Mr. Dartt appears to understand the art of teaching, and the performance was in overy way creditable to master and pupils. The audience was small and the 'receints light.

DONATION. - Rev. A. Dodge desires to return thanks for the liberal donation made bim by the people of the Baldwin District, at the house of Mr. L. Nobles, Friday evening last. The receipts were \$91. He also wishes to mention the agreeable fact that the best of order was is out of employment; that she is tired to death observed by the young people during the evening. with holding her hands in her Jap while her Mr. Dodge informs us that during the three mother washes the dishes, bakes, washes, and weeks' revival in that neighborhood thirty-five irons. We advise the distressed damsel with the persons were hopefully converted and made a aristocratic name to try her hands at washing public profession of religion.

CLARK'S CONCERT .- JAMES G. CLARK, in a manner uscless. But better do that than do the poet-vocalist, will sing in Knoxville, Tuesday nothing, especially when doing nothing becomes evening, Nov. 5; at Nelson, Wednesday evening, Nov. 6: at Mansfield, Thursday evening, Nov. 7: and at Tioga, Friday evening, Nov, S. As Mr. Clark has sung in those villiages before, the mere announcement of his coming will secure him full houses. Few men can so successfully embody We advise him to try a hardware store. If he the soul of poesy in song, fewer possess voices so true and tender. He promises to visit Wellsboro whenever we can furnish him a public hall. Shall it be soon or late rests with men of enterprise .-We hope it may be before the new railroad is built, but it would not surprise us if the locome tive whistle should be heard in this region before enterprise so thoroughly arouses itself as to provide some place where the Wellsboro public can

be amused and instructed.

THE COUNTY HOUSE.-We learn that this fastitution will probably be spen for inuntes ut the first of January. Undoubtedly the Commissioners are aware of the fact that its success depends much upon the Superintendent. He should be a man of superior tact, honest, public spirited, and energetic. Should the appointment be controlled by the minimum, price put in, we suspect that the whole thing will be very unpopular in less than six months. It is to be hoped that the Commissioners will forget that they have personal friends, and with necessary independence select the very best man in the county, at a liberal salary, Good management and wise liberality will ensure the success of the enterprise. On the other hand, to let the superintendency to the lowest responsible bidder, for the first year, will eventuate in disaster.

THE RAILROAD .- The survey of the route of the Wellsboro and Lawrenceville Railroad is in progress. The engineers are on Crooked Creek, coming this way, and have reached point near Mr. Calvin Hammond's.

In answer to the endless questions which reach touching the road, we can only say that, as Mr. Magee very properly keeps his own counsel, we know nothing more of the time when the road will be built than our questioners. There is ometimes a wide difference between certainty and probability, and we can only judge of the probble. We regard the road as probable. If those

who own real estate, and are to be most benefitted gby the road shall be liberal, the probabilities will merease. The road would bring thousands of acres of land into market, and measurably appreciate the value of improved farms for miles on geither side. Every thing to induce the building of the road skould be done and offered.

FORTUNES GIVEN AWAY.-Nice, isn't it? Fortunes for \$1-fortunes for less than a dollar-nice, isn't it? Messrs G. P. Rowell & Co., recommend Messrs. A. T. Williams & Company to advertise in The Agitator. To advertise, what? A great "Gift Concert," at which \$500,000 is tobe given away. Thank you. Not any for us if you please. A FTER twenty years experience in the man-placture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that large portion of which was wasted; and that true coonomy consisted in buying the best stoves that could be made, notwithstanding, the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And improvements secured by letters patent. In this manner we do not hesitate to say, we shave. brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effective-ness. In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satis-fied we study the interest of those purchasing

SEWING MACHINES.

We Claim for the Florence the laim for the Florence the following advan-tuges over any and all Sewing Ma-chines in the World: It makes four different stitches, the lock, knot, double lock, and double knot, on one and the same machine. Ruch stitch being alike on both rides of the fabric.

Every Machine has the reversible feed motion, which enables the operator, by simply turning a thumb screw, to have the work run either to the

right or left, to stay any part of the seam, or fasten the onds of seams, without turning the fabric. Changing the length of slitch, and from one kind of stitch to another, can readily be done while the Machine is in motion. The needle is easily adjusted, and does not skip It is almost noiseless, and can be used where quiet is necessary.

Its motions are all positive; there are no prings to get out of erdor, and its simplicity on-

Ables any one to operate it.

It does not require finer thread on the under than for the upper side, and will sew across the heaviest seams, or from one to more thicknesses of cloth, without change of needle, tension, breaking thread, or skipping stitches.

The Hemmer is easily adjusted and will turn any width of hem desired.

No other Machine will do so great a range of work as the Florence. It will hom, fell, bind, gather, braid, quilt, and gather and sew on a ruftle at the same time. It has no springs to get out of order, and will last

operators.
While possessing the above, and many other advantages, the Florence is sold at correspond-ing prices with other first-class Machines, and a careful examination will fully substantiate all that we have claimed for it, and justify the assor-tion we now make, that it is the best Sewing Machine in the world. We warrant every Machine to be all that weclaim for it, and to give entire satisfaction, and
